

**DATES:** Consideration will be given to all comments received on or before March 8, 1999.

**ADDRESSES:** Written comments and recommendations on the proposed information collection should be sent to 110 Luke Avenue, Room 405, Bolling AFB, DC 20332-7050, ATTN: Maj Lynn Poppino.

**FOR FURTHER INFORMATION CONTACT:** To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address, or call AFMOA/SGOC at (202) 767-4077.

*Title, Associated Forms, and OMB Number:* Medical Treatment Facility Incident Statement, AF Form 765, OMB Number 0701-0135

*Needs and Uses:* The form is used by respondents (hospital employees, including non-governmental personnel and contractors) to report specific incidents that may have resulted in injury. It is not filed in a patient's record, but is kept by the medical treatment facility (MTF) Quality Service/Risk Manager until appropriate actions are completed to analyze the incident and determine whether corrective action is necessary to avoid repeat incidents. After completion, and corrective action if required, the form is retained for one year and then destroyed. Information recorded on the form is concise statements of fact. If the information is not collected as needed, MTFs will lose the opportunity to identify potential risks in the facilities. Possible outcomes for failure to identify risks are medical malpractice, patient injury or death, unnecessary financial expenditure, and poor public perception of the MTF.

*Affected Public:* All individuals in Air Force Medical Treatment Facilities, to include patients, visitors, contractors, civilian, and military staff members.

*Annual Burden Hours:* 1,056.

*Number of Respondents:* 13,200.

*Responses per Respondent:* 1.

*Average Burden per Respondent:* 5 minutes.

*Frequency:* In the event of an incident resulting in injury or possible injury.

**SUPPLEMENTARY INFORMATION:** Summary of Information Collection.

**Carolyn A. Lunsford,**

*Air Force Federal Register Liaison Officer.*

[Docket No. CP99-137-000]

#### Columbia Gas Transmission Corporation; Notice of Application To Abandon

December 31, 1998.

Take notice that on December 23, 1998, Columbia Gas Transmission Corporation (Columbia), 12801 Fair Lakes Parkway, Fairfax, Virginia 22030, filed under Section 7(b) of the Natural Gas Act, for authority to abandon by removal the Beaver Creek Compressor Station (Beaver Creek), located in Floyd County, Kentucky, effective November 30, 1999. Beaver Creek is comprised of nine compressor units which produce a total of 9,000 hp, two dehydration systems, and associated piping, all as more fully described in the application on file with the Commission and open to public inspection.

Columbia states that some of the Beaver Creek facilities are more than 70 years old, and that maintenance of the facility is difficult. Columbia states further, that as of November 30, 1999, Beaver Creek will no longer be needed to meet any of Columbia's service obligations.

Any person desiring to be heard or make any protest with reference to said application should on or before January 21, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the Protesters parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required, or if the Commission on its own review of the

matter finds that permission and approval of the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Columbia to appear or be represented at the hearing.

**Linwood A. Watson, Jr.,**

*Acting Secretary.*

### Federal Energy Regulatory Commission

[Docket No. CP99-130-000]

#### El Paso Natural Gas Company; Notice of Request Under Blanket Authorization

December 31, 1998.

Take notice that on December 21, 1998, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas 79978, filed in Docket No. CP99-130-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.212) for authorization to modify an existing metering facility, with appurtenances at the Lone Butte Meter Station Delivery Point located in Maricopa County, Arizona. El Paso states that modification of the metering facility will permit more accurate measurement under various flow conditions for the firm transportation and delivery of natural gas to Southwest Gas Corporation (Southwest). El Paso makes such request under its blanket certificate issued in Docket No. CP82-435-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission.

El Paso states that it provides firm transportation service for Southwest pursuant to the terms and conditions of an existing Transportation Service Agreement (TSA) dated August 9, 1991, as amended and restated.

El Paso further states that the Lone Butte Meter Station was designed to operate under constant, high-flow conditions, but states that due to the development of substantial variations in gas demand, service at the Lone Butte Meter Station Delivery Point fluctuates causing several low-flow conditions. El

Paso avers that the low-flow conditions prevent the metering equipment from performing accurate measurement. It is further indicated that when the low-flow conditions occur, that El Paso will experience certain amounts of lost and unaccounted for gas volumes.

In resolution of the problem occurring due to the various flow conditions, El Paso has determined that the installation of a second meter run to measure low-flow volumes would provide accurate measurement. El Paso is therefore proposing to modify the Lone Butte Meter Station Delivery Point by installing a turbine meter run designed to measure low-flow conditions accurately. It is stated that such facility modification should minimize repeated maintenance and related operational activities.

It is stated that the modification of the existing Lone Butte Meter Station Delivery Point will not significantly increase the deliveries of natural gas to Southwest, and that the proposed measurement equipment has a maximum design of 20 Mcf of natural gas per hour. El Paso indicated that under most operating conditions, that only the existing meter run or the proposed meter run will be operating at any given time. It is averred that the only time that both meter runs will be used will be under unusual peaking situations.

El Paso states that modification and operation of the existing Lone Butte Meter Station Delivery Point is not prohibited by El Paso's existing tariff. It is further stated that El Paso has sufficient capacity to accomplish the deliveries of the requested gas volumes without detriment or disadvantage to El Paso's other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for

authorization pursuant to Section 7 of the Natural Gas Act.

### Federal Energy Regulatory Commission

[Docket No. CP99-132-000]

#### Midwestern Gas Transmission Company, Texas Gas Transmission Corporation, Tennessee Gas Pipeline Company; Notice of Application

December 31, 1998.

Take notice that on December 22, 1998, Midwestern Gas Transmission Company (Midwestern), 1001 Louisiana, P.O. Box 2511, Houston, Texas 77252-2511, Texas Gas Transmission Corporation (Texas Gas), P.O. Box 20008, Owensboro, Kentucky 42304, and Tennessee Gas Pipeline Company (Tennessee), 1001 Louisiana, P.O. Box 2511, Houston, Texas 77252-2511 (jointly referred to as Applicants) filed a joint application pursuant to Section 7(b) of the Natural Gas Act (NGA) and the Commission's Regulations thereunder, requesting authority to abandon a natural gas exchange service between Midwestern and Texas Gas which was authorized in Docket No. G-20520,<sup>1</sup> all as more fully described in the application on file with the Commission and open to public inspection.

Specifically, Applicants propose to abandon the exchange service between Midwestern and Texas Gas provided under Midwestern's Rate Schedule EX-3 and Texas Gas' Rate Schedule X-25. Tennessee also requests authorization to abandon its certificate in connection with the exchange service. In that regard, Tennessee was issued a certificate in Docket No. G-20520 because the proposed exchange of gas between Midwestern and Texas Gas contemplated the possible use of Tennessee's pipeline facilities in order to effectuate deliveries. The Applicants state that this exchange service is no longer required by Midwestern and Texas Gas, and has been terminated by mutual agreement.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 21, 1999, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a

protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the Protesters parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.
