The SPD is a longitudinal study that follows a subset of the respondents from the 1992 and 1993 panels of the Survey of Income and Program Participation (SIPP). The SPD was first implemented in the Spring of 1997 with a bridge survey which provided a link to baseline data for the period prior to the implementation of welfare reforms. The first full-scale SPD was conducted in 1998. Annual surveys will be conducted through 2002. The data gathered for the 10-year period (1992-2002) will aid in assessing short- to medium-term consequences of outcomes of the welfare legislation.

The majority of questions used in the 1999 SPD will remain the same as those from 1998. New questions for 1999 have been requested by policymakers. These include questions on household expenditures, substance abuse, and extended measures of child well-being. A self-administered questionnaire for adolescents collected in 1998 will not be implemented in the 1999 SPD. Like the 1997 Bridge Survey and 1998 SPD, the 1999 SPD uses an automated questionnaire on laptops for personal visits and telephone interviews.

Agency: Bureau of the Census.

Title: Boundary and Annexation Survey.

Form Number(s): BAS-1, 1A, 2, 2A, 3, 3A, 4, 5, 5A, 26 letters, 2 postcards, and 10 inserts.

Agency Approval Number: 0607-0151.

Type of Request: Reinstatement, with change, of an expired collection.

Burden: 118,041 hours.

Number of Respondents: 39,347.

Needs and Uses: The Census Bureau conducts the Boundary and Annexation Survey (BAS) annually to collect information on the creation of newly incorporated municipalities, minor civil divisions (MCDs), counties, Federally recognized American Indian areas (AIAs) which include reservations and/or off-reservation trust lands, and Alaska Native Regional Corporations (ANRCs), the dissolution of incorporated municipalities and MCDs, and changes to the boundaries of counties, incorporated municipalities, MCDs, AIAs, and ANRCs. The survey provides accurate identification of geographic areas for the decennial and economic censuses and support for the annual population estimates program. It is also used to update the municipal, MCD, county, AIA, and ANRC inventory for the Federal Information Processing Standards (FIPS) program managed by the U.S. Geological Survey (USGS) for the National Institute of Standards and Technology and to update the Geographic Names Information System (GNIS) maintained by the USGS.

During 1999 and 2000, in preparation of Census 2000, the Census Bureau needs information from all areas to confirm or update existing boundary information. Additionally, we need information about street addresses along boundary lines. This request for reinstatement includes an increase in burden hours to cover the more detailed information we will collect.
