FEDERAL MARITIME COMMISSION

[Docket No. 99-01]

Direct Container Line Inc. Possible Violations of Sections 10(a)(1) and 10(b)(1) of the Shipping Act of 1984**Order of Investigation and Hearing**

Respondent Direct Container Line Inc. ("DCL") is a tariffed and bonded non-vessel-operating common carrier ("NVOCC") based in Carson, California. DCL holds out to furnish transportation services worldwide, including NVOCC services, *inter alia*, from ports and points in the United States to the Far East. According to DCL's webpage, DCL operates 13 offices and 25 receiving terminals in the United States and Canada, with branches or subsidiaries in 86 countries worldwide. DCL claims to have over 500 employees, with over 350 based in the United States.

Through interviews and on-site examination of shipping records maintained in DCL's offices in Carson, CA and Carteret, NJ, an investigation was commenced into the possible involvement of DCL in equipment substitution malpractices involving OOCL and Maersk Line on consolidated shipments to the Far East. In all, records were reviewed of nearly one hundred shipments in which provisions of the Transpacific Westbound Rate Agreement ("TWRA") equipment substitution rules were invoked for the purpose of providing DCL with 45' containers while charging DCL those service contract rates applicable to 40' equipment.

In practice, it appears that DCL met the requirements of TWRA's equipment substitution rules by misdeclaring the cargo measurements at 65 CBM or less, equivalent to the ordinary capacity utilization of a 40 foot high cube container under TWRA rules. It further appears that cargo weights also were misdeclared on the master bill of lading so as to understate the actual weights to a figure less than 21 metric tons (21,000KG), the maximum weight
