

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Office of the Secretary****Office of Public Health and Science; Availability of Crisis Response Teams for Technical Assistance**

AGENCY: Office of Public Health and Science, in the Office of the Secretary (OPHS/OS), Department of Health and Human Services (HHS).

ACTION: Notice.

AUTHORITY: 42 U.S.C. 241, 243.

SUMMARY: The Office of Public Health and Science announces the availability of technical assistance teams, known as crisis response teams, to provide multidisciplinary technical assistance to localities most highly impacted by HIV/AIDS within racial and ethnic minority communities. The HIV/AIDS epidemic disproportionately affects racial and ethnic minority populations nationally, with major metropolitan areas and urban centers most heavily impacted by high AIDS case rates and large numbers of people living with HIV disease. The crisis response team would work in partnership with local community officials, public health personnel and community leaders to further describe the local HIV/AIDS epidemic and its impact upon vulnerable populations, assist them in identifying potential strategies to enhance prevention efforts, and maximize community health and support service networks and access to care. Findings of the crisis response team will be provided to local elected and health department officials, and to the HIV community planning groups and planning councils for their consideration and action. The crisis response teams must be requested by the chief elected official of an eligible jurisdiction, in collaboration with the director of the local health department and State/local HIV community planning groups and HIV planning councils.

DATES: Letters of request from localities requesting to apply for a crisis response team must be received on or before January 25, 1999.

ADDRESSES: Letters of request should be submitted to: Director, Office of HIV/AIDS Policy, Office of Public Health and Science, Room 736-E, 200 Independence Avenue SW., Washington, DC 20201.

FOR FURTHER INFORMATION CONTACT: Office of HIV/AIDS Policy, Office of Public Health and Science, telephone (202) 690-5560.

SUPPLEMENTARY INFORMATION: Eligibility criteria for localities wishing to apply

for a crisis response team are: (1) Eligible metropolitan statistical areas with populations of 500,000 or greater; (2) 1,500 or greater living AIDS cases among African Americans and Hispanic Americans; (3) at least 50 percent of living AIDS cases within the MSA are African American and Hispanic Americans combined; and (4) the chief elected official of the MSA, in collaboration with appropriate health officials, must submit a written request to the Secretary requesting a crisis response team. In the case that multiple jurisdictions are represented within an eligible MSA, the chief elected official of the city or urban county that administers the public health agency that provides outpatient and ambulatory services to the greatest number of individuals with AIDS, as reported to and confirmed by the Centers for Disease Control and Prevention, in the eligible area is the individual responsible for making a written request to the Secretary. This letter of request must indicate the support of the Director of the jurisdiction's local health department for the crisis response team, a description of the key issues, and a confirmation of the commitment of local officials to working with the communities most impacted by HIV/AIDS over a sustained period. Smaller communities with under 500,000 population in which the demographics of the HIV epidemic are rapidly changing may submit a letter of request following the process outlined above; these requests will be considered separately. The Virgin Islands will be separately considered for a crisis response team given the unique nature of the HIV/AIDS epidemic in this geographic area. Metropolitan statistical areas qualifying under criteria one through three include: Atlanta, GA; Baltimore, MD; Chicago, IL; Detroit, MI; Fort Lauderdale, FL; Houston, TX; Jersey City, NJ; Los Angeles-Long Beach, CA; Miami, FL; New Haven-Bridgeport-Danbury-Waterbury, CT; New York, NY; Newark, NJ; Philadelphia, PA; San Juan-Bayamon, PR; Washington, DC-MD-VA-WV; and West Palm Beach-Boca Raton, FL. The Department will initially deploy crisis response teams to three jurisdictions and evaluate their effectiveness, and respond to further requests for this technical assistance within its capacity to assemble the appropriate expert teams.

Dated: December 16, 1998.

Glen E. Harelson,

Acting Director, Office of HIV/AIDS Policy.
