#### Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, Monterey Bay Unified Air Pollution Control District

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve a revision to the California State Implementation Plan (SIP) which concerns the control of oxides of

nitrogen NO<sub>x</sub> and carbon monoxide (CO) emissions from boilers of the electric power generation facility at Moss Landing in the Monterey Bay Unified Air Pollution Control District (MBUAPCD) area.

The intended effect of proposing approval of this rule is to regulate emissions of NO<sub>x</sub> and CO in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this **Federal Register**, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will not take effect and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this rule. Any parties interested in commenting on this rule should do so at this time.

**DATES:** Written comments must be received in writing by February 1, 1999.

**ADDRESSES:** Written comments should be addressed to: Andrew Steckel, Rulemaking Office (AIR-4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve revisions to the California State Implementation Plan (SIP) that concern three administrative rules.

The intended effect of proposing approval of these rules is to incorporate changes for clarity and consistency with revised federal and state regulations. EPA is proposing approval of these revisions to be incorporated into the California SIP for the attainment of the national ambient air quality standards (NAAQS) for ozone under title I of the Clean Air Act, as amended in 1990 (CAA or the Act). A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule.
