#### 50 CFR Part 648

[I.D. 122398E]

#### Fisheries of the Northeastern United States; Atlantic Surf Clam and Ocean Quahog Fishery; Minimum Clam Size for 1999

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

**ACTION:** Notice of suspension of surf clam minimum size limit.

**SUMMARY:** NMFS informs the public that the minimum size limit of 4.75 inches (12.065 cm) for Atlantic surf clams is suspended for the 1999 fishing year. The intended effect is to relieve the industry from a regulatory burden that is not necessary as the majority of surf clams harvested are larger than the minimum size limit.

**DATES:** January 1, 1999, through December 31, 1999.

**FOR FURTHER INFORMATION CONTACT:** David Gouveia, Fishery Management Specialist, 978-281-9280.

**SUPPLEMENTARY INFORMATION:** Federal regulations implementing the Fishery Management Plan for the Atlantic Surf Clam and Ocean Quahog Fisheries (FMP) allow the Regional Administrator, Northeast Region, NMFS (Regional Administrator), to suspend annually by publication of an announcement in the **Federal Register**, the minimum size limit for Atlantic surf clams (50 CFR 648.72(c)). This action may be taken unless discard, catch, and survey data indicate that 30 percent of the Atlantic surf clam resource is smaller than 4.75 inches (12.065 cm) and the overall reduced size is not attributable to beds where growth of the individual clams has been reduced because of density-dependent factors.

At its August meeting, the Mid-Atlantic Fishery Management Council (Council) accepted the recommendations of its Surf Clam/Ocean Quahog Committee and voted to recommend that the Regional Administrator suspend the minimum size limit for surf clams in 1999. Commercial surf clam shell length data for 1998 indicate that only 11.3 percent of the samples were composed of surf clams that were less than 4.75 inches (12.07 cm). Based on these data, the Regional Administrator adopts the Council's recommendation and publishes this announcement to suspend the minimum size limit for Atlantic surf clams for the period January 1, 1999, through December 31, 1999.

This action is authorized by 50 CFR part 648 and is exempt from review under E.O. 12866.

**Authority:** 16 U.S.C. 1801 *et. seq.*

Dated: December 29, 1998.

**Gary C. Matlock,**

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 981222313-8320-02; I.D. 122898C]

#### Fisheries of the Exclusive Economic Zone Off Alaska; Closures of Specified Groundfish Fisheries in the Bering Sea and Aleutian Islands

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is closing specified groundfish fisheries in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the prohibited species bycatch allowances and directed fishing allowances specified for the 1999 interim total allowable catch (TAC) amounts.

**DATES:** Effective 0001 hrs, Alaska local time (A.l.t.), January 1, 1999, until superseded by the notice of Final 1999 Harvest Specification for Groundfish, which will be published in the **Federal Register**.

#### FOR FURTHER INFORMATION CONTACT:

Mary Furuness, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(d), if the Administrator, Alaska Region, NMFS (Regional Administrator) determines that the amount of a target species or "other species" category apportioned to a fishery will be reached, the Regional Administrator may establish a directed fishing allowance for that species or species group. If the Regional Administrator establishes a directed fishing allowance, and that allowance is or will be reached before the end of the fishing year, NMFS will prohibit directed fishing for that species or species group in the specified subarea or district (§ 679.20(d)(1)(iii)). Similarly, under § 679.21(e), if the Regional Administrator determines that a fishery category's bycatch allowance of halibut, red king crab, or *C. bairdi* Tanner crab for a specified area has been reached, the Regional Administrator will prohibit directed fishing for each species in that category in the specified area.

NMFS will publish interim 1999 harvest specifications for these groundfish fisheries in the January 4, 1999, publication of the **Federal Register**. The Regional Administrator has determined that the interim TAC amounts of the following species will be reached and will be necessary as incidental catch to support other anticipated groundfish fisheries prior to the time that final specifications for groundfish are likely to be in effect for the 1999 fishing year. Consequently, in accordance with § 679.20(d)(i), the Regional Administrator establishes these interim TAC amounts as directed fishing allowances.
