SUPPLEMENTARY INFORMATION:

I. Background

The Performance Standards Assessment Form was developed in consultation with State Commissions. State Commissions collectively asked for clearly stated performance standards by which the Corporation would assess the adequacy of their administrative systems. Indicators of both competency and excellence were developed for each performance standard. A process is being developed for using these Performance Standards for both self and external assessment purposes.

The Corporation seeks approval of its new Performance Standards Assessment Form. The information that is collected will help the Corporation determine the extent to which each State Commission has in place the administrative systems for effective operation. The form will be used for both self and external assessments of grantees. Assessment results will be used by grantees for continuous improvement and by the

Corporation for guiding training and technical assistance resources, determining appropriate levels of grantee oversight, and determining eligibility for access to competitive funding and multi-year administrative awards.
