SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-40701; File No. SR-OPRA-98-1]

Options Price Reporting Authority; Order Granting Approval of Amendment to OPRA Plan Adopting a New Rider to OPRA's Vendor Agreement Permit Vendors to Utilize Electronic Contracts

November 23, 1998.

I. Introduction

On September 18, 1998, the Options Price Reporting Authority ("OPRA")¹ submitted to the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to Rule 11Aa3-2 under the Securities Exchange Act of 1934 ("Exchange Act"), an amendment to the Plan for Reporting of Consolidated Options Last Sale Reports and Quotation Information ("Plan"). The proposed amendment adds a new Electronic Contract Rider ("Rider") to OPRA's Vendor Agreement that would permit OPRA's vendors to utilize electronic contracts with certain categories of Internet or other on-line customers in satisfaction of the requirement of the Vendor Agreement for written agreements between vendors and their customers.

The proposed amendment was published for comment in the **Federal Register** on October 20, 1998.² No comments were received on the proposal. This order approves the proposal.

II. Description and Purpose of the Amendment

The purpose of the proposed amendment is to allow OPRA vendors who wish to offer Internet or other on-line access to options market

¹ OPRA is a National Market System Plan approved by the Commission pursuant to Section 11A of the Exchange Act and Rule 11Aa3-2 thereunder. See Exchange Act Release No. 17638 (March 18, 1981).

The Plan provides for the collection and dissemination of last sale and quotation information on options that are traded on the member exchanges. The five exchanges which agreed to the OPRA Plan are the American Stock Exchange ("AMEX"); the Chicago Board Options Exchange ("CBOE"); the New York Stock Exchange ("NYSE"); the Pacific Exchange ("PCX"); and the Philadelphia Stock Exchange ("Phlx").

² See Exchange Act Release No. 40547 (October 13, 1998) 63 FR 56051.

information to Nonprofessional Subscribers or PC Dial-Up customers to make use of electronic contracts in satisfaction of the requirement of the Vendor Agreement that there be written agreements between OPRA's Vendors and these categories of customers. This amendment is proposed in response to requests from an increasing number of OPRA vendors (including some whose activities as vendors are in support of their primary function as electronic brokers) to be able to conduct all of their business with customers electronically, including contract administration.

The Rider imposes several conditions on the use of these electronic contracts by vendors. As a threshold matter, a vendor is permitted to use these electronic contracts only if the vendor's other agreements with its customers may be entered into electronically. In addition, the vendor is required to submit for OPRA's approval an "Attachment A" that describes the procedures and systems the vendor intends to utilize in administering its electronic contracts. The Rider requires vendors to use the forms of electronic contracts (one for Nonprofessional Subscribers and one for Dial-Up Customers), except that vendors are permitted to use their own forms of electronic contracts for Dial-Up Customers, subject to the approval of OPRA. In this respect the Rider is comparable to the existing Vendor Agreement, which requires the use of a specified form of written Nonprofessional Subscriber Agreement and requires OPRA's approval of each form of Dial-Up Agreement.

The Rider imposes certain requirements on vendors concerning the manner in which they present electronic contracts to their customers and how customers may indicate their assent to these contracts. These requirements are intended to assure that customers are given an opportunity to read the full text of each contract before they are asked to assent to it, and that procedures are in place to verify the identity of the customers who enter into agreements electronically and to confirm the terms of the electronic contracts to which they have agreed. Vendors are required to maintain detailed records of all electronic contracts entered into, and to make such records available for OPRA's inspection. Finally, each time a customer accesses the Options Information Service, the vendor must give the customer notice concerning the electronic contract and must make the text of that contract available for the customer's review.

Vendors are also required to indemnify OPRA against loss in the
