Department of the Army

Notice of Intent To Prepare a Programmatic Environmental Impact Statement for the Real Property Master Plan, Fort Sill, OK

AGENCY: Department of the Army, DoD.

ACTION: Notice of intent.

SUMMARY: This announces the intention of the U.S. Army Field Artillery Center and Fort Sill, Fort Sill, Oklahoma, to prepare an Environmental Impact Statement (EIS) in support of revisions to the installation's Real Property Master Plan (RPMP). The purpose is to evaluate the environmental impacts associated with the RPMP's implementation.

ADDRESSES: Written comments may be forwarded to the U.S. Army Corps of Engineers, ATTN: CESWT-PE-E (J. Randolph), P.O. Box 61, Tulsa, Oklahoma 74121-0061.

FOR FURTHER INFORMATION CONTACT:

Mr. Bob Kerr, Directorate of Environmental Quality, U.S. Army Field Artillery Center and Fort Sill, at 580-442-3409.

SUPPLEMENTARY INFORMATION: The Fort Sill RPMP has the potential to significantly impact certain natural, economic, social, and cultural resources of the Fort Sill community. The study area for environmental analysis will be the entire Fort Sill installation. The objective is to provide a comprehensive and programmatic EIS which will serve as a planning tool, a public information source, and a reference for mitigation tracking.

Alternatives may consist of alternate locations for specific projects, partial implementation of the specific project, or other modification of the specific project. The alternatives will be developed during preparation of the draft EIS (DEIS) as a result of public input and of environmental analysis of the proposals within the plan.

Significant Issues: The Fort Sill reservation contains approximately 94,221 acres of land. Some of this land serves as potential habitat for protected species of wildlife. Of the areas within the installation that have been surveyed to date for cultural resources, 832 properties have been identified and recorded. Nearly all of the current and proposed RPMP projects are sited within the 6,015 acre cantonment area, where the majority of the installation's historic buildings are located.

The significant issues the EIS will analyze include the following:
