

2. Amendment No. 1 to the Navajo Project Western Transmission System Operating Agreement

These Amendments bring the Navajo Project Agreements up-to-date regarding the current ownership, cost responsibility and configuration of two Navajo Project facilities, namely the McCullough 500 kV Switchyard and the McCullough Substation Common Facilities.

NPC requests an effective date no later than sixty (60) days after the date the Amendments are filed.

A copy of this filing has been served on Arizona Public Service Company, the United States Bureau of Reclamation, Salt River Project Agricultural Improvement and Power District, the Department of Water and Power of the City of Los Angeles, Tucson Electric Power Company, the Arizona Corporation Commission, the Public Utilities Commission of Nevada, and the Bureau of Consumer Protection Utility Consumer's Advocate of Nevada.

Comment date: January 28, 1999, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection.

[Docket No. PL98-7-000]

Technical Conference on Year 2000 Issues for the Oil and Natural Gas Sector; Notice of Technical Conference

January 19, 1999.

Take notice that the Federal Energy Regulatory Commission (FERC) is sponsoring a technical conference to be held on Thursday, February 18, at 9:00 a.m., in the Commission Meeting Room at 888 First Street, NE, Washington, DC 20426. This conference is being held as an outreach for the President's Council on Year 2000 Conversion (Council), which designated FERC as the lead agency for the oil and gas sector of its Energy Working Group. The conference will be hosted by the Natural Gas Council (NGC) and American Petroleum Institute (API). All interested persons are invited to attend.

The second report in a series of quarterly assessments of Y2K readiness efforts will be presented by the industry associations that are part of the Council's oil and gas sector, from the December survey which was distributed by the industry associations to individual companies. Survey results will be compiled and aggregated by industry associations and umbrella organizations (such as NGC, API, and Gas Industry Standards Board) so that individual company responses remain anonymous. This conference will focus on promoting awareness of Year 2000 issues and coordinating information sharing on testing and solutions among companies in the oil and natural gas industries rather than internal solutions of individual companies.

The oil and gas sector group has developed a Website that is linked to the Council's Website (www.y2k.gov), where the results and other related information will be posted and made available to the public.

A more detailed agenda will be published before the conference. The public may participate during question and answer periods, but no witness panels will be established. Written comments are welcome at any time and should reference Docket No. PL98-7-000. For additional information, please contact Donna La May at (202) 501-2341 or by electronic mail at "donna.lamay@ferc.fed.us."

The Capitol Connection will broadcast the conference live via satellite for a fee. For more information about the broadcast, please contact Shirley Al-Jarani or Julia Morelli at the

Capitol Connection at (703) 993-3100 no later than February 15, 1999. In addition, National Narrowcast Network's Hearing-On-the-Line service covers all FERC meetings live by telephone so that interested persons can listen at their desks, from their homes, or from any phone, without special equipment. Billing is based on time on-line. Call (202) 966-2211 for further details. Videotapes of the conference will be available for a fee by calling VISCOM at (703) 715-7999.
