SUPPLEMENTARY INFORMATION:

Background.—On October 15, 1973, the Department of the Treasury issued an antidumping finding on imports of steel wire rope from Japan (38 F.R. 28571). On March 25, 1993, the Department of Commerce issued an antidumping duty order on imports of carbon steel wire rope from Mexico (58 F.R. 16173). On March 26, 1993, the Department of Commerce issued an antidumping duty order on imports of carbon steel wire rope from Korea (58 F.R. 16397). The Commission is conducting reviews to determine whether revocation of the finding and/or orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time.

Definitions.—The following definitions apply to these reviews:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The Subject Countries in these reviews are Japan, Korea, and Mexico.

(3) The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determination concerning steel wire rope from Japan, as subsequently clarified by the Commission (38 F.R. 27560, October 4, 1973), the Commission defined the Domestic Like Product as steel wire rope, except brass electroplated steel truck tire cord of cable construction specially packaged for protection against moisture and atmosphere. In its original determinations concerning carbon steel wire rope from Korea and Mexico, the Commission defined the Domestic Like Product as all steel wire rope, whether made of carbon steel or stainless steel. One Commissioner defined the Domestic Like Product differently.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determination concerning steel wire rope from Japan, as subsequently clarified (38 F.R. 27560, October 4, 1973), the Commission defined the Domestic Industry as producers of steel wire rope, except brass electroplated steel truck tire cord of cable construction specially packaged for protection against moisture and atmosphere. (The Commission stated that there was no domestic production of the latter brass tire cord product.) In its original determinations concerning carbon steel wire rope from Korea and Mexico, the Commission defined the Domestic Industry as producers of all steel wire rope, whether made of carbon or stainless steel. One Commissioner defined the Domestic Industry differently.

(5) The Order Dates are the dates that the antidumping duty orders under review became effective. In the review concerning steel wire rope from Japan, the Order Date is October 15, 1973. In the reviews concerning carbon steel wire rope from Mexico and Korea, the Order Dates are March 25, 1993, and March 26, 1993, respectively.

(6) An Importer is any person or firm engaged, either directly or through a

parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the reviews and public service list.—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the reviews as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the reviews.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in these reviews available to authorized applicants under the APO issued in the reviews, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. § 1677(9), who are parties to the reviews. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with these reviews must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 23, 1999. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as

specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is March 19, 1999. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the reviews you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determinations in the reviews.
