Synopsis of Public Notice

In accordance with a recent ruling by the Small Business Administration (SBA), the Commission is seeking further comment on small business size standards adopted for the auction of Location and Monitoring Service (LMS) and Wireless Communications Service (WCS) spectrum. This ruling is detailed in the attached letter from the Administrator of the Small Business Administration. The Commission seeks comment on these issues for purposes of obtaining SBA approval of the LMS and WCS size standards. This action will not affect the outcome of the WCS auction or the payment obligations of WCS licensees.

The LMS auction is scheduled to begin on February 23, 1999. In our rules for that auction, the Commission adopted small business size standards and associated bidding credits for LMS to remove entry barriers and ensure the participation of small businesses in the LMS auction and in the provision of service. The Commission sought comment, in general, on small business size standards for LMS, and one party commented on this issue. This commenter, Comtrak, recommended that the Commission adopt two small business categories in the LMS auction: (1) a "small business" category, for businesses with average gross revenues not to exceed \$10 million; and (2) a "very small business" category, for businesses with average gross revenues not to exceed \$3 million. Comtrak also recommended that the Commission rely solely on gross revenues, and not the number of employees, for the purpose of determining an entity's eligibility for small business incentives, as it has done in previous auctions. None of the commenters addressed capital requirements supporting the suggested small business thresholds.

The rules the Commission adopted for LMS define a "small business" as an entity with average annual gross revenues for the preceding three years not to exceed \$15 million. They define a "very small business" as an entity with average annual gross revenues for the preceding three years not to exceed \$3 million. Thus, in accordance with the Part 1 rules concerning competitive bidding, small businesses will receive a 25 percent bidding credit and very small businesses will receive a 35 percent bidding credit.
