#### Approval and Promulgation of Implementation Plans; State of Missouri

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve new Missouri rule 10 CSR 10-6.330 entitled "Restriction of Emissions from Batch-Type Charcoal Kilns" as a revision to the Missouri SIP. This rule requires batch-type charcoal kilns to substantially reduce emissions of particulate matter, volatile organic compounds, and carbon monoxide. In the Final Rules section of this **Federal Register**, the EPA is approving the state's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

**DATES:** Written comments must be received on or before January 7, 1999.

**ADDRESSES:** All comments should be addressed to: Joshua A. Tapp, Environmental Protection Agency, Air Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101.
