

Exchange also proposes a corresponding change to its minor rule plan.

III. Discussion

The Commission believes that the proposed rule change is consistent with Section 6(b)(5) of the Act⁹ in that it promotes just and equitable principles of trade and protects investors and the public interest by revising the Exchange's financial arrangement rule and strengthening the order splitting provision of Advice F-11.¹⁰ The Commission believes the increased dollar limit updates the Exchange's financial arrangement rule to take into account inflation without significantly reducing the protections of the rule. The Commission also believes that extending Advice F-11 to dually and financially affiliated ROTs should enhance competition in options traded on the PHLX by preventing one firm from garnering all of the executions in a particular option by splitting orders in the trading crowd among members who are either dually or financially affiliated.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹¹ that the proposed rule change (SR-PHLX-98-04) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹²
