

partner and BPA's ability to ultimately continue to provide public benefits to the region.

Public Availability

This Power Subscription Strategy ROD, which satisfies BPA's requirements under the National Environmental Policy Act (NEPA), will be distributed to interested and affected persons and agencies. The ROD will also be posted on BPA's web-site, which is <http://www.bpa.gov/power/subscription>. Copies of BPA's Power Subscription Strategy, the Business Plan, Business Plan EIS, and the Business Plan ROD and additional copies of this NEPA ROD are all available from BPA's Communications Office, P.O. Box 12999, Portland, Oregon 97212. Copies of these documents may also be obtained by using BPA's nationwide toll-free document request line, 1-800-622-4520.

Conclusion

After participating in an extensive public process, I have decided to adopt and implement BPA's Power Subscription Strategy. Consistent with the decision strategy laid out in BPA's BP EIS, I have examined that EIS and found that this decision is clearly within its scope. In making this decision to adopt the Power Subscription Strategy, I have carefully considered the potential environmental impacts. Further, in proceeding with the Strategy, BPA is guided by and remains fully committed to the Fish and Wildlife Funding Principles.

This decision is a direct application of BPA's Market-Driven approach for participation in the increasingly competitive electric power market. BPA is offering a variety of power products and pricing to address customers' needs and make the purchase of federal power more attractive to customers. BPA will begin bilateral negotiations during which customers will make federal power purchase commitments and execute individual contracts.

Implementing the Power Subscription Strategy will result in reliable and predictable BPA revenues which will provide financial stability over time to help provide public benefits, avoid stranded costs and reduce the need to invoke risk management strategies. BPA

is responding to customers' needs while ensuring the financial strength necessary to produce the public benefits that are of concern to the people of the Pacific Northwest. Making Power Subscription contracts available to customers is a prudent business and public agency decision that reflects the values of the region.
