Large Newspaper Printing Presses and Components Thereof, Whether Assembled or Unassembled From Germany: Notice of Termination of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Termination of Antidumping Duty Administrative Review.

SUMMARY: On October 29, 1998, the Department of Commerce ("the Department") published in the Federal Register (63 FR 58009) a notice announcing the initiation of an administrative review of the antidumping duty order on large newspaper printing presses and components thereof ("LNPPs") from Germany, covering the period September 1, 1997 through August 31, 1998, for one manufacturer/exporter of the subject merchandise, MAN Roland Druckmaschinen AG ("MRD"). This review has now been terminated as a result of the interested party's withdrawal of its request for an administrative review.

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930 ("the Act") are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Rounds Agreements Act.

Postponement of Final Results

On September 8, 1998, the Department published the preliminary results for this review. 63 FR 47469. Section 751(a)(3)(A) of the Act requires the Department to complete an administrative review within 120 days of publication of the preliminary results. However, if it is not practicable to complete the review within the 120-day time limit, section 751(a)(3)(A) of the Act allows the Department to extend the time limit to 180 days from the date of publication of the preliminary results. The Department has determined that it is not practicable to issue its final results within the original 120-day time limit (See Decision Memorandum from Joseph A. Spetrini to Robert LaRussa dated November 17, 1998). We are therefore extending the deadline for determination of final results in this review to 180 days from the date on which the notice of preliminary results was published. The fully extended deadline for determination of the final results is March 7, 1998.
