[Docket No. 50-245]

Northeast Nuclear Energy Company, Millstone Nuclear Power Station, Unit 1; Notice of Public Meeting

The NRC will conduct a public meeting at the Waterford Town Hall, 15 Rope Ferry Road, Waterford, Connecticut, on February 9, 1999, to discuss the NRC program for decommissioning Millstone Nuclear Power Station, Unit 1 (MP1) with interested members of the public. The plant is located at a three-unit site operated by Northeast Nuclear Energy Company (NNECO) near the town of Waterford, Connecticut. (The decommissioning activities are for Unit 1 only. Unit 2 is being prepared to resume power operations, and power operations have resumed for Unit 3.) The meeting is scheduled for 7:00-10:00 p.m., and will be chaired by Mr. Tony Sheridan, First Selectman, Town of Waterford. Although this meeting is not a part of the formal decommissioning process defined by NRC regulations, the NRC staff considers it a beneficial practice to meet with the public in the vicinity of the plant early in the decommissioning process. This meeting is intended to provide a forum for the public to have a dialog with the NRC staff on topics deemed by the public to

be important for the NRC to consider during its regulatory activities associated with the MP 1 decommissioning. There will be an opportunity for members of the public to ask questions of NRC staff and NNECO representatives and make comments related to decommissioning MP 1. The meeting will be transcribed.
