

reported as a whole number on the visa, as follows:

1. Shipments of less than a single whole unit must be reported as "one" whole unit;

2. Shipment quantities over one whole unit, may be rounded up or down to a whole number. Quantities one-half of a whole unit or higher must be rounded up. Shipment quantities of less than one-half of a whole unit may be rounded down.

In the letter published below, the Chairman of CITA directs the Commissioner of Customs to require that the quantity stated on the visa be listed in whole numbers only.

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

November 30, 1998.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Pursuant to section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); and Executive Order 11651 of March 3, 1972, as amended, the United States Government has notified all countries with visa arrangements with the United States of the requirement to issue visas in whole numbers.

Effective on January 1, 1999, you are directed to require that shipment quantities of textile and apparel products entered for consumption or withdrawn from warehouse for consumption into the United States (i.e., the 50 States, the District of Columbia and the Commonwealth of Puerto Rico) be stated on the visa in whole numbers only. Quantities stated in decimals or fractions will not be accepted. Shipment quantities not in whole units must be reported as a whole number on the visa, as follows:

1. Shipments of less than a single whole unit must be reported as "one" whole unit;

2. Shipment quantities over one whole unit, may be rounded up or down to a whole number. Quantities one-half of a whole unit or higher must be rounded up. Shipment quantities of less than one-half of a whole unit may be rounded down.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

DEPARTMENT OF DEFENSE

Department of the Army

Finding of No Significant Impact (FNSI) and Final Programmatic Environmental Assessment (PEA) for the Army National Guard Pest Management Program

AGENCY: National Guard Bureau, Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality (CEQ) Regulations (40 CFR Part 1500-1508); and Army Regulation 200-2, the National Guard Bureau (NGB) gives notice that an Environmental Impact Statement (EIS) is not being prepared for adoption of an Integrated Pest Management (IPM) Program.

DATES: The public review period for this FNSI and PEA ends on January 4, 1999.

ADDRESSES: Copies of the FNSI and PEA can be obtained by contacting Ms. Pamela Goodman, National Guard Bureau, Office of Public Affairs, Environmental Branch, 4501 Ford Avenue, Alexandria, VA 22301.

FOR FURTHER INFORMATION CONTACT: Ms. Pamela Goodman at 1-800-252-8959.

SUPPLEMENTARY INFORMATION: A PEA has been prepared to examine the potential environmental impacts associated with this determination. The EA for this Federal action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, the NGB has determined that the preparation and review of an EIS is not needed for this project. Based on the findings, the NGB has reached a FNSI with regard to its determination on this proposed action.

The final PEA describes and analyzes the proposed action, consisting of three action alternatives, and the no action option. The alternatives analyzed were: (1) mechanical, cultural, and biological management techniques; (2) chemical management techniques; (3) an emphasis on nonchemical techniques with limited chemical management techniques with a general reduction of toxic chemical used by 50%; and (4) no action. All alternatives could have been implemented in full compliance with applicable state and Federal laws and regulations. Alternative number 3 was selected for implementation.

The NGB provided a 30-day public comment period on the draft PEA. The draft PEA was also forwarded to the Environmental Protection Agency, the
