Increasing Transparency For the Tolerance Reassessment Process; Availability of Preliminary Risk Assessments for Five Organophosphates

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of documents that were developed as part of the Environmental Protection Agency's process for making reregistration eligibility decisions for the organophosphate pesticides and for tolerance reassessments consistent with the Federal Food, Drug, and Cosmetic Act (FFDCA) as amended by the Food Quality Protection Act of 1996 (FQPA). These documents are the preliminary human health and ecological risk assessments and related documents for acephate, disulfoton, methamidophos, oxydemeton methyl, and pirimiphos methyl. This notice also starts a 60-day public comment period for the preliminary risk assessments. Comments are to be limited to issues directly associated with the five organophosphates that have risk assessments placed in the docket and should be limited to issues raised in those documents. By allowing access and opportunity for comment on the

preliminary risk assessments, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information. The tolerance reassessment process will ensure that the United States continues to have the safest and most abundant food supply. The Agency cautions that these risk assessments are preliminary assessments only and that further refinements of the risk assessments will be appropriate for some, if not all, of these five pesticides. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

DATES: Written comments on these assessments must be submitted on or before March 9, 1999.

ADDRESSES: By mail, submit written comments in triplicate to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.
