[Project No. 2114–064]

Public Utility District No. 2 of Grant County; Notice of Availability of Draft Environmental Assessment and Solicitation of Comments

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47910), the Office of Hydropower Licensing (OHL) reviewed the proposal for implementing an Interim Protection Plan (IPP) for steelhead and chinook salmon at the Priest Rapids Project in Grant County, Washington. The Commission prepared a draft environmental assessment (DEA) for the proposed action. In the DEA, the Commission concludes that approval of the IPP will not constitute a major federal action significantly affecting the quality of the human environment.

This DEA was written by staff in the Office of Hydropower Licensing (OHL). As such, the DEA is OHL staff’s preliminary analysis of the IPP. No final conclusions have been made by the Commission regarding this matter.

Should you wish to provide comments on the DEA, they should be filed within 30 days from the date of this notice. Comments should be addressed to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please include the project number (2114–064) on any comments filed.

Copies of the DEA are available for review in the Public Reference Room, Room 2A, of the Commission’s offices at 888 First Street, NE., Washington, DC 20426.

David P. Boergers,
Secretary.
