SUPPLEMENTARY INFORMATION: American Soda, L.L.P. (American Soda) intends to construct and operate a commercial nahcolite solution mining operation in the northcentral portion of the Piceance Creek Basin in Rio Blanco County, Colorado. Nahcolite is naturally occurring sodium bicarbonate that is found in association with oil shale deposits. After the nahcolite is removed from the ground, it would be processed into a sodium carbonate solution and transported by a 44-mile pipeline south to a processing operation to be located at an existing industrial site in the Parachute Valley in Garfield County, Colorado. There it would be further processed to commercial grade sodium carbonate, sodium bicarbonate, and other sodium products which would then be shipped from the processing facility via a 4-mile long dedicated rail spur to an interstate rail connection near the town of Parachute.
