

constitutes an imminent hazard. To make such a determination the EPA requires states to submit EPA Form 8570-25:

1. Within 10 working days from the date a state issues, amends or revokes a registration, the state is required to notify the EPA, in writing, of the action. Notification of state registrations, or amendments thereto, shall include:

i. Effective date of the registration or amendment.

ii. Confidential statement of the formula of any new product.

iii. A copy of the draft labeling reviewed and approved by the state, provided that labeling previously approved by the Administrator as part of a federal registration need not be submitted.

2. Notification of state registrations or amendments shall be supplemented by the state sending to the EPA a copy of the final printed labeling approved by the state within 60 days after the effective date of the registration or amendment.

3. Notification of revocation of a registration by a state shall indicate the effective date of revocation and shall state the reasons for revocation.

4. The Agency may request, when appropriate, that a state submit any data used by the state to determine that unreasonable adverse effects will not be caused.

The Agency has 90 days to determine whether the SLN registration should be disapproved. If the SLN is disapproved, the state is responsible for notifying the affected registrant.

V. What are EPA's Burden and Cost Estimates for This ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this

collection of information is estimated to average 12.5 hours per response. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: States.

Estimated total number of potential respondents: 550.

Frequency of response: Determined by the state.

Estimated total/average number of responses for each respondent: 9.8.

Estimated total annual burden hours: 6,875.

Estimated total annual burden costs: \$521,950.

VI. Are There Changes in the Estimates From the Last Approval?

The number of applications made by the states since the renewal of the last ICR has not changed, and no changes have been made in the requirements for section 24(c) applications.

VII. What is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed in the "FOR FURTHER INFORMATION CONTACT" section.
