

(RSVP), Foster Grandparent Program (FGP), and Senior Companion Program (SCP). Data collection instruments have been in use for this purpose at least 2 decades in each of the programs. OMB approves data collection instruments for a maximum of 3 years at a time. Current 3-year approval ends in June 1999.

#### Current Action

The Corporation has initiated review and 3-year OMB approval on the PPVA instruments through 2002. As proposed revisions are minor, no change will result in the per-response burden of the data collection. However, the proposed reduction in frequency of reporting from annually to every two years will halve the average annual hour burden on individual respondents.

Proposed changes to all three existing instruments include the following:

- Reduce the frequency of submission from annually to every two years starting in 1999.
- Sponsor Type—Allow sponsors to check multiple types if applicable. Add “Indian Tribes” and “Volunteer Management Organization” to options.
- Add question on availability of access to the Internet.
- Question 1—Budgeted Volunteers/VSYs—Delete.

Modifications to the RSVP instrument include the following:

- Stations—Add “Museums” and “Other Public Agencies Not Elsewhere” to the list of options. Split Schools into “Schools-Elementary” and “Schools-Secondary”.
- Shorten service hour category names consistent with OMB-approved Accomplishment Survey.
- Category 201—Move Senior Center group programs not providing adult day care services to new category 213.
- Category 305—Move programs for dropouts to category 334 with GED programs.
- Category 312—Incorporate child literacy programs from category 336.
- Category 336—Delete; contents will be split between categories 312 and 338 by age.
- Category 338—Incorporate adult literacy activities from category 336.

Modifications to the FGP and SCP instruments include the following:

- Question 3—Revise age groupings for better consistency with RSVP and Census groupings. New groups are 60–64, 65–74, 75–84, 85+.
- Add a question on how many potential volunteers were ineligible due to over-income status.
- SCP Stations—Delete “Nutrition Sites” and add “Public Health Agencies”.

Type of Review: Renewal.

Agency: Corporation for National and Community Service.

Title: Project Profile and Volunteer Activity Survey.

OMB Number: 3045–0029

#### Record of Decision for the Final Environmental Impact Statement (FEIS) for the Proposed Upgrade of Training Areas and Facilities, Camp Atterbury, Indiana, by the Indiana Army National Guard (INARNG)

AGENCY: National Guard Bureau, Department of the Army, DoD.

ACTION: Record of decision.

SUMMARY: The Record of Decision (ROD) was signed on October 14, 1998. The decision made in the ROD was to implement the proposed action and a series of mitigation measures to minimize the environmental impacts of this action. The proposed action is to construct and operate at Multi-Purpose Training Range (MPTR) that would support tanks, attack helicopters, Infantry Fighting Vehicles, and a dismounted infantry platoon battle course. Equipment would also be upgraded commensurate with troop training doctrine.

The purpose of the project is to maximize training opportunities for military units that use Camp Atterbury. Military units need to be able to maintain a high level of training and state of readiness to support national defense and state mission in times of natural disaster, civil unrest, and other emergencies. Adequate training opportunities, with up-to-date equipment, must be available to allow them to train for their assigned mission.

ADDRESSES: A copy of the FEIS can be obtained by writing to Major Rick Jones, EIS Project Officer, Indiana Army National Guard, 2002 S. Holt Road, Indianapolis, Indiana 46241–4839.

FOR FURTHER INFORMATION CONTACT: Major Rick Jones at (317) 247–3105, facsimile extension 3414.

SUPPLEMENTARY INFORMATION: The INARNG proposes to upgrade training areas and facilities at Camp Atterbury, Indiana. The proposed action includes the construction of an MPTR. The proposed action does not include
