ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[CA 152–0104b; FRL–6206–6]

Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, Kern County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is approving revisions to the California State Implementation Plan (SIP) which concern the control of volatile organic compound (VOC) emissions from steam enhanced crude oil production well vents, refinery process vacuum producing devices, refinery process unit turnaround, and polystyrene foam industry.

The intended effect of this action is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this **Federal Register**, the EPA is approving the state's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any
