Contract Review Meeting

In accordance with Section 10(a) of the Federal Advisory Committee Act (5 U.S.C. Appendix 2), announcement is made of the following technical review committee to meet during the month of December 1998:

Name: Technical Review Committee on the Agency for Health Care Policy and Research SBIR Topic 010—Tools to Assist Children/Parents Manage Their Chronic Health Needs.

Date and Time: December 14, 1998, 1:00 p.m.–5:00 p.m.

Place: Agency for Health Care Policy and Research Conference Center, 6010 Executive Boulevard, 4th Floor, Conference Room B, Rockville, Maryland, 20852.

This meeting will be closed to the public.

Purpose: The Technical Review Committee's charge is to provide, on behalf of the Agency for Health Care Policy and Research (AHCPR) Contracts Review Committee, recommendations to the Administrator, AHCPR, regarding the technical merit of contract proposals submitted in response to a specific Request for Proposals regarding the AHCPR Research SBIR Topic 010,—Tools to Assist Children/Parents Manage Their Chronic Health Needs, that was published in the Commerce Business Daily on August 27, 1998.

The purpose of these contracts is to fulfill the Agency for Health Care Policy and Research's participation in the Small Business Innovation Research program (SBIR). The Small Business Research and Development Enhancement Act of 1992 requires the agencies of the Public Health Service (PHS), Department of Health and Human Services (HHS), and other federal agencies to reserve 2.5 percent of their current fiscal year extramural budgets for research or research and development for an SBIR program. This legislation is intended to

expand and improve the SBIR program; emphasize increased private sector commercialization of technology development through federal SBIR research and development; increase small business participation in federal research and development; and, foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in the SBIR program.

In Phase I of the SBIR program the contractor will determine and report on the scientific, technical and commercial merit and feasibility of the proposed research or research and development efforts including its ability or capacity to carry out its research or R&D proposal, prior to the provision of further Federal support in Phase II.

The U.S. Department of Health and Human Services issued a Solicitation of the Public Health Service for Small Business Innovation Research Contract Proposals (PHS 99-1) for Topic No. 010 to develop "Tools to Assist Children/Parents Manage Their Chronic Health Needs." An estimated 3 to 30 percent of children (between 2.5 and 25 million children ages 0-21) suffer from one or more chronic conditions. In Phase I, the contractor will determine the factors important to families caring for chronically ill and disabled children. Offerors should propose an approach or combination of approaches to identify the factors. Some approaches to be considered are literature review, focus groups, secondary data analysis and other techniques appropriate for Phase I contracts. Then, the contractor will develop a prototype decision support tool to assist in family care of a child's chronic illness or disease. Prototype tools could include games for children with chronic illness, technologies that link families with the health care system, workbooks, interactive videos, computer-based or Internet based tools. The prototype should focus on a limited group of chronic conditions requiring families to seek care or support.

Agenda: The Committee meeting will be devoted entirely to the technical review and evaluation of contract proposals submitted in response to the above-referenced Request for Proposals.

The Administrator, AHCPR, has made a formal determination that this meeting will not be open to the public. This action is necessary to safeguard confidential proprietary information and personal information concerning individuals associated with the proposals that may be revealed during this meeting, and to protect the free exchange of views, and avoid undue interference with Committee and Department operations. This is in accordance with section 10(d) of the Federal Advisory Committee Act, 5 U.S.C., Appendix 2, implementing regulation, 41 CFR 101-6.1023 and procurement regulation, 48 CFR section 315.604(d).

Anyone wishing to obtain information regarding this meeting should contact Sandra Robinson, Center for Quality Measurements & Improvement, Agency for Health Care Policy and Research, 2101 East Jefferson Street, Suite 501, Rockville, Maryland, 20852, telephone (301) 594-1703.

Dated: December 2, 1998.

John M. Eisenberg,

Administrator.
