

Notices

Federal Register

Vol. 64, No. 19

Friday, January 29, 1999

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Crop Revenue Coverage

ACTION: Notice of availability.

SUMMARY: In accordance with section 508(h) of the Federal Crop Insurance Act (Act), the Federal Crop Insurance Corporation (FCIC) Board of Directors (Board) approves for reinsurance and subsidy the insurance of corn, grain sorghum, soybeans, cotton, and rice in select states and counties under the Crop Revenue Coverage (CRC) plan of insurance for the 1999 crop year. This notice is intended to inform eligible producers and the private insurance industry of the CRC coverage changes for corn, grain sorghum, soybeans, cotton and rice and provide its terms and conditions.

FOR FURTHER INFORMATION CONTACT: Tim Hoffmann, Director, Product Development Division, Federal Crop Insurance Corporation, United States Department of Agriculture, 9435 Holmes Road, Kansas City, Missouri, 64131, telephone (816) 926-7387.

SUPPLEMENTARY INFORMATION: Section 508(h) of the Act allows for the submission of a policy to FCIC's Board and authorizes the Board to review and, if the Board finds that the interests of producers are adequately protected and that any premiums charged to the producers are actuarially appropriate, approve the policy for reinsurance and subsidy in accordance with section 508(e) of the Act.

In accordance with the Act, the Board approved a program of insurance known as CRC, originally submitted by American Agrisure, a managing general agency for Redland Insurance Company.

The CRC program has been approved for reinsurance and premium subsidy, including subsidy for administrative and operating expenses. CRC is

designed to protect producers against both price and yield losses. CRC provides a harvest revenue guarantee that pays losses from the established yield coverage at a higher price if the harvest time price is higher than the spring price.

In the 1996 crop year, the CRC program was available for corn and soybeans in all counties in Iowa and Nebraska.

In the 1997 crop year, the CRC program was expanded for corn into Colorado, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Ohio, Oklahoma, South Dakota, and Texas, and soybeans into Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Ohio, Oklahoma, South Dakota, and Texas. New CRC programs were also made available for grain sorghum in Colorado, Nebraska, Oklahoma, and crop reporting districts 20, 30, 50, and 70 in Kansas, 40 in Missouri, 50 and 80 in South Dakota, and 40, 51, 52, 81, 82, 90, 96, and 97 in Texas; for cotton in Arizona, Georgia, Oklahoma, and crop reporting districts 11, 12, 21, and 22 in Texas; and for wheat into Kansas, Michigan, Minnesota, Nebraska, South Dakota, Texas, Washington, and twenty-three counties each in Montana and North Dakota.

In the 1998 crop year, the CRC program was expanded for corn into Alabama, Arizona, Arkansas, California, Georgia, Idaho, Kentucky, Louisiana, Mississippi, Montana, New Mexico, North Carolina, North Dakota, Oregon, South Carolina, Tennessee, Utah, Virginia, Washington, Wisconsin, and Wyoming; for soybeans into Alabama, Arkansas, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, North Dakota, South Carolina, Tennessee, Virginia, and Wisconsin; for grain sorghum into Alabama, Arkansas, California, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, New Mexico, North Carolina, North Dakota, Ohio, South Carolina, Tennessee, Virginia, Wisconsin, and the remaining counties in Kansas, Missouri, South Dakota, and Texas; for cotton into Alabama, Arkansas, California, Kansas, Louisiana, Mississippi, Missouri, New Mexico, North Carolina, South Carolina, Tennessee, Virginia, and the remaining counties in Texas; and for wheat into Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Illinois,

Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, North Carolina, Ohio, Oklahoma, Oregon, South Carolina, Tennessee, Utah, Virginia, Wisconsin, Wyoming, and remaining counties in Montana and North Dakota.

Prior to the 1998 crop year, the CRC policy provided coverage for basic and optional units only, as selected by the insured, and the expected market price was based on 95 percent of the average daily settlement price. Beginning with the 1998 crop year, insureds could select basic, optional or enterprise units for corn and soybeans and 95 or 100 percent of the average daily settlement price for corn, grain sorghum, soybeans and cotton. The CRC program was also changed to provide insurance at an appropriate premium for any producer that had been identified on the nonstandard classification system (NCS).

Beginning with the 1999 crop year for CRC wheat, producers can select basic, optional or enterprise units, 95 or 100 percent of the average daily settlement price, coverage for all acreage classified as high risk, and a separate price for durum wheat. A methodology also has been developed for determining the spring wheat Base Price in counties that had both fall and spring wheat programs, but only a fall cancellation date.

Beginning with the 1999 crop year, new CRC programs are available for rice in Arkansas, California, Florida, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas; for corn, grain sorghum, and soybeans in Maryland; and for corn, grain sorghum, soybeans, and cotton in Florida. Enterprise units are now available for all CRC crops; and, written agreements are allowed for rating purposes only. Beginning with the 1999 spring crops, insureds can select increased coverage levels of 80 and 85 percent for crops and in counties where Risk Management Agency (RMA) offers coverage levels up to 85 percent, and high-risk classification rating has been added for corn, grain sorghum, soybeans, cotton, and rice.

FCIC herewith gives notice of the above stated changes for the 1999 crop year for CRC corn, grain sorghum, soybeans, cotton, spring wheat, and rice for use by private insurance companies.

The CRC underwriting rules, rate factors and forms for 1999 spring crops will be released electronically to all reinsured companies through FCIC's Reporting Organization Server. FCIC will also make available the terms and conditions of the CRC reinsurance agreement. Requests for this information should be sent to Heyward Baker, Director, Reinsurance Services Division, Federal Crop Insurance Corporation, 1400 Independence Avenue, SW, Stop 0804, Room 6727-S, Washington, DC, 20250-0804.

Following is a complete list of insurable CRC crops by state for the 1999 crop year:

Alabama: Corn, Cotton, Grain Sorghum, Soybeans, Wheat
 Arizona: Corn, Cotton, Wheat
 Arkansas: Corn, Cotton, Grain Sorghum, Rice, Soybeans, Wheat
 California: Corn, Cotton, Grain Sorghum, Rice, Wheat
 Colorado: Corn, Grain Sorghum, Wheat
 Georgia: Corn, Cotton, Grain Sorghum, Soybeans, Wheat
 Florida: Corn, Cotton, Grain Sorghum, Rice, Soybeans
 Idaho: Corn, Wheat
 Illinois: Corn, Grain Sorghum, Soybeans, Wheat
 Indiana: Corn, Grain Sorghum, Soybeans, Wheat
 Iowa: Corn, Grain Sorghum, Soybeans, Wheat
 Kansas: Corn, Cotton, Grain Sorghum, Soybeans, Wheat
 Kentucky: Corn, Grain Sorghum, Soybeans, Wheat
 Louisiana: Corn, Cotton, Grain Sorghum, Rice, Soybeans, Wheat
 Maryland: Corn, Grain Sorghum, Soybeans
 Michigan: Corn, Grain Sorghum, Soybeans, Wheat
 Minnesota: Corn, Grain Sorghum, Soybeans, Wheat
 Mississippi: Corn, Cotton, Grain Sorghum, Rice, Soybeans, Wheat
 Missouri: Corn, Cotton, Grain Sorghum, Rice, Soybeans, Wheat
 Montana: Corn, Wheat
 Nebraska: Corn, Grain Sorghum, Soybeans, Wheat
 New Mexico: Corn, Cotton, Grain Sorghum, Wheat
 North Carolina: Corn, Cotton, Grain Sorghum, Soybeans, Wheat
 North Dakota: Corn, Grain Sorghum, Soybeans, Wheat
 Ohio: Corn, Grain Sorghum, Soybeans, Wheat
 Oklahoma: Corn, Cotton, Grain Sorghum, Rice, Soybeans, Wheat
 Oregon: Corn, Wheat
 South Carolina: Corn, Cotton, Grain Sorghum, Soybeans, Wheat
 South Dakota: Corn, Grain Sorghum, Soybeans, Wheat
 Tennessee: Corn, Cotton, Grain Sorghum, Rice, Soybeans, Wheat
 Texas: Corn, Cotton, Grain Sorghum, Texas, Soybeans, Wheat
 Utah: Corn, Wheat
 Virginia: Corn, Cotton, Grain Sorghum, Soybeans, Wheat

Washington: Corn, Wheat
 Wisconsin: Corn, Grain Sorghum, Soybeans, Wheat

Wyoming: Corn, Wheat

Notice: The Basic Provisions, Crop Provisions, and Commodity Exchange Endorsements for the 1999 CRC spring crop programs of insurance are as follows:

Crop Revenue Coverage (CRC) Insurance Policy

(This is a continuous policy. Refer to section 3.)

This policy is reinsured by the Federal Crop Insurance Corporation (FCIC) under the authority of section 508(h) of the Federal Crop Insurance Act, as amended (7 U.S.C. 1508(h)). The provisions of the policy may not be waived or varied in any way by the crop insurance agent or any other agent or employee of FCIC or us. In the event we cannot pay your loss, your claim will be settled in accordance with the provisions of this policy and paid by FCIC. No state guarantee fund will be liable to pay the loss.

Throughout the policy, "you" and "your" refer to the named insured shown on the accepted application and "we," "us," and "our" refer to the insurance company providing insurance. Unless the context indicates otherwise, use of the plural form of a word includes the singular and use of the singular form of the word includes the plural.

Agreement to Insure: In return for the payment of the premium, and subject to all of the provisions of this policy, we agree with you to provide the insurance as stated in the policy. If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Special Provisions; (2) the Commodity Exchange Endorsement; (3) the Crop Provisions; and (4) these Basic Provisions, with (1) controlling (2), etc.

Basic Provisions

Terms and Conditions

1. Definitions

Abandon. Failure to continue to care for the crop, providing care so insignificant as to provide no benefit to the crop, or failure to harvest in a timely manner, unless an insured cause of loss prevents you from properly caring for or harvesting the crop or causes damage to it to the extent that most producers of the crop on acreage with similar characteristics in the area would not normally further care for or harvest it.

Acreage report. A report required by section 7 of these Basic Provisions that contains, in addition to other required information, your report of your share of all acreage of an insured crop in the

county, whether insurable or not insurable.

Acreage reporting date. The date contained in the Special Provisions or as provided in section 7 by which you are required to submit your acreage report.

Act. The Federal Crop Insurance Act, (7 U.S.C. 1501 *et seq.*).

Actuarial documents. The material for the crop year which is available for public inspection in your agent's office, and which show the revenue guarantees, coverage levels, premium rates, practices, insurable acreage, and other related information regarding crop insurance in the county.

Additional coverage. Plans of crop insurance providing a level of coverage equal to or greater than 65 percent of the approved yield indemnified at 100 percent of the Base Price, or a comparable coverage.

Administrative fee. An amount you must pay for limited and additional coverage for each crop year as specified in section 8.

Agricultural commodity. All insurable crops and other fruit, vegetable or nut crops produced for human or animal consumption.

Another use, notice of. The written notice required when you wish to put acreage to another use (see section 15).

Application. The form required to be completed by you and accepted by us before insurance coverage will commence. This form must be completed and filed in your agent's office not later than the sales closing date of the initial insurance year for each crop for which insurance coverage is requested. If cancellation or termination of insurance coverage occurs for any reason, including but not limited to indebtedness, suspension, debarment, disqualification, cancellation by you or us, or violation of the controlled substance provisions of the Food Security Act of 1985, a new application must be filed for the crop. Insurance coverage will not be provided if you are ineligible under the contract or under any Federal statute or regulation.

Approved yield. The yield determined in accordance with 7 CFR part 400, subpart G. This yield is established for basic or optional units. The Approved Yield for each basic or optional unit comprising an enterprise unit is retained for premium and final guarantee purposes under an enterprise unit.

Assignment of indemnity. A transfer of policy rights, made on our form, and effective when approved by us. It is the arrangement whereby you assign your

right to an indemnity payment to any party of your choice for the crop year.

Base Price. The initial price determined in accordance with the Commodity Exchange Endorsement and used to calculate your premium and Minimum Guarantee.

CRC low price factor. A premium factor, as set forth in the actuarial documents, used to calculate the risk associated with a decrease in the Harvest Price relative to the Base Price.

CRC high price factor. A premium factor, as set forth in the actuarial documents, used to calculate the risk associated with an increase in the Harvest Price relative to the Base Price.

CRC rate. A premium rate, as set forth in the actuarial documents, used to calculate the risk associated with producing a level of production.

Cancellation date. The calendar date specified in the Crop Provisions on which coverage for the crop will automatically renew unless canceled in writing by either you or us, or terminated in accordance with the policy terms.

Claim for indemnity. A claim made on our form by you for damage or loss to an insured crop and submitted to us not later than 60 days after the Harvest Price is released (see section 15.)

Consent. Approval in writing by us allowing you to take a specific action.

Contract. (see "Policy".)

Contract change date. The calendar date by which we make any policy changes available for inspection in the agent's office (see section 5.)

County. Any county, parish, or other political subdivision of a state shown on your accepted application, including acreage in a field that extends into an adjoining county if the county boundary is not readily discernible.

Coverage. The insurance provided by this policy, against insured loss of revenue by unit as shown on your summary of coverage.

Coverage begins, date. The calendar date insurance begins on the insured crop, as contained in the Crop Provisions, or the date planting begins on the unit (see section 12 of these Basic Provisions for specific provisions relating to prevented planting.)

Crop Provisions. The part of the policy that contains the specific provisions of insurance for each insured crop.

Crop year. The period within which the insured crop is normally grown, regardless of whether or not it is actually grown, and designated by the calendar year in which the insured crop is normally harvested.

Damage. Injury, deterioration, or loss of revenue of the insured crop due to insured or uninsured causes.

Damage, notice of. A written notice required to be filed in your agent's office whenever you initially discover the insured crop has been damaged to the extent that a loss is probable (see section 15.)

Days. Calendar days.

Deductible. The amount determined by subtracting the coverage level percentage you choose from 100 percent. For example, if you elected a 65 percent coverage level, your deductible would be 35 percent (100% - 65% = 35%).

Delinquent account. Any account you have with us in which premiums, and interest on those premiums, is not paid by the termination date specified in the Crop Provisions, or any other amounts due us, such as indemnities found not to have been earned, which are not paid within 30 days of our mailing or other delivery of notification to you of the amount due.

Earliest planting date. The earliest date established for planting the insured crop (see Special Provisions and section 14.)

End of insurance period, date of. The date upon which your crop insurance coverage ceases for the crop year (see Crop Provisions and section 12.)

FCIC. The Federal Crop Insurance Corporation, a wholly owned government corporation within USDA.

Field. All acreage of tillable land within a natural or artificial boundary (e.g., roads, waterways, fences, etc.)

Final Guarantee. The number of dollars guaranteed per acre determined to be the higher of the Minimum Guarantee or the Harvest Guarantee, where:

(1) Minimum Guarantee—The Approved Yield per acre multiplied by the Base Price multiplied by the coverage level percentage you elect.

(2) Harvest Guarantee—The Approved Yield per acre multiplied by the Harvest Price, multiplied by the coverage level percentage you elect.

If you elect enterprise unit coverage, the Basic Units or Optional units comprising the enterprise unit will retain separate Final Guarantees.

Final planting date. The date contained in the Special Provisions for the insured crop by which the crop must initially be planted in order to be insured for the full Final Guarantee.

FSA. The Farm Service Agency, an agency of the USDA, or a successor agency.

FSA farm serial number. The number assigned to the farm by the local FSA office.

Good farming practices. The cultural practices generally in use in the county for the crop to make normal progress toward maturity and produce at least the yield used to determine the Final Guarantee and are those recognized by the Cooperative State Research, Education, and Extension Service as compatible with agronomic and weather conditions in the county.

Harvest Price. The final price determined in accordance with the Commodity Exchange Endorsement and used to calculate your Calculated Revenue and the Harvest Guarantee.

Insured. The named person shown on the application accepted by us. This term does not extend to any other person having a share or interest in the crop (for example, a partnership, landlord, or any other person) unless specifically indicated on the accepted application.

Insured crop. The crop for which coverage is available under these Basic Provisions and the applicable Crop Provisions as shown on the application accepted by us.

Interplanted. Acreage on which two or more crops are planted in a manner that does not permit separate agronomic maintenance or harvest of the insured crop.

Irrigated practice. A method of producing a crop by which water is artificially applied during the growing season by appropriate systems and at the proper times, with the intention of providing the quantity of water needed to produce at least the yield used to establish the Final Guarantee on the irrigated acreage planted to the insured crop.

Late planted. Acreage initially planted to the insured crop after the final planting date.

Late planting period. The period that begins the day after the final planting date for the insured crop and ends 25 days after the final planting date, unless otherwise specified in the Crop Provisions or Special Provisions.

Limited coverage. Plans of insurance offering coverage that is equal to or greater than 50 percent of the approved yield indemnified at 100 percent of the Base Price, or a comparable coverage, but less than 65 percent of the approved yield indemnified at 100 percent of the Base Price, or a comparable coverage.

Limited resource farmer. A producer or operator of a farm:

(a) With an annual gross income of \$20,000 or less derived from all sources, including income from a spouse or other members of the household, for each of the prior two years; or

(b) With less than 25 acres aggregated for all crops, where a majority of the

producer's gross income is derived from such farm or farms, but the producer's gross income from farming operations does not exceed \$20,000.

Loss, notice of. The notice required to be given by you not later than 72 hours after certain occurrences or 15 days after the end of the insurance period, whichever is earlier (see section 15.)

MPCI. Multiple peril crop insurance program, a program of insurance offered under the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*) (Act) and implemented in 7 CFR chapter IV.

Negligence. The failure to use such care as a reasonably prudent and careful person would use under similar circumstances.

Non-contiguous. Any two or more tracts of land whose boundaries do not touch at any point, except that land separated only by a public or private right-of-way, waterway, or an irrigation canal will be considered as contiguous.

Person. An individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a State or a political subdivision or agency of a State. "Person" does not include the United States Government or any agency thereof.

Planted acreage. Land in which seed, plants, or trees have been placed appropriate for the insured crop and planting method, at the correct depth, into a seedbed that has been properly prepared for the planting method and production practice.

Policy. The agreement between you and us consisting of the accepted application, these Basic Provisions, the Crop Provisions, the Special Provisions, other applicable endorsements or options, the actuarial documents for the insured crop, and the applicable regulations published in 7 CFR chapter IV.

Practical to replant. Our determination, after loss or damage to the insured crop, based on all factors, including, but not limited to moisture availability, marketing window, condition of the field, and time to crop maturity, that replanting the insured crop will allow the crop to attain maturity prior to the calendar date for the end of the insurance period. It will not be considered practical to replant after the end of the late planting period, or the final planting date if no late planting period is applicable, unless replanting is generally occurring in the area. Unavailability of seed or plants will not be considered a valid reason for failure to replant.

Premium billing date. The earliest date upon which you will be billed for insurance coverage based on your

acreage report. The premium billing date is contained in the Special Provisions.

Prevented planting. Failure to plant the insured crop with proper equipment by the final planting date designated in the Special Provisions for the insured crop in the county. You may also be eligible for a prevented planting payment if you failed to plant the insured crop with the proper equipment within the late planting period. You must have been prevented from planting the insured crop due to an insured cause of loss that is general in the surrounding area and that prevents other producers from planting acreage with similar characteristics.

Production report. A written record showing your annual production and used by us to determine your yield for insurance purposes (see section 4). The report contains yield information for previous years, including planted acreage and harvested production. This report must be supported by written verifiable records from a warehouseman or buyer of the insured crop, by measurement of farm-stored production, or by other records of production approved by us on an individual case basis.

Replanting. Performing the cultural practices necessary to prepare the land to replace the seed or plants of the damaged or destroyed insured crop and then replacing the seed or plants of the same crop in the insured acreage with the expectation of producing at least the yield used to determine the Final Guarantee.

Representative sample. Portions of the insured crop that must remain in the field for examination and review by our loss adjuster when making a crop appraisal, as specified in the Crop Provisions. In certain instances we may allow you to harvest the crop and require only that samples of the crop residue be left in the field.

Sales closing date. A date contained in the Special Provisions by which an application must be filed. The last date by which you may change your crop insurance coverage for a crop year.

Section (for the purposes of unit structure). A unit of measure under a rectangular survey system describing a tract of land usually one mile square and usually containing approximately 640 acres.

Share. Your percentage of interest in the insured crop as an owner, operator, or tenant at the time insurance attaches. However, only for the purpose of determining the amount of indemnity, your share will not exceed your share at the earlier of the time of loss, or the beginning of harvest.

Special Provisions. The part of the policy that contains specific provisions of insurance for each insured crop that may vary by geographic area.

State. The state shown on your accepted application.

Substantial benefit interest. An interest held by any person of at least 10 percent in the applicant or insured.

Summary of coverage. Our statement to you, based upon your acreage report, specifying the insured crop and the Revenue Guarantee provided by unit.

Tenant. A person who rents land from another person for a share of the crop or a share of the proceeds of the crop (see the definition of "Share" above.)

Termination date. The calendar date contained in the Crop Provisions upon which your insurance ceases to be in effect because of nonpayment of any amount due us under the policy, including premium.

Timely planted. Planted on or before the final planting date designated in the Special Provisions for the insured crop in the county.

Unit.

(a) Basic unit—A unit established in accordance with section 2 (a).

(b) Optional unit—A unit established from basic units in accordance with section 2 (b).

(c) Enterprise unit—A unit established from basic units or optional units in accordance with section 2 (c).

USDA. United States Department of Agriculture.

Void. When the policy is considered not to have existed for a crop year as a result of concealment, fraud, or misrepresentation (see section 27).

Written Agreement. A document that alters designated terms of a policy as authorized under these Basic Provisions. See section 34.

2. Unit Structure.

(a) Basic unit—All insurable acreage of the insured crop in the county on the date coverage begins for the crop year:

(1) In which you have 100 percent crop share; or

(2) Which is owned by one person and operated by another person on a share basis. (Example: If, in addition to the land you own, you rent land from five landlords, three on a crop share basis and two on a cash basis, you would be entitled to four units; one for each crop share lease and one that combines the two cash leases and the land you own.) Land rented for cash, a fixed commodity payment, or a consideration other than a share in the insured crop, or proceeds from the sale of the insured crop, on such land will be considered as owned by the lessee (see definition of "Share" above).

(b) Optional unit—Unless limited by the Crop Provisions or Special Provisions, a basic unit as defined in section 2(a) may be divided into optional units if, for each optional unit:

(1) You meet the following:

(i) You have records, that are acceptable to us, of planted acreage and the production from each optional unit for at least the last crop year used to determine your Final Guarantee;

(ii) You must plant the crop in a manner that results in a clear and discernable break in the planting pattern at the boundaries of each optional unit;

(iii) All optional units you select for the crop year are identified on the acreage report for that crop year (Units will be determined when the acreage is reported but may be adjusted or combined to reflect the actual unit structure when adjusting a loss. No further unit division may be made after the acreage reporting date for any reason); and

(iv) You have records of marketed or stored production from each optional unit maintained in such a manner that permits us to verify the production from each optional unit, or the production from each optional unit is kept separate until loss adjustment is completed by us.

(2) Each optional unit must meet one or more of the following, unless otherwise specified in the Crop Provisions:

(i) Optional units may be established if each optional unit is located in a separate section. In the absence of sections, we may consider parcels of land legally identified by other methods of measure such as Spanish grants, as the equivalents of sections for unit purposes. In areas which have not been surveyed using sections, section equivalents or in areas where boundaries are not readily discernible, each optional unit must be located in a separate FSA farm serial number; and

(ii) In addition to, or instead of, establishing optional units by section, section equivalent or FSA farm serial number, optional units may be based on irrigated and non-irrigated acreage. To qualify as separate irrigated and non-irrigated optional units, the non-irrigated acreage may not continue into the irrigated acreage in the same rows or planting pattern. The irrigated acreage may not extend beyond the point at which the irrigation system can deliver the quantity of water needed to produce the yield on which the Final Guarantee is based, except the corners of a field in which a center-pivot irrigation system is used may be considered as irrigated acreage if the corners of a field in which a center-pivot irrigation system is used

do not qualify as a separate non-irrigated optional unit. In this case, production from both practices will be used to determine your approved yield.

(3) If you do not comply fully with the provisions in this section, we will combine all optional units that are not in compliance with these provisions into the basic unit from which they were formed. We will combine the optional units at any time we discover that you have failed to comply with these provisions. If failure to comply with these provisions is determined by us to be inadvertent, and the optional units are combined into a basic unit, that portion of the additional premium paid for the optional units that have been combined will be refunded to you for the units combined.

(c) Enterprise unit—A unit that consists of all insurable acreage of the insured crop in the county in which you have a share on the date coverage begins for the crop year. If you select and qualify for an enterprise unit, you will qualify for a premium discount based on the insured crop and number of acres in the enterprise unit. The following requirements must be met to qualify for an enterprise unit:

(1) The enterprise unit must contain 50 or more acres;

(2) The acreage that comprises the enterprise unit must also qualify;

(i) For two or more basic units of the same insured crop as defined in section 2(a) that are located in two or more separate sections, section equivalents or FSA farm serial numbers; or

(ii) For two or more optional units of the same insured crop established by separate sections, section equivalents, or FSA farm serial numbers as defined in section 2(b)(2)(i).

(3) These basic units or optional units that comprise the enterprise unit must each have insurable acreage of the same crop in the crop year insured;

(4) You must comply with all reporting requirements for the enterprise unit. (You must maintain required production records on a basic or optional unit basis if you wish to change your unit structure for any subsequent crop year.);

(5) The qualifying basic units or optional units may not be combined into an enterprise unit on any basis other than as described herein; and

(6) If you do not comply with the reporting provisions for the enterprise unit, your yield for the enterprise unit will be determined in accordance with section 4(e).

(d) Selection of unit structure—Basic, optional, or enterprise units will be determined when the acreage is reported but may be adjusted,

combined, or separated to reflect the actual unit structure when adjusting a loss. If you select an enterprise unit structure, you must elect that option in writing by the earliest sales closing date for the insured crops. If you do not qualify for an enterprise unit when the acreage is reported, we will assign the basic unit structure.

All applicable unit structures must be stated on the acreage report for each crop year.

3. Life of Policy, Cancellation, and Termination

(a) This is a continuous policy and will remain in effect for each crop year following the acceptance of the original application until canceled by you in accordance with the terms of the policy or terminated by operation of the terms of the policy, or by us.

(b) Your application for insurance must contain all the information required by us to insure the crop. Applications that do not contain all social security numbers and employer identification numbers, as applicable, (except as stated herein) coverage level, price percentage, crop, type, variety, or class, plan of insurance, and any other material information required to insure the crop, are not acceptable. If a person with a substantial beneficial interest in the insured crop refuses to provide a social security number or employer identification number, the amount of coverage available under the policy will be reduced proportionately by that person's share of the crop.

(c) After acceptance of the application, you may not cancel this policy for the initial crop year. Thereafter, the policy will continue in force for each succeeding crop year unless canceled or terminated as provided below.

(d) Either you or we may cancel this policy after the initial crop year by providing written notice to the other on or before the cancellation date shown in the Crop Provisions.

(e) If any amount due, including administrative fees or premium, is not paid, or an acceptable arrangement for payment is not made on or before the termination date for the crop on which the amount is due, you will be determined to be ineligible to participate in any crop insurance program authorized under the Act in accordance with 7 CFR part 400, subpart U.

(1) For a policy with unpaid administrative fees or premium, the policy will terminate effective on the termination date immediately subsequent to the billing date for the crop year;

(2) For a policy with other amounts due, the policy will terminate effective on the termination date immediately after the account becomes delinquent;

(3) Ineligibility will be effective as of the date that the policy was terminated for the crop for which you failed to pay an amount owed and for all other insured crops with coincidental termination dates;

(4) All other policies that are issued by us under the authority of the Act will also terminate as of the next termination date contained in the applicable policy;

(5) If you are ineligible, you may not obtain any crop insurance under the Act until payment is made, you execute an agreement to repay the debt and make the payments in accordance with the agreement, or you file a petition to have your debts discharged in bankruptcy;

(6) If you execute an agreement to repay the debt and fail to timely make any scheduled payment, you will be ineligible for crop insurance effective on the date the payment was due until the debt is paid in full or you file a petition to discharge the debt in bankruptcy and subsequently obtain discharge of the amounts due. Dismissal of the bankruptcy petition before discharge will void all policies in effect retroactive to the date you were originally determined ineligible to participate;

(7) Once the policy is terminated, the policy cannot be reinstated for the current crop year unless the termination was in error;

(8) After you again become eligible for crop insurance, if you want to obtain coverage for your crops, you must reapply on or before the sales closing date for the crop (Since applications for crop insurance cannot be accepted after the sales closing date, if you make any payment after the sales closing date, you cannot apply for insurance until the next crop year); and

(9) If we deduct the amount due us from an indemnity, the date of payment for the purpose of this section will be the date you sign the properly executed claim for indemnity.

(10) For example, if crop A, with a termination date of October 31, 1998, and crop B, with a termination date of March 15, 1999, are insured and you do not pay the premium for crop A by the termination date, you are ineligible for crop insurance as of October 31, 1998, and crop A's policy is terminated on that date. Crop B's policy is terminated as of March 15, 1999. If you enter an agreement to repay the debt on April 25, 1999, you can apply for insurance for crop A by the October 31, 1999, sales closing date and crop B by the March 15, 2000, sales closing date. If you fail to make a scheduled payment on

November 1, 1999, you will be ineligible for crop insurance effective on November 1, 1999, and you will not be eligible unless the debt is paid in full or you file a petition to have the debt discharged in bankruptcy and subsequently receive discharge.

(f) If you die, disappear, or are judicially declared incompetent, or if you are an entity other than an individual and such entity is dissolved, the policy will terminate as of the date of death, judicial declaration, or dissolution. If such event occurs after coverage begins for any crop year, the policy will continue in force through the crop year and terminate at the end of the insurance period and any indemnity will be paid to the person or persons determined to be beneficially entitled to the indemnity. The premium will be deducted from the indemnity or collected from the estate. Death of a partner in a partnership will dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons will dissolve the joint entity.

(g) We may terminate your policy if no premium is earned for 3 consecutive years.

(h) The cancellation and termination dates are contained in the Crop Provisions.

(i) You are not eligible to participate in the Crop Revenue Coverage program if you have elected the MPCCI Catastrophic Risk Protection Endorsement except if you execute a High Risk Land Exclusion Option for a Crop Revenue Coverage Policy, you may elect to insure the "high risk land" under an MPCCI Catastrophic Risk Protection Endorsement, provided the Catastrophic Risk Protection Endorsement is obtained from us. If both policies are in force, the acreage of the crop covered under the Crop Revenue Coverage policy and the acreage covered under an MPCCI Catastrophic Risk Protection Endorsement will be considered as separate crops for insurance purposes, including the payment of administrative fees.

(j) When obtaining limited or additional coverage, you must provide information regarding crop insurance coverage on any crop previously obtained from an approved insurance provider, including the date such insurance was obtained and the amount of the administrative fee.

4. Coverage Level, Price Percentage, and Approved Yield for Determining Final Guarantee and Indemnity

(a) For each crop year, the Final Guarantee, coverage level, and price percentage at which an indemnity will be determined for each unit will be those used to calculate your summary of coverage. The information necessary to determine those factors will be contained in the Special Provisions or in the actuarial documents.

(b) You may select only one coverage level from among those offered by us for each insured crop. By written notice to us, you may change the coverage level for the following crop year not later than the sales closing date for the affected insured crop. If you do not change the coverage level for the succeeding crop year you will be assigned the same coverage level that was in effect the previous crop year.

(c) You may select only one price percentage for each insured crop. You may change the price percentage for the following crop year by giving written notice to us not later than the sales closing date for the insured crop. The price percentage you select applies to both the Base Price and Harvest Price. Since the average daily settlement price may change each year, if you do not select a new price percentage on or before the sales closing date, we will assign a price percentage which bears the same relationship to the price percentage schedule that was in effect for the preceding year. (For example: If you selected a price percentage of 100 for the previous crop year, and you do not select a new price percentage for the current crop year, we will assign a price percentage of 100 for the current crop year.)

(d) This policy is an alternative to the Multiple Peril Crop Insurance program and satisfies the requirements of section 508 (b)(7) of the Act.

(e) You must report production to us for the previous crop year by the earlier of the acreage reporting date or 45 days after the cancellation date unless otherwise stated in the Special Provisions.

(1) If you do not provide the required production report, we will assign a yield for the previous crop year. The yield assigned by us will not be more than 75 percent of the yield used by us to determine your coverage for the previous crop year. The production report or assigned yield will be used to compute your Approved Yield for the purpose of determining your Final Guarantee for the current crop year.

(2) If you have filed a claim for any crop year, the documents signed by you

which state the amount of production used to complete the claim for indemnity will be the production report for that year unless otherwise specified by FCIC.

(3) Production and acreage for the prior crop year must be reported for each proposed optional unit by the production reporting date. If you do not provide the information stated above, the optional units will be combined into the basic unit.

(f) We may revise your Final Guarantee for any unit, and revise any indemnity paid based on that Final Guarantee, if we find that your production report under paragraph (e) of this section:

(1) Is not supported by written verifiable records in accordance with the definition of production report; or

(2) Fails to accurately report actual production, acreage, or other material information.

(g) Any person may sign any document relative to crop insurance coverage on behalf of any other person covered by such a policy, provided that the person has a properly executed power of attorney or such other legally sufficient document authorizing such a person to sign.

5. Contract Changes

(a) We may change the terms of your coverage under this policy from year to year.

(b) Any changes in policy provisions, premium rates, and program dates will be provided by us to your crop insurance agent not later than the contract change date contained in the Crop Provisions. You may view the documents or request copies from your crop insurance agent.

(c) You will be notified, in writing, of changes to the Basic Provisions, Crop Provisions, and Special Provisions not later than 30 days prior to the cancellation date for the insured crop. Acceptance of changes will be conclusively presumed in the absence of notice from you to change or cancel your insurance coverage.

6. Liberalization

If we adopt any revision that broadens the coverage under this policy subsequent to the contract change date without additional premium, the broadened coverage will apply.

7. Report of Acreage

(a) An annual acreage report must be submitted to us on our form for each insured crop in the county on or before the acreage reporting date contained in the Special Provisions, except as follows:

(1) If you insure multiple crops with us that have final planting dates on or after August 15 but before December 31, you must submit an acreage report for all such crops on or before the latest applicable acreage reporting date for such crops; and

(2) If you insure multiple crops with us that have final planting dates on or after December 31 but before August 15, you must submit an acreage report for all such crops on or before the latest applicable acreage reporting date for such crops.

(3) Notwithstanding the provisions in sections 7(a) (1) and (2):

(i) If the Special Provisions designate separate planting periods for a crop, you must submit an acreage report for each planting period on or before the acreage reporting date contained in the Special Provisions for the planting period; and

(ii) If planting of the insured crop continues after the final planting date or you are prevented from planting during the late planting period, the acreage reporting date will be the later of:

(A) The acreage reporting date contained in the Special Provisions;

(B) The date determined in accordance with sections 7(a) (1) or (2); or

(C) Five (5) days after the end of the late planting period for the insured crop, if applicable.

(b) If you do not have a share in an insured crop in the county for the crop year, you must submit an acreage report on or before the acreage reporting date, so indicating.

(c) Your acreage report must include the following information, if applicable:

(1) All acreage of the crop in the county (insurable and not insurable) in which you have a share;

(2) Your share at the time coverage begins;

(3) The practice;

(4) The type; and

(5) The date the insured crop was planted.

(d) Because incorrect reporting on the acreage report may have the effect of changing your premium and any indemnity that may be due, you may not revise this report after the acreage reporting date without our consent.

(e) We may elect to determine all premiums and indemnities based on the information you submit on the acreage report or upon the factual circumstances we determine to have existed, subject to the provisions contained in section 7(g).

(f) If you do not submit an acreage report by the acreage reporting date, or if you fail to report all units, we may elect to determine by unit the insurable crop acreage, share, type and practice, or to deny liability on such units. If we

deny liability for the unreported units, your share of any production from the unreported units will be allocated, for loss purposes only, as production to count to the reported units in proportion to the liability on each reported unit. However, such production will not be allocated to prevented planting acreage or otherwise affect any prevented planting payment.

(g) If the information reported by you on the acreage report for share, acreage, practice, type or other material information is inconsistent with the information that is determined to actually exist for a unit and results in:

(1) A lower liability than the actual liability determined, the Final Guarantee on the unit will be reduced to an amount that is consistent with the reported information. In the event that insurable acreage is under-reported for any unit, all production or value from insurable acreage in that unit will be considered production or value to count in determining the indemnity; and

(2) A higher liability than the actual liability determined, the information contained in the acreage report will be revised to be consistent with the correct information. If we discover that you have incorrectly reported any information on the acreage report for any crop year, you may be required to provide documentation in subsequent crop years that substantiates your report of acreage for those crop years, including, but not limited to, an acreage measurement service at your own expense.

(h) Errors in reporting units may be corrected by us at the time of adjusting a loss to reduce our liability and to conform to applicable unit division guidelines.

8. Annual Premium and Administrative Fees

(a) The annual premium is earned and payable at the time coverage begins. You will be billed for premium due not earlier than the premium billing date specified in the Special Provisions. The premium due, plus any accrued interest, will be considered delinquent if it is not paid on or before the termination date specified in the Crop Provisions.

(b) Any amount you owe us related to any crop insured with us under the authority of the Act will be deducted from any prevented planting payment or indemnity due you for any crop insured with us under the authority of the Act.

(c) The annual premium amount is determined by:

(1) Multiplying the Approved Yield times the coverage level, times the MPCCI Base Rate specified in the applicable MPCCI actuarial documents, and times

the Base Price as defined in the Commodity Exchange Endorsement;

(2) Multiplying the Approved Yield times the coverage level, times the CRC Rate specified in the actuarial documents, and times the Low Price Factor specified in the actuarial documents ;

(3) Multiplying the Approved Yield times the coverage level, times the MPCCI Base Rate specified in the applicable MPCCI actuarial documents, and times the High Price Factor specified in the actuarial documents;

(4) Adding sections 8(c)(1), (2), and (3);

(5) Multiplying the result of section 8(c)(4) times the acres insured, times your share at the time coverage begins, and as applicable, times any Rate Map Area Adjustment Factor; Rate Class Option Factor; Option Factor; and Yield Adjustment Surcharge specified in the actuarial documents;

(6) Multiplying the Approved Yield times the coverage level, times the MPCCI Base Rate specified in the applicable actuarial documents, times the MPCCI Market Price Election, times the acres insured, times your share at the time coverage begins, and as applicable, times any Rate Map Area Adjustment Factor; Rate Class Option Factor; Option Factor; and Yield Adjustment Surcharge specified in the actuarial documents, and times the applicable producer subsidy percentage to calculate the appropriate amount of subsidy. The producer subsidy percentage is based upon the coverage level and is contained in the actuarial documents; and

(7) Subtracting section 8(c)(6) from section 8(c)(5) to determine the annual producer paid premium.

(d) The annual premium amount for any applicable High Risk Classification is determined by:

(1) Multiplying the Approved Yield (with yield adjustments specified in the actuarial documents) times the coverage level, times the High Risk Classification Rate specified in the actuarial documents, times the Base Price as defined in the Commodity Exchange Endorsement;

(2) Multiplying the result of section 8(d)(1) times the acres insured, times your share at the time coverage begins, times any applicable Rate Class Option Factor; and Option Factor specified in the actuarial documents, and times the High Risk Classification Premium Factor calculated using the High Risk Classification Premium Formula specified in the actuarial documents;

(3) Multiplying the Approved Yield (with yield adjustments specified in the

actuarial documents) times the coverage level, times the High Risk Classification Rate specified in the actuarial documents, times the Rate Differential specified in the actuarial documents, times the MPCCI Market Price Election, times the acres insured, times your share at the time coverage begins, and as applicable, times any Rate Class Option Factor; and Option Factor specified in the actuarial documents, and times the applicable producer subsidy percentage to calculate the appropriate amount of subsidy. The producer subsidy percentage is based upon the coverage level and is contained in the actuarial documents; and

(4) Subtracting section 8(d)(3) from section 8(d)(2) to determine the annual producer paid premium.

(e) In addition to the premium charged:

(1) If you elect limited coverage, you must pay an administrative fee each crop year of \$50 per crop per county, not to exceed \$200 per county, or \$600 for all counties in which you elected to obtain limited coverage.

(2) If you elect additional coverage, you must pay an administrative fee of \$20 per crop for each crop year in which crop insurance coverage remains in effect.

(3) The administrative fee must be paid no later than the time that premium is due.

(4) Payment of an administrative fee will not be required if you file a bona fide zero acreage report on or before the acreage reporting date for the crop. If you falsely file a zero acreage report, you may be subject to criminal and administrative sanctions.

(5) The administrative fee for limited coverage will be waived if you request it and you qualify as a limited resource farmer.

(6) The administrative fee for additional coverage is not subject to any limits and may not be waived.

(7) Failure to pay the administrative fees when due may make you ineligible for certain other USDA benefits.

9. Insured Crop

(a) The insured crop will be that shown on your accepted application and as specified in the Crop Provisions or Special Provisions and must be grown on insurable acreage.

(b) A crop which will NOT be insured will include, but will not be limited to, any crop:

(1) If the farming practices carried out are not in accordance with the farming practices for which the premium rates or Final Guarantee have been established;

(2) Of a type, class or variety established as not adapted to the area or excluded by the policy provisions;

(3) That is a volunteer crop;

(4) That is a second crop following the same crop (insured or not insured) harvested in the same crop year unless specifically permitted by the Crop Provisions or the Special Provisions;

(5) That is planted for the development or production of hybrid seed or for experimental purposes, unless permitted by the Crop Provisions; or

(6) That is used solely for wildlife protection or management. If the lease states that specific acreage must remain unharvested, only that acreage is uninsurable. If the lease specifies that a percentage of the crop must be left unharvested, your share will be reduced by such percentage.

10. Insurable Acreage

(a) Acreage planted to the insured crop in which you have a share is insurable except acreage:

(1) That has not been planted and harvested within one of the 3 previous crop years, unless:

(i) Such acreage was not planted:
(A) To comply with any other USDA program;

(B) Because of crop rotation, (e.g., corn, soybean, alfalfa; and the alfalfa remained for 4 years before the acreage was planted to corn again);

(C) Due to an insurable cause of loss that prevented planting; or

(D) Because a perennial tree, vine, or bush crop was grown on the acreage.

(ii) Such acreage was planted but was not harvested due to an insurable cause of loss; or

(iii) The Crop Provisions specifically allow insurance for such acreage.

(2) That has been strip-mined, unless an agricultural commodity other than a cover, hay, or forage crop (except corn silage), has been harvested from the acreage for at least five crop years after the strip-mined land was reclaimed;

(3) On which the insured crop is damaged and it is practical to replant the insured crop, but the insured crop is not replanted;

(4) That is interplanted, unless allowed by the Crop Provisions;

(5) That is otherwise restricted by the Crop Provisions or Special Provisions; or

(6) That is planted in any manner other than as specified in the policy provisions for the crop.

(b) If insurance is provided for an irrigated practice, you must report as irrigated only that acreage for which you have adequate facilities and adequate water, or the reasonable expectation of

receiving adequate water at the time coverage begins, to carry out a good irrigation practice. If you knew or had reason to know that your water may be reduced before coverage begins, no reasonable expectation exists.

(c) Notwithstanding the provisions in section 9(b)(1), if acreage is irrigated and we do not provide a premium rate for an irrigated practice, you may either report and insure the irrigated acreage as "non-irrigated," or report the irrigated acreage as not insured.

(d) We may restrict the amount of acreage that we will insure to the amount allowed under any acreage limitation program established by the USDA if we notify you of that restriction prior to the sales closing date.

11. Share Insured

(a) Insurance will attach only to the share of the person completing the application and will not extend to any other person having a share in the crop unless the application clearly states that:

(1) The insurance is requested for an entity such as a partnership or a joint venture; or

(2) You as landlord will insure your tenant's share, or you as tenant will insure your landlord's share. In this event, you must provide evidence of the other party's approval (lease, power of attorney, etc.). Such evidence will be retained by us. You also must clearly set forth the percentage shares of each person on the acreage report.

(b) We may consider any acreage or interest reported by or for your spouse, child or any member of your household to be included in your share.

(c) Acreage rented for a percentage of the crop, or a lease containing provisions for BOTH a minimum payment (such as a specified amount of cash, bushels, pounds, etc.) AND a crop share will be considered a crop share lease.

(d) Acreage rented for cash, or a lease containing provisions for EITHER a minimum payment OR a crop share (such as a 50/50 share or \$100.00 per acre, whichever is greater) will be considered a cash lease.

12. Insurance Period

(a) Except for prevented planting coverage (see section 18), coverage begins on each unit or part of a unit at the later of:

(1) The date we accept your application (For the purposes of this paragraph, the date of acceptance is the date that you submit a properly executed application in accordance with section 3);

(2) The date the insured crop is planted; or

(3) The calendar date contained in the Crop Provisions for the beginning of the insurance period.

(b) Coverage ends at the earliest of:

(1) Total destruction of the insured crop on the unit;

(2) Harvest of the unit;

(3) Final adjustment of a loss on a unit; 1

(4) The calendar date contained in the Crop Provisions for the end of the insurance period;

(5) Abandonment of the crop on the unit; or

(6) As otherwise specified in the Crop Provisions.

13. Causes of Loss

The insurance provided is against only unavoidable loss of revenue directly caused by specific causes of loss contained in the Crop Provisions. All other causes of loss, including but not limited to the following, are NOT covered:

(a) Negligence, mismanagement, or wrongdoing by you, any member of your family or household, your tenants, or employees;

(b) Failure to follow recognized good farming practices for the insured crop;

(c) Water contained by any governmental, public, or private dam or reservoir project;

(d) Failure or breakdown of irrigation equipment or facilities; or

(e) Failure to carry out a good irrigation practice for the insured crop, if applicable.

14. Replanting Payment

(a) If allowed by the Crop Provisions, a replanting payment may be made on an insured crop replanted after we have given consent and the acreage replanted is at least the lesser of 20 acres or 20 percent of the insured planted acreage for the unit (as determined on the final planting date or within the late planting period if a late planting period is applicable.)

(b) No replanting payment will be made on acreage:

(1) On which our appraisal establishes that production will exceed the level set by the Crop Provisions;

(2) Initially planted prior to the earliest planting date established by the Special Provisions; or

(3) On which one replanting payment has already been allowed for the crop year.

(c) The replanting payment per acre will be your actual cost for replanting, but will not exceed the amount determined in accordance with the Crop Provisions.

(d) No replanting payment will be paid if we determine it is not practical to replant.

15. Duties in the Event of Damage or Loss

Your Duties—

(a) In case of damage to any insured crop you must:

(1) Protect the crop from further damage by providing sufficient care;

(2) Give us notice within 72 hours of your initial discovery of damage (but not later than 15 days after the end of the insurance period), by unit, for each insured crop (we may accept a notice of loss provided later than 72 hours after your initial discovery if we still have the ability to accurately adjust the loss);

(3) Leave representative samples intact for each field of the damaged unit as may be required by the Crop Provisions;

(4) Cooperate with us in the investigation or settlement of the claim, and, as often as we reasonably require:

(i) Show us the damaged crop;

(ii) Allow us to remove samples of the insured crop; and

(iii) Provide us with records and documents we request and permit us to make copies; and

(5) Give us notice of your expected revenue loss not later than 45 days after the date the Harvest Price is released.

(b) You must obtain consent from us before, and notify us after you:

(1) Destroy any of the insured crop that is not harvested;

(2) Put the insured crop to an alternative use;

(3) Put the acreage to another use; or

(4) Abandon any portion of the insured crop. We will not give consent for any of the actions in sections 15(b)(1) through (4) if it is practical to replant the crop or until we have made an appraisal of the potential production of the crop.

(c) In addition to complying with all other notice requirements, you must submit a claim for indemnity declaring the amount of your loss not later than 60 days after the date the Harvest Price is released. This claim must include all the information we require to settle the claim.

(d) Upon our request, you must:

(1) Provide a complete harvesting and marketing record of each insured crop by unit including separate records showing the same information for production from any acreage not insured; and

(2) Submit to examination under oath.
(e) You must establish the total production or value received for the insured crop on the unit, that any loss of production or value occurred during

the insurance period, and that the loss of production or value was directly caused by one or more of the insured causes specified in the Crop Provisions.

(f) All notices required in this section that must be received by us within 72 hours may be made by telephone or in person to your crop insurance agent but must be confirmed in writing within 15 days.

Our Duties—

(a) If you have complied with all the policy provisions, we will pay your loss within 30 days after:

(1) We reach agreement with you;

(2) Completion of arbitration or appeal proceedings; or

(3) The entry of a final judgment by a court of competent jurisdiction.

(b) In the event we are unable to pay your loss within 30 days, we will give you notice of our intentions within the 30-day period.

(c) We may defer the adjustment of a loss until the amount of loss can be accurately determined. We will not pay for additional damage resulting from your failure to provide sufficient care for the crop during the deferral period.

(d) We recognize and apply the loss adjustment procedures established or approved by FCIC.

16. Production Included in Determining Indemnities

(a) The total production to be counted for a unit will include all production determined in accordance with the policy.

(b) The amount of production of any unharvested insured crop may be determined on the basis of our field appraisals conducted after the end of the insurance period.

(c) Appraised production will be used to calculate your claim if you will not be harvesting the acreage. To determine your indemnity based on appraised production, you must agree to notify us if you harvest the crop and advise us of the production. If the acreage will be harvested, harvested production will be used to determine any indemnity due, unless otherwise specified in the policy.

(d) The amount of an indemnity that may be determined under the applicable provisions of your crop policy may be reduced by an amount, determined in accordance with the Crop Provisions or Special Provisions, to reflect out-of-pocket expenses that were not incurred by you as a result of not planting, caring for, or harvesting the crop. Indemnities paid for acreage prevented from being planted will be based on a reduced Final Guarantee as provided for in the crop policy and will not be further reduced to reflect expenses not incurred.

17. Late Planting

Unless limited by the Crop Provisions, insurance will be provided for acreage planted to the insured crop after the final planting date in accordance with the following:

(a) The Final Guarantee for each acre planted to the insured crop during the late planting period will be reduced by 1 percent per day for each day planted after the final planting date.

(b) Acreage planted after the late planting period (or after the final planting date for crops that do not have a late planting period) may be insured as follows:

(1) The Final Guarantee for each acre planted as specified in this subsection will be determined by multiplying the Final Guarantee that is provided for acreage of the insured crop that is timely planted by the prevented planting coverage level percentage you elected, or that is contained in the Crop Provisions if you did not elect a prevented planting coverage level percentage;

(2) Planting on such acreage must have been prevented by the final planting date (or during the late planting period, if applicable) by an insurable cause occurring within the insurance period for prevented planting coverage; and

(3) All production from acreage as specified in this section will be included as production to count for the unit.

(c) The premium amount for insurable acreage specified in this section will be the same as that for timely planted acreage. If the amount of premium you are required to pay (gross premium less our subsidy) for such acreage exceeds the liability, coverage for those acres will not be provided (no premium will be due, and no indemnity will be paid).

(d) Any acreage on which an insured cause of loss is a material factor in preventing completion of planting, as specified in the definition of "planted acreage" (e.g., seed is broadcast on the soil surface but cannot be incorporated) will be considered as acreage planted after the final planting date and the Final Guarantee will be calculated in accordance with section 17(b)(1).

18. Prevented Planting

(a) Unless limited by the policy provisions, a prevented planting payment may be made to you for eligible acreage if:

(1) You were prevented from planting the insured crop by an insured cause that occurs:

(i) On or after the sales closing date contained in the Special Provisions for

the insured crop in the county for the crop year the application for insurance is accepted; or

(ii) For any subsequent crop year, on or after the sales closing date for the previous crop year for the insured crop in the county, provided insurance has been in force continuously since that date. Cancellation for the purpose of transferring the policy to a different insurance provider for the subsequent crop year will not be considered a break in continuity for the purpose of the preceding sentence;

(2) You include any acreage of the insured crop that was prevented from being planted on your acreage report; and

(3) You did not plant the insured crop during or after the late planting period. If such acreage was planted to the insured crop during or after the late planting period, it is covered under the late planting provisions.

(b) The actuarial documents may contain additional levels of prevented planting coverage that you may purchase for the insured crop:

(1) Such purchase must be made on or before the sales closing date.

(2) If you do not purchase one of those additional levels by the sales closing date, you will receive the prevented planting coverage specified in the Crop Provisions.

(3) If you have an MPCI Catastrophic Risk Protection Endorsement for any acreage of "high risk land," the additional levels of prevented planting coverage will not be available for that acreage; and

(4) You may not increase your elected or assigned preventing planting coverage level for any crop year if a cause of loss that will or could prevent planting is evident prior to the time you wish to change your prevented planting coverage level.

(c) The premium amount for acreage that is prevented from being planted will be the same as that for timely planted acreage. If the amount of premium you are required to pay (gross premium less our subsidy) for acreage that is prevented from being planted exceeds the liability on such acreage, coverage for those acres will not be provided (no premium will be due and no indemnity will be paid for such acreage).

(d) Drought or failure of the irrigation water supply will be considered to be an insurable cause of loss for the purposes of prevented planting only if on the final planting date (or within the late planting period if you elect to try to plant the crop):

(1) For non-irrigated acreage, the area that is prevented from being planted has

insufficient soil moisture for germination of seed and progress toward crop maturity due to a prolonged period of dry weather. Prolonged precipitation deficiencies must be verifiable using information collected by sources whose business it is to record and study the weather, including, but not limited to, local weather reporting stations of the National Weather Service; or

(2) For irrigated acreage, there is not a reasonable probability of having adequate water to carry out an irrigated practice.

(e) The maximum number of acres that may be eligible for a prevented planting payment for any crop will be determined as follows:

(1) The total number of acres eligible for prevented planting coverage for all

crops cannot exceed the number of acres of cropland in your farming operation for the crop year, unless you are eligible for prevented planting coverage on double cropped acreage in accordance with section 18(f)(4) or (5). The eligible acres for each insured crop will be determined in accordance with the following table:

Type of crop	Eligible acres if, in any of the 4 most recent crop years, you have planted any crop in the county for which prevented planting insurance was available or have received a prevented planting insurance guarantee	Eligible acres if, in any of the 4 most recent crop years, you have not planted any crop in the county for which prevented planting insurance was available or have not received a prevented planting insurance guarantee
(i) The crop is not required to be contracted with a processor to be insured.	(A) The maximum number of acres certified for APH purposes or reported for insurance for the crop in any one of the 4 most recent crop years (not including reported prevented planting acreage that was planted to a substitute crop other than an approved cover crop). The number of acres determined above for a crop may be increased by multiplying it by the ratio of the total cropland acres that you are farming this year (if greater) to the total cropland acres that you farmed in the previous year, provided that you submit proof to us that for the current crop year you have purchased or leased additional land or that acreage will be released from any USDA program which prohibits harvest of a crop. Such acreage must have been purchased, leased, or released from the USDA program, in time to plant it for the current crop year using good farming practices. No cause of loss that will or could prevent planting may be evident at the time the acreage is purchased, leased, or released from the USDA program.	(B) The number of acres specified on your intended acreage report which is submitted to us by the sales closing date for all crops you insure for the crop year and that is accepted by us. The total number of acres listed may not exceed the number of acres of cropland in your farming operation at the time you submit the intended acreage report. The number of acres determined above for a crop may only be increased by multiplying it by the ratio of the total cropland acres that you are farming this year (if greater) to the number of acres listed on your intended acreage report, if you meet the conditions stated in section 18(e)(1)(i)(A).
(ii) The crop must be contracted with a processor to be insured.	(A) The number of acres of the crop specified in the processor contract, if the contract specifies a number of acres contracted for the crop year; or the result of dividing the quantity of production stated in the processor contract by your approved yield, if the processor contract specifies a quantity of production that will be accepted. (For the purposes of establishing the number of prevented planting acres, any reductions applied to the transitional yield for failure to certify acreage and production for four prior years will not be used.)	(B) The number of acres of the crop as determined in section 18(e)(1)(ii)(A).

(2) Any eligible acreage determined in accordance with the table contained in section 18(e)(1) will be reduced by subtracting the number of acres of the crop (insured and uninsured) that are timely and late planted, including acreage specified in section 17(b).

(f) Regardless of the number of eligible acres determined in section 18(e), prevented planting coverage will not be provided for any acreage:

(1) That does not constitute at least 20 acres or 20 percent of the insurable crop acreage in the unit, whichever is less.

Any prevented planting acreage within a field that contains planted acreage will be considered to be acreage of the same crop, type, and practice that is planted in the field unless the acreage that was prevented from being planted constitutes at least 20 acres or 20 percent of the total insurable acreage in the field and you produced both crops, crop types, or followed both practices in the same field in the same crop year

within any of the 4 most recent crop years;

(2) Used for conservation purposes or intended to be left unplanted under any program administered by the USDA;

(3) For which the actuarial documents do not designate a premium rate unless a written agreement designates such premium rate;

(4) On which the insured crop is prevented from being planted, if you or any other person receives a prevented planting payment for any crop for the same acreage in the same crop year (excluding share arrangements), unless you have coverage greater than the Catastrophic Risk Protection Plan of Insurance and have records of acreage and production that are used to determine your approved yield that show the acreage was double-cropped in each of the last 4 years in which the insured crop was grown on the acreage;

(5) On which the insured crop is prevented from being planted, if any

crop from which any benefit is derived under any program administered by the USDA is planted and fails, or if any crop is harvested, hayed or grazed on the same acreage in the same crop year (other than a cover crop which may be hayed or grazed after the final planting date for the insured crop), unless you have coverage greater than that applicable to the Catastrophic Risk Protection Plan of Insurance and have records of acreage and production that are used to determine your approved yield that show the acreage was double-cropped in each of the last 4 years in which the insured crop was grown on the acreage. (If one of the crops being double-cropped is not insurable, other verifiable records of it being planted may be used);

(6) Of a crop that is prevented from being planted if a cash lease payment is also received for use of the same acreage in the same crop year (not applicable if acreage is leased for haying or grazing

only). If you state that you will not be cash renting the acreage and claim a prevented planting payment on the acreage, you could be subject to civil and criminal sanctions if you cash rent the acreage and do not return the prevented planting payment for it;

(7) For which planting history or conservation plans indicate that the acreage would have remained fallow for crop rotation purposes;

(8) That exceeds the number of acres eligible for a prevented planting payment;

(9) That exceeds the number of eligible acres physically available for planting;

(10) For which you cannot provide proof that you had the inputs available to plant and produce a crop with the expectation of at least producing the yield used to determine the Final Guarantee (Evidence that you have previously planted the crop on the unit will be considered adequate proof unless your planting practices or rotational requirements show that the acreage would have remained fallow or been planted to another crop);

(11) Based on an irrigated practice Final Guarantee unless adequate irrigation facilities were in place to carry out an irrigated practice on the acreage prior to the insured cause of loss that prevented you from planting. Acreage with an irrigated practice Final Guarantee will be limited to the number of acres allowed for that practice under sections 18(e) and (f); or

(12) Based on a crop type that you did not plant, or did not receive a prevented planting insurance guarantee for, in at least one of the four most recent crop years. Types for which separate insurance guarantees are available must be included in your APH database in at least one of the four most recent crop years, or crops that do not require yield certification (crops for which the insurance guarantee is not based on APH) must be reported on your acreage report in at least one of the four most recent crop years except as allowed in section 18(e)(1)(i)(B). We will limit prevented planting payments based on a specific crop type to the number of acres allowed for that crop type as specified in sections 18(e) and (f).

(g) If you purchased a limited or additional coverage policy for a crop, and you executed a High Risk Land Exclusion Option that separately insures acreage which has been designated as "high risk" land by FCIC under a Catastrophic Risk Protection Endorsement for that crop, the maximum number of acres eligible for a prevented planting payment will be

limited for each policy as specified in sections 18(e) and (f).

(h) If you are prevented from planting a crop for which you do not have an adequate base of eligible prevented planting acreage, as determined in accordance with section 18(e)(1), your prevented planting production guarantee, premium, and prevented planting payment will be based on the crops insured for the current crop year, for which you have remaining eligible prevented planting acreage. The crops used for this purpose will be those that result in a prevented planting payment most similar to the prevented planting payment that would have been made for the crop that was prevented from being planted.

(1) For example, assume you were prevented from planting 200 acres of corn and have 100 acres eligible for a corn prevented planting guarantee that would result in a payment of \$40 per acre. You also had 50 acres of potato eligibility that would result in a \$100 per acre payment, 90 acres of grain sorghum eligibility that would result in a \$30 per acre payment, and 100 acres of soybean eligibility that would result in a \$25 per acre payment. Your prevented planting coverage for the 200 acres would be based on 100 acres of corn (\$40 per acre), 90 acres of grain sorghum (\$30 per acre), and 10 acres of soybeans (\$25 per acre).

(2) Prevented planting coverage will be allowed as specified in this section (18(h)) only if the crop that was prevented from being planted meets all policy provisions, except for having an adequate base of eligible prevented planting acreage. Payment may be made based on crops other than those that were prevented from being planted even though other policy provisions, including but not limited to, processor contract and rotation requirements, have not been met for the crop on which payment is being based.

(i) The prevented planting payment for any eligible acreage within a basic or optional unit will be determined by:

(1) Multiplying the Final Guarantee for timely planted acreage of the insured crop by the prevented planting coverage level percentage you elected, or that is contained in the Crop Provisions if you did not elect a prevented planting coverage level percentage;

(2) Multiplying the result of section 18(i)(1) by the number of eligible prevented planting acres in the unit; and

(3) Multiplying the result of section 18(i)(2) by your share.

(j) The prevented planting payment for any eligible acreage within an enterprise unit will be determined by:

(1) Multiplying the Final Guarantee for each basic unit or optional unit within the enterprise unit, for timely planted acreage of the insured crop by the prevented planting coverage level percentage you elected, or that is contained in the Crop Provisions if you did not elect a prevented planting coverage level percentage;

(2) Multiplying the result of section 18(j)(1) by the number of eligible prevented planting acres in each basic unit or optional unit within the enterprise unit;

(3) Multiplying the result of section 18(j)(2) by your share; and

(4) Total the results from section 18(j)(3).

19. Crops as Payment

You must not abandon any crop to us. We will not accept any crop as compensation for payments due us.

20. Arbitration

(a) If you and we fail to agree on any factual determination, the disagreement will be resolved in accordance with the rules of the American Arbitration Association. Failure to agree with any factual determination made by FCIC must be resolved through the FCIC appeal provisions published at 7 CFR part 11.

(b) No award determined by arbitration or appeal can exceed the amount of liability established or which should have been established under the policy.

21. Access to Insured Crop and Records, and Record Retention

(a) We reserve the right to examine the insured crop as often as we reasonably require.

(b) For three years after the end of the crop year, you must retain, and provide upon our request, complete records of the harvesting, storage, shipment, sale, or other disposition of all the insured crop produced on each unit. This requirement also applies to the records used to establish the basis for the production report for each unit. You must also provide upon our request, separate records showing the same information for production from any acreage not insured. We may extend the record retention period beyond three years by notifying you of such extension in writing. Your failure to keep and maintain such records will, at our option, result in:

- (1) Cancellation of the policy;
- (2) Assignment of production to the units by us;
- (3) Combination of the optional units; or
- (4) A determination that no indemnity is due.

(c) Any person designated by us will, at any time during the record retention period, have access:

(1) To any records relating to this insurance at any location where such records may be found or maintained; and

(2) To the farm.

(d) By applying for insurance under the authority of the Act or by continuing insurance for which you previously applied, you authorize us, or any person acting for us, to obtain records relating to the insured crop from any person who may have custody of those records including, but not limited to, FSA offices, banks, warehouses, gins, cooperatives, marketing associations, and accountants. You must assist us in obtaining all records which we request from third parties.

22. Other Insurance

(a) **Other Like Insurance**—You must not obtain any other crop insurance issued under the authority of the Act on your share of the insured crop. If we determine that more than one policy on your share is intentional, you may be subject to the sanctions authorized under this policy, the Act, or any other applicable statute. If we determine that the violation was not intentional, the policy with the earliest date of application will be in force and all other policies will be void. Nothing in this paragraph prevents you from obtaining other insurance not issued under the Act.

(b) **Other Insurance Against Fire**—If you have other insurance, whether valid or not, against damage to the insured crop by fire during the insurance period, we will be liable for loss due to fire only for the smaller of:

(1) The amount of indemnity determined pursuant to this policy without regard to such other insurance; or

(2) The amount by which the loss from fire is determined to exceed the indemnity paid or payable under such other insurance.

(c) For the purpose of subsection (b) of this section, the amount of loss from fire will be the reduction in revenue of the insured crop on the unit involved determined pursuant to this policy.

23. Conformity to Food Security Act

Although your violation of a number of federal statutes, including the Act, may cause cancellation, termination, or voidance of your insurance contract, you should be specifically aware that your policy will be canceled if you are determined to be ineligible to receive benefits under the Act due to violation of the controlled substance provision

(title XVII of the Food Security Act of 1985 (Pub. L. 99-198)) and the regulations promulgated under the Act by USDA. Your insurance policy will be canceled if you are determined, by the appropriate Agency, to be in violation of these provisions. We will recover any and all monies paid to you or received by you during your period of ineligibility, and your premium will be refunded, less a reasonable amount for expenses and handling not to exceed 20 percent of the premium paid or to be paid by you.

24. Amounts Due Us

(a) Interest will accrue at the rate of 1.25 percent simple interest per calendar month, or any portion thereof, on any unpaid amount due us. For the purpose of premium amounts due us, the interest will start to accrue on the first day of the month following the premium billing date specified in the Special Provisions.

(b) For the purpose of any other amounts due us, such as repayment of indemnities found not to have been earned, interest will start to accrue on the date that notice is issued to you for the collection of the unearned amount. Amounts found due under this paragraph will not be charged interest if payment is made within 30 days of issuance of the notice by us. The amount will be considered delinquent if not paid within 30 days of the date the notice is issued by us.

(c) All amounts paid will be applied first to expenses of collection (see section 24(d)) if any, second to the reduction of accrued interest, and then to the reduction of the principal balance.

(d) If we determine that it is necessary to contract with a collection agency or to employ an attorney to assist in collection, you agree to pay all of the expenses of collection.

(e) Amounts owed to us by you may be collected in part through administrative offset from payments you receive from United States government agencies in accordance with 31 U.S.C. chapter 37.

25. Legal Action Against Us

(a) You may not bring legal action against us unless you have complied with all of the policy provisions.

(b) If you do take legal action against us, you must do so within 12 months of the date of denial of the claim. Suit must be brought in accordance with the provisions of 7 U.S.C. 1508(j).

(c) Your right to recover damages (compensatory, punitive, or other), attorney's fees, or other charges is

limited or excluded by this contract or by Federal regulations.

26. Payment and Interest Limitations

(a) Under no circumstances will we be liable for the payment of damages (compensatory, punitive, or other), attorney's fees, or other charges in connection with any claim for indemnity, whether we approve or disapprove such claim.

(b) We will pay simple interest computed on the net indemnity ultimately found to be due by us or by a final judgment of a court of competent jurisdiction, from and including the 61st day after the date you sign, date, and submit to us the properly completed claim on our form. Interest will be paid only if the reason for our failure to timely pay is NOT due to your failure to provide information or other material necessary for the computation or payment of the indemnity. The interest rate will be that established by the Secretary of the Treasury under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611) and published in the **Federal Register** semiannually on or about January 1 and July 1 of each year, and may vary with each publication.

27. Concealment, Misrepresentation or Fraud

(a) If you have falsely or fraudulently concealed the fact that you are ineligible to receive benefits under the Act or if you or anyone assisting you has intentionally concealed or misrepresented any material fact relating to this policy:

(1) This policy will be voided; and
(2) You may be subject to remedial sanctions in accordance with 7 CFR part 400, subpart R.

(b) Even though the policy is void, you may still be required to pay 20 percent of the premium due under the policy to offset costs incurred by us in the service of this policy. If previously paid, the balance of the premium will be returned.

(c) Voidance of this policy will result in you having to reimburse all indemnities paid for the crop year in which the voidance was effective.

(d) Voidance will be effective on the first day of the insurance period for the crop year in which the act occurred and will not affect the policy for subsequent crop years unless a violation of this section also occurred in such crop years.

28. Transfer of Coverage and Right to Indemnity

If you transfer any part of your share during the crop year, you may transfer your coverage rights, if the transferee is eligible for crop insurance. We will not

be liable for any more than the liability determined in accordance with your policy that existed before the transfer occurred. The transfer of coverage rights must be on our form and will not be effective until approved by us in writing. Both you and the transferee are jointly and severally liable for the payment of the premium and administrative fees. The transferee has all rights and responsibilities under this policy consistent with the transferee's interest.

29. Assignment of Indemnity

You may assign to another party your right to an indemnity for the crop year. The assignment must be on our form and will not be effective until approved in writing by us. The assignee will have the right to submit all loss notices and forms as required by the policy. If you have suffered a loss from an insurable cause and fail to file a claim for indemnity within 60 days after the end of the insurance period, the assignee may submit the claim for indemnity not later than 15 days after the 60-day period has expired. We will honor the terms of the assignment only if we can accurately determine the amount of the claim. However, no action will lie against us for failure to do so.

30. Subrogation (Recovery of Loss From a Third Party)

Since you may be able to recover all or a part of your loss from someone other than us, you must do all you can to preserve this right. If we pay you for your loss, your right to recovery will, at our option, belong to us. If we recover more than we paid you plus our expenses, the excess will be paid to you.

31. Descriptive Headings

The descriptive headings of the various policy provisions are formulated for convenience only and are not intended to affect the construction or meaning of any of the policy provisions.

32. Notices

(a) All notices required to be given by you must be in writing and received by your crop insurance agent within the designated time unless otherwise provided by the notice requirement. Notices required to be given immediately may be by telephone or in person and confirmed in writing. Time of the notice will be determined by the time of our receipt of the written notice. If the date by which you are required to submit a report or notice falls on Saturday, Sunday, or a Federal holiday, or, if your agent's office is, for any reason, not open for business on the date you are required to submit such

notice or report, such notice or report must be submitted on the next business day.

(b) All notices and communications required to be sent by us to you will be mailed to the address contained in your records located with your crop insurance agent. Notice sent to such address will be conclusively presumed to have been received by you. You should advise us immediately of any change of address.

33. Multiple Benefits

(a) If you are eligible to receive an indemnity under a limited or additional coverage plan of insurance and are also eligible to receive benefits for the same loss under any other USDA program, you may receive benefits under both programs, unless specifically limited by the crop insurance contract or by law.

(b) The total amount received from all such sources may not exceed the amount of your actual loss. The total amount of the actual loss is the difference between the fair market value of the insured commodity before and after the loss, based on your production records and the highest price election or amount of insurance available for the crop.

(c) FSA will determine and pay the additional amount due you for any applicable USDA program, after first considering the amount of any crop insurance indemnity.

(d) Farm ownership and operating loans may be obtained from USDA in addition to crop insurance indemnities.

34. Written Agreements

Only rates or rates of premium for this policy may be altered by written agreement in accordance with the following:

(a) You must apply in writing for each written agreement no later than the sales closing date, except as provided in section 34(e);

(b) The application for a written agreement must contain the rate or rate of premium applicable to this policy that will be in effect if the written agreement rate is not approved;

(c) If approved, the written agreement will specify the rate or rate of premium that will be in effect;

(d) Each written agreement will only be valid for one crop year (If the written agreement is not specifically renewed the following year, the rates for subsequent crop years will be the rate specified in the actuarial document), or if no rate is specified the acreage will not be insurable; and

(e) An application for a written agreement submitted after the sales closing date may be approved if you

demonstrate your physical inability to apply prior to the sales closing date, or it is submitted in accordance with any regulation which may be promulgated under 7 CFR 400, and after physical inspection of the acreage by us, if required, it is determined that no loss has occurred and the crop is insurable in accordance with the policy and written agreement provisions.

Crop Revenue Coverage

Coarse Grains Crop Provisions

If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Special Provisions; (2) the Commodity Exchange Endorsement; (3) these Crop Provisions; and (4) the Basic Provisions, with (1) controlling (2), etc.

1. Definitions

Calculated Revenue. The production to count multiplied by the Harvest Price.

Coarse grains. Corn, grain sorghum, and soybeans.

Grain sorghum. The crop defined as sorghum under the United States Grain Standards Act.

Harvest. Combining, threshing, or picking the insured crop for grain.

Local market price. The cash grain price per bushel for U.S. No. 2 yellow corn, U.S. No. 2 grain sorghum, or U.S. No. 1 soybeans, offered by buyers in the area in which you normally market the insured crop. The local market price will reflect the maximum limits of quality deficiencies allowable for the U.S. No. 2 grade for yellow corn and grain sorghum, or U.S. No. 1 grade for soybeans. Factors not associated with grading under the Official United States Standards for Grain, including but not limited to protein and oil, will not be considered.

Planted acreage. In addition to the definition contained in the Basic Provisions, coarse grains must initially be planted in rows (corn must be planted in rows far enough apart to permit mechanical cultivation), unless otherwise provided by the Special Provisions or actuarial documents.

Silage. A product that results from severing the plant from the land and chopping it for the purpose of livestock feed.

2. Coverage Level and Price Percentage

In addition to the requirements of section 4 of the Basic Provisions all the insurable acreage of each crop in the county insured as grain under this policy will have the same coverage level and price percentage elections.

3. Contract Changes

In accordance with Section 5 of the Basic Provisions, the contract change

date is November 30 preceding the cancellation date.

4. Cancellation and Termination Dates

In accordance with section 3(h) of the Basic Provisions, the cancellation and termination dates are:

State and county	Cancellation and termination dates
(a) For corn and grain sorghum: Val Verde, Edwards, Kerr, Kendall, Bexar, Wilson, Karnes, Goliad, Victoria, and Jackson Counties, Texas, and all Texas counties lying south thereof.	January 15.
El Paso, Hudspeth, Culberson, Reeves, Loving, Winkler, Ector, Upton, Reagan, Sterling, Coke, Tom Green, Concho, McCulloch, San Saba, Mills, Hamilton, Bosque, Johnson, Tarrant, Wise, Cooke Counties, Texas, and all Texas counties lying south and east thereof to and including Terrell, Crockett, Sutton, Kimble, Gillespie, Blanco, Comal, Guadalupe, Gonzales, De Witt, Lavaca, Colorado, Wharton, and Matagorda Counties, Texas.	February 15.
Alabama; Arizona; Arkansas; California; Florida; Georgia; Louisiana; Mississippi; Nevada; North Carolina; and South Carolina.	February 28.
All other Texas counties and all other states	March 15
(b) For soybeans: Jackson, Victoria, Goliad, Bee, Live Oak, McMullen, LaSalle, and Dimmit Counties, Texas and all Texas counties lying south thereof.	February 15.
Alabama; Arizona; Arkansas; California; Florida; Georgia; Louisiana; Mississippi; Nevada; North Carolina; and South Carolina; and El Paso, Hudspeth, Culberson, Reeves, Loving, Winkler, Ector, Upton, Reagan, Sterling, Coke, Tom Green, Concho, McCulloch, San Saba, Mills, Hamilton, Bosque, Johnson, Tarrant, Wise, Cooke Counties, Texas, and all Texas counties lying south and east thereof to and including Maverick, Zavala, Frio, Atascosa, Karnes, De Witt, Lavaca, Colorado, Wharton, and Matagorda Counties, Texas.	February 28.
All other Texas counties and all other states	March 15.

5. Insured Crop

(a) In accordance with section 9 of the Basic Provisions, the crop insured will be each coarse grain crop you elect to insure for which premium rates and prices are provided by the actuarial documents:

- (1) In which you have a share;
- (2) That is adapted to the area based on days to maturity and is compatible with agronomic and weather conditions in the area, including air seeded soybeans subject to our approval;
- (3) That is not (unless allowed by the Special Provisions):
 - (i) Interplanted with another crop; or
 - (ii) Planted into an established grass or legume; and
- (4) Planted for harvest as grain.

(b) For corn only, in addition to the provisions of section 5(a), the corn crop insured will be all corn that is yellow dent or white corn, including mixed yellow and white, waxy, high-lysine corn, high-oil corn blends containing

mixtures of at least ninety percent high yielding yellow dent female plants with high-oil male pollinator plants, commercial varieties of high-protein hybrids, and excluding:

- (1) High-amylose, high-oil except as defined in section 5(b), flint, flour, Indian, or blue corn, or a variety genetically adapted to provide forage for wildlife or any other open pollinated corn.
- (2) A variety of corn adapted for silage use when the corn is reported for insurance as grain.
- (c) For grain sorghum only, in addition to the provisions of section 5(a), the grain sorghum crop insured will be all of the grain sorghum in the county:
 - (1) That is a combine-type hybrid grain sorghum (grown from hybrid seed); and
 - (2) That is not a dual-purpose type of grain sorghum (a type used for both grain and forage).

(d) For soybeans only, in addition to the provisions of section 5(a), the soybean crop insured will be all of the soybeans in the county that are planted for harvest as beans.

6. Insurable Acreage

In addition to the provisions of section 10 of the Basic Provisions, any acreage of the insured crop damaged before the final planting date, to the extent that a majority of producers in the area would not normally further care for the crop, must be replanted unless we agree that it is not practical to replant.

7. Insurance Period

In accordance with the provisions under section 12 of the Basic Provisions, the calendar date for the end of the insurance period is the date immediately following planting as follows:

(a) For corn:	
(1) Val Verde, Edwards, Kerr, Kendall, Bexar, Wilson, Karnes, Goliad, Victoria, and Jackson Counties, Texas, and all Texas counties lying south thereof.	September 30.
(2) Clark, Cowlitz, Grays Harbor, Island, Jefferson, King, Kitsap, Lewis, Pierce, Skagit, Snohomish, Thurston, Wahkiakum, and Whatcom Counties, Washington.	October 31.
(3) All other counties and states	December 10.
(b) For grain sorghum:	
(1) Val Verde, Edwards, Kerr, Kendall, Bexar, Wilson, Karnes, Goliad, Victoria, and Jackson Counties, Texas, and all Texas counties lying south thereof.	September 30.
(2) All other Texas counties and all other states	December 10.
(c) For soybeans:	
All states	December 10.

8. Causes of Loss

In accordance with the provisions of section 13 of the Basic Provisions insurance is provided only against an unavoidable loss of revenue due to the following causes of loss which occur within the insurance period:

- (a) Adverse weather conditions;
- (b) Fire;
- (c) Insects, but not damage due to insufficient or improper application of pest control measures;
- (d) Plant disease, but not damage due to insufficient or improper application of disease control measures;
- (e) Wildlife;
- (f) Earthquake;
- (g) Volcanic eruption;
- (h) Failure of the irrigation water supply, if applicable, due to a cause of loss contained in section 8 (a) through (g) occurring within the insurance period; or
- (i) A Harvest Price that is less than the Base Price.

9. Replanting Payments

(a) In accordance with section 14 of the Basic Provisions, replanting payments for coarse grains are allowed if the coarse grains are damaged by an insurable cause of loss to the extent that the remaining stand will not produce at least 90 percent of the Minimum Guarantee for the acreage and it is practical to replant.

(b) The maximum amount of the replanting payment per acre will be the lesser of 20 percent of the Minimum Guarantee or:

- (1) For corn, 8 bushels multiplied by the Base Price, multiplied by your insured share;
- (2) For grain sorghum, 7 bushels multiplied by the Base Price, multiplied by your insured share; and
- (3) For soybeans, 3 bushels multiplied by the Base Price multiplied by your insured share.

(c) When the crop is replanted using a practice that is uninsurable as an original planting, the Final Guarantee for the unit will be reduced by the amount of the replanting payment which is attributable to your share. The premium amount will not be reduced.

10. Duties in the Event of Damage or Loss

(a) In accordance with the requirements of section 15 of the Basic Provisions, if you initially discover damage to any insured crop within 15 days of or during harvest, you must leave representative samples of the unharvested crop for our inspection. The samples must be at least 10 feet wide, extend the entire length of each

field in the unit, and must not be harvested or destroyed until the earlier of our inspection or 15 days after harvest of the balance of the unit is completed.

(b) In addition to the requirements of section 15 of the Basic Provisions, you must notify us before harvest begins if you intend to harvest corn acreage for silage.

11. Settlement of Claim

(a) We will determine your loss on a unit basis. In the event you are unable to provide separate acceptable production records:

(1) For any optional unit, we will combine all optional units for which acceptable records of production were not provided; or

(2) For any basic unit, we will allocate any commingled production to such units in proportion to our liability on the harvested acreage for each unit.

(b) In the event of loss or damage covered by this policy, we will settle your claim on any insured basic or optional unit of Coarse Grains by:

- (1) Multiplying the insured acreage of the crop by the Final Guarantee;
- (2) Subtracting the Calculated Revenue from the result of section 11(b)(1); and
- (3) Multiplying the result of 11(b)(2) by your share.

If the result of section 11(b)(3) is greater than zero, an indemnity will be paid. If the result of section 11(b)(3) is less than zero, no indemnity will be due.

(c) In the event of loss or damage covered by this policy, we will settle your claim on any insured enterprise unit by:

- (1) Multiplying the insured acreage of the crop by the Final Guarantee for each basic unit or optional unit within the enterprise unit;
- (2) For each basic unit or optional unit in 11(c)(1), compute the Calculated Revenue;
- (3) Subtract each result in section 11(c)(2) from the respective result of section 11(c)(1);
- (4) Multiplying each result of section 11(c)(3) by your share; and
- (5) Total the results of section 11(c)(4).

If the result of section 11(c)(5) is greater than zero, an indemnity will be paid. If the result of section 11(c)(5) is less than zero, no indemnity will be due.

(d) The total production in bushels to count from all insurable acreage for the crop on the unit will include:

- (1) All appraised production as follows:
 - (i) Not less than that amount of production that when multiplied by the

Harvest Price equals the Final Guarantee for the acreage:

- (A) That is abandoned;
- (B) Put to another use without our consent;
- (C) Planted for grain but harvested as silage, if you fail to give us notice before harvest begins;
- (D) Damaged solely by uninsured causes; or
- (E) For which you fail to provide records of production that are acceptable to us;
- (ii) Production lost due to uninsured causes;
- (iii) Unharvested production (mature unharvested production may be adjusted for quality deficiencies and excess moisture in accordance with section 11(e)); and

(iv) Potential production on insured acreage you want to put to another use or you wish to abandon and no longer care for, if you and we agree on the appraised amount of production. Upon such agreement the insurance period for that acreage will end if you put the acreage to another use or abandon the crop. If agreement on the appraised amount of production is not reached:

(A) If you do not elect to continue to care for the crop we may give you consent to put the acreage to another use if you agree to leave intact, and provide sufficient care for, representative samples of the crop in locations acceptable to us (The amount of production to count for such acreage will be based on the harvested production or appraisals from the samples at the time harvest should have occurred. If you do not leave the required samples intact, or you fail to provide sufficient care for the samples, our appraisal made prior to giving you consent to put the acreage to another use will be used to determine the amount of production to count.); or

(B) If you elect to continue to care for the crop, the amount of production to count for the acreage will be the harvested production, or our reappraisal if additional damage occurs and the crop is not harvested; and

(2) All harvested production from the insurable acreage.

(e) Mature coarse grain production may be adjusted for excess moisture and quality deficiencies. If moisture adjustment is applicable it will be made prior to any adjustment for quality.

(1) Production will be reduced by 0.12 percent for each 0.1 percentage point of moisture in excess of:

- (i) Fifteen percent for corn (If moisture exceeds 30 percent, production will be reduced 0.2 percent for each 0.1 percentage point above 30 percent);

(ii) Fourteen percent for grain sorghum; and
 (iii) Thirteen percent for soybeans.
 We may obtain samples of the production to determine the moisture content.

(2) Production will be eligible for quality adjustment if:

(i) Deficiencies in quality, in accordance with the Official United States Standards for Grain, result in:
 (A) Corn not meeting the grade requirements for U.S. No. 4 (grades U.S. No. 5 or worse) because of test weight or kernel damage (excluding heat damage) or having a musty, sour, or commercially objectionable foreign odor;

(B) Grain sorghum not meeting the grade requirements for U.S. No. 4 (grades U.S. Sample grade) because of test weight or kernel damage (excluding heat damage) or having a musty, sour, or commercially objectionable foreign odor (except smut odor), or meets the special grade requirements for smutty grain sorghum; or

(C) Soybeans not meeting the grade requirements for U.S. No. 4 (grades U.S. Sample grade) because of test weight or kernel damage (excluding heat damage) or having a musty, sour, or commercially objectionable foreign odor (except garlic odor), or which meet the special grade requirements for garlicky soybeans; or

(ii) Substances or conditions are present that are identified by the Food and Drug Administration or other public health organizations of the United States as being injurious to human or animal health.

(3) Quality will be a factor in determining your loss only if:

(i) The deficiencies, substances, or conditions resulted from a cause of loss against which insurance is provided under these crop provisions;

(ii) All determinations of these deficiencies, substances, or conditions are made using samples of the production obtained by us or by a disinterested third party approved by us; and

(iii) The samples are analyzed by a grader licensed under the authority of the United States Grain Standards Act or the United States Warehouse Act with regard to deficiencies in quality, or by a laboratory approved by us with regard to substances or conditions injurious to human or animal health. (Test weight for quality adjustment purposes may be determined by our loss adjuster).

(4) Coarse grain production that is eligible for quality adjustment, as specified in sections 11(e)(2) and 11(e)(3), will be reduced by the quality

adjustment factor contained in the Special Provisions.

(f) Any production harvested from plants growing in the insured crop may be counted as production of the insured crop on a weight basis.

12. Prevented Planting

Your prevented planting coverage will be 60 percent of your Final Guarantee for timely planted acreage. If you have limited or additional levels of coverage, as specified in 7 CFR part 400, subpart T, and pay an additional premium, you may increase your prevented planting coverage to a level specified in the actuarial documents.

Crop Revenue Coverage

Mandatory Actuarial Document Endorsement

Commodity Exchange Endorsement—Coarse Grains

(This is a Continuous Endorsement)

If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Special Provisions; (2) this Commodity Exchange Endorsement; (3) the Crop Provisions; and (4) the Basic Provisions, with (1) controlling (2), etc.

How this endorsement affects your coverage:

(I) This endorsement is attached to and made a part of your Crop Revenue Coverage (CRC) Coarse Grains crop policy provisions and actuarial documents, subject to the terms and conditions described herein.

(II) This endorsement specifies how, where, and when commodity prices for your CRC Coarse Grains policy are determined.

(III) This endorsement defines the Average Daily Settlement Price, as used in the Base Price and Harvest Price, as—The average calculated by summing all the daily settlement prices for the contract specified in the applicable Base Price and/or Harvest Price definition (established on full active trading days), during the month specified in the applicable Base Price and/or Harvest Price definition, and dividing that sum by the total number of days included in the sum. The average must include at least fifteen (15) days and each day included in the average must be a full active trading day for the contract specified in the applicable Base Price and/or Harvest Price definition. A full active trading day is any day on which there are fifty (50) or more open interest contracts of the contract specified in the Base Price and/or Harvest Price definition. If there are less than fifteen (15) full active trading days for the

contract specified in the applicable Base Price and/or Harvest Price definition, then additional daily settlement prices, established on full active trading days, for the contract immediately prior to the contract specified in the applicable Base Price and/or Harvest Price definition, during the month specified in the applicable Base Price and/or Harvest Price definition, will be used until there are fifteen (15) prices from fifteen (15) full active trading days included in the average.

(IV) This endorsement defines the Base Price and Harvest Price as shown in Section 1 of the Crop Revenue Coverage Basic Provisions by Cancellation Date as follows:

Corn (for Grain)—Chicago Board of Trade (CBOT)—Counties With a March 15 Cancellation Date

Base Price (CBOT)—The February harvest year average daily settlement price for the harvest year's CBOT December corn futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by March 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The November harvest year average daily settlement price for the harvest year's CBOT December corn futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus one dollar and fifty cents (\$1.50), or greater than the Base Price plus one dollar and fifty cents (\$1.50). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by December 10 of the harvest year, and will be available in your agent's office.

Corn (for Grain)—CBOT—Counties With a Cancellation Date Prior to March 15

Base Price (CBOT)—The December pre-harvest year average daily settlement price for the harvest year's CBOT September corn futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial

Document Addendum (Special Provisions) by January 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The August harvest year average daily settlement price for the harvest year's CBOT September corn futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus one dollar and fifty cents (\$1.50), or greater than the Base Price plus one dollar and fifty cents (\$1.50). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by September 10 of the harvest year, and will be available in your agent's office.

Grain Sorghum (for Grain)—CBOT—Counties With a March 15 Cancellation Date

Base Price (CBOT)—The Preliminary Grain Sorghum Base Price multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Preliminary Grain Sorghum Base Price equals the February harvest year average daily settlement price for the harvest year's CBOT December corn futures contract (rounded to the nearest whole cent), multiplied times .95 and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by March 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The Preliminary Grain Sorghum Harvest Price multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Preliminary Grain Sorghum Harvest Price equals the November harvest year average daily settlement price for the harvest year's CBOT December corn futures contract (rounded to the nearest whole cent) multiplied times .95 and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus one dollar and fifty cents (\$1.50), or greater than the Base Price plus one dollar and fifty cents (\$1.50). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by December 10 of the harvest year, and will be available in your agent's office.

Grain Sorghum (for Grain)—CBOT—Counties With a Cancellation Date Prior to March 15

Base Price (CBOT)—The Preliminary Grain Sorghum Base Price multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Preliminary Grain Sorghum Base Price equals the December pre-harvest year average daily settlement price for the harvest year's CBOT September corn futures contract (rounded to the nearest whole cent) multiplied times .95 and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by January 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The Preliminary Grain Sorghum Harvest Price multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Preliminary Grain Sorghum Harvest Price equals the August harvest year average daily settlement price for the harvest year's CBOT September corn futures contract (rounded to the nearest whole cent) multiplied times .95 and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus one dollar and fifty cents (\$1.50), or greater than the Base Price plus one dollar and fifty cents (\$1.50). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by September 10 of the harvest year, and will be available in your agent's office.

Soybeans—CBOT—Counties With a March 15 Cancellation Date

Base Price (CBOT)—The February harvest year average daily settlement price for the harvest year's CBOT November soybean futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by March 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The October harvest year average daily settlement price for the harvest year's CBOT November soybean futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest

whole cent. The Harvest Price cannot be less than the Base Price minus three dollars (\$3.00), or greater than the Base Price plus three dollars (\$3.00). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by November 10 of the harvest year, and will be available in your agent's office.

Soybeans—CBOT—Counties With a Cancellation Date Prior to March 15

Base Price (CBOT)—The December pre-harvest year average daily settlement price for the harvest year's CBOT September soybean futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by January 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The August harvest year average daily settlement price for the harvest year's CBOT September soybean futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus three dollars (\$3.00), or greater than the Base Price plus three dollars (\$3.00). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by September 10 of the harvest year, and will be available in your agent's office.

All other terms and conditions of the Policy remain unchanged.

Crop Revenue Coverage

Cotton Crop Provisions

If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Special Provisions; (2) the Commodity Exchange Endorsement; (3) these Crop Provisions; and (4) the Basic Provisions, with (1) controlling (2), etc.

1. Definitions

Calculated Revenue. The production to count multiplied by the Harvest Price.

Cotton. Varieties identified as American Upland Cotton.

Final Guarantee. In lieu of the definition contained in the Basic

Provisions, the number of dollars guaranteed per acre is determined to be the higher of the Minimum Guarantee or the Harvest Guarantee, where:

(1) Minimum Guarantee—The Approved Yield per acre, multiplied by the applicable cotton yield conversion factor for non-irrigated skip-row planting patterns, multiplied by the Base Price multiplied by the coverage level percentage you elect.

(2) Harvest Guarantee—The Approved Yield per acre, multiplied by the applicable cotton yield conversion factor for non-irrigated skip-row planting patterns, multiplied by the Harvest Price, multiplied by the coverage level percentage you elect.

If you elect enterprise unit coverage, the Basic Units or Optional Units comprising the enterprise unit will retain separate Final Guarantees.

Growth area. A geographic area designated by the Secretary of

Agriculture for the purpose of reporting cotton prices.

Harvest. The removal of the seed cotton from the open cotton boll, or the severance of the open cotton boll from the stalk by either manual or mechanical means.

Mature cotton. Cotton that can be harvested either manually or mechanically.

Planted acreage. In addition to the definition contained in the Basic Provisions, cotton must be planted in rows, unless otherwise provided by the Special Provisions or actuarial documents. The yield conversion factor normally applied to non-irrigated skip-row cotton acreage will not be used if the land between the rows of cotton is planted to any other spring planted crop.

Skip-row. A planting pattern that:

- (1) Consists of alternating rows of cotton and fallow land or land planted to another crop the previous fall; and
- (2) Qualifies as a skip-row planting pattern as defined by FSA.

2. Coverage Level and Price Percentage

In addition to the requirements of section 4 of the Basic Provisions all the insurable acreage of each crop in the county insured as cotton under this policy will have the same coverage level and price percentage elections.

3. Contract Changes

In accordance with Section 5 of the Basic Provisions, the contract change date is November 30 preceding the cancellation date.

4. Cancellation and Termination Dates

In accordance with section 3(h) of the Basic Provisions, the cancellation and termination dates are:

State and county	Cancellation and termination dates
Val Verde, Edwards, Kerr, Kendall, Bexar, Wilson, Karnes, Goliad, Victoria, and Jackson Counties, Texas, and all Texas counties lying south thereof.	January 15.
Alabama; Arizona; Arkansas; California; Florida; Georgia; Louisiana; Mississippi; Nevada; North Carolina; South Carolina; El Paso, Hudspeth, Culberson, Reeves, Loving, Winkler, Ector, Upton, Reagan, Sterling, Coke, Tom Green, Concho, McCulloch, San Saba, Mills, Hamilton, Bosque, Johnson, Tarrant, Wise, and Cooke Counties, Texas, and all Texas counties lying south and east thereof to and including Terrell, Crocket, Sutton, Kimble, Gillespie, Blanco, Comal, Guadalupe, Gonzales, De Witt, Lavaca, Colorado, Wharton, and Matagorda Counties, Texas.	February 28.
All other Texas counties and all other states	March 15.

5. Insured Crop

In accordance with section 9 of the Basic Provisions, the crop insured will be all the cotton lint, in the county for which premium rates are provided by the actuarial documents:

- (a) In which you have a share; and
- (b) That is not (unless allowed by the Special Provisions):

- (1) Colored cotton lint;
- (2) Planted into an established grass or legume;
- (3) Interplanted with another spring planted crop;
- (4) Grown on acreage from which a hay crop was harvested in the same calendar year unless the acreage is irrigated; or
- (5) Grown on acreage on which a small grain crop reached the heading stage in the same calendar year unless the acreage is irrigated or adequate measures are taken to terminate the small grain crop prior to heading and less than 50 percent of the small grain plants reach the heading stage.

6. Insurable Acreage

In addition to the provisions of section 10 of the Basic Provisions:

- (a) The acreage insured will be only the land occupied by the rows of cotton when a skip row planting pattern is utilized; and
- (b) Any acreage of the insured crop damaged before the final planting date, to the extent that a majority of producers in the area would not normally further care for the crop, must be replanted unless we agree that it is not practical to replant.

7. Insurance Period

- (a) In lieu of section 12(b)(2) of the Basic Provisions, insurance will end upon the removal of the cotton from the field.
- (b) In accordance with the provisions under section 12 of the Basic Provisions, the calendar date for the end of the insurance period is the date immediately following planting as follows:
 - (1) September 30 in Val Verde, Edwards, Kerr, Kendall, Bexar, Wilson, Karnes, Goliad, Victoria, and Jackson Counties, Texas, and all Texas counties lying south thereof;
 - (2) January 31 in Arizona, California, New Mexico, Oklahoma, and all other Texas counties; and

- (3) December 31 in all other states.

8. Causes of Loss

In accordance with the provisions of section 13 of the Basic Provisions, insurance is provided only against an unavoidable loss of revenue due to the following causes of loss which occur within the insurance period:

- (a) Adverse weather conditions;
- (b) Fire;
- (c) Insects, but not damage due to insufficient or improper application of pest control measures;
- (d) Plant disease, but not damage due to insufficient or improper application of disease control measures;
- (e) Wildlife;
- (f) Earthquake;
- (g) Volcanic eruption;
- (h) Failure of the irrigation water supply, if applicable, due to a cause of loss contained in section 8(a) through (g) occurring within the insurance period; or
- (i) A Harvest Price that is less than the Base Price.

9. Duties in the Event of Damage or Loss

(a) In addition to your duties under section 15 of the Basic Provisions, in the event of damage or loss:

(1) The cotton stalks must remain intact for our inspection; and

(2) If you initially discover damage to the insured crop within 15 days of harvest, or during harvest, you must leave representative samples of the unharvested crop in the field for our inspection. The samples must be at least 10 feet wide and extend the entire length of each field in the unit.

(b) The stalks must not be destroyed, and required samples must not be harvested, until the earlier of our inspection or 15 days after harvest of the balance of the unit is completed and written notice of probable loss given to us.

10. Settlement of Claim

(a) We will determine your loss on a unit basis. In the event you are unable to provide records of production:

(1) For any optional unit, we will combine all optional units for which acceptable records of production were not provided; or

(2) For any basic unit, we will allocate any commingled production to such units in proportion to our liability on the harvested acreage for each unit.

(b) In the event of loss or damage covered by this policy, we will settle your claim on any insured basic or optional unit by:

(1) Multiplying the insured acreage of the crop by the Final Guarantee;

(2) Subtracting the Calculated Revenue from the result of section 10(b)(1); and

(3) Multiplying the result of 10(b)(2) by your share.

If the result of section 10(b)(3) is greater than zero, an indemnity will be paid. If the result of section 10(b)(3) is less than zero, no indemnity will be due.

(c) In the event of loss or damage covered by this policy, we will settle your claim on any insured enterprise unit by:

(1) Multiplying the insured acreage of the crop by the Final Guarantee for each basic unit or optional unit within the enterprise unit;

(2) For each basic unit or optional unit in 10(c)(1), compute the Calculated Revenue;

(3) Subtract each result in section 10(c)(2) from the respective result of section 10(c)(1);

(4) Multiplying each result of section 10(c)(3) by your share; and

(5) Total the results of section 10(c)(4);

If the result of section 10(c)(5) is greater than zero, an indemnity will be paid. If the result of section 10(c)(5) is less than zero, no indemnity will be due.

(d) The total production (in pounds) to count from all insurable acreage on the unit will include:

(1) All appraised production as follows:

(i) Not less than that amount of production that when multiplied by the Harvest Price equals the Final Guarantee for the acreage:

(A) That is abandoned;

(B) Put to another use without our consent;

(C) Damaged solely by uninsured causes;

(D) For which you fail to provide records of production that are acceptable to us; or

(E) On which the cotton stalks are destroyed, in violation of section 9;

(ii) Production lost due to uninsured causes;

(iii) Unharvested production (mature unharvested production of white cotton may be adjusted for quality deficiencies in accordance with section 10(e)); and

(iv) Potential production on insured acreage you want to put to another use or you wish to abandon or no longer care for, if you and we agree on the appraised amount of production. Upon such agreement, the insurance period for that acreage will end if you put the acreage to another use or abandon the crop. If agreement on the appraised amount of production is not reached:

(A) If you do not elect to continue to care for the crop we may give you consent to put the acreage to another use if you agree to leave intact, and provide sufficient care for, representative samples of the crop in locations acceptable to us (The amount of production to count for such acreage will be based on the harvested production or appraisals from the samples at the time harvest should have occurred. If you do not leave the required samples intact, or you fail to provide sufficient care for the samples, our appraisal made prior to giving you consent to put the acreage to another use will be used to determine the amount of production to count); or

(B) If you elect to continue to care for the crop, the amount of production to count for the acreage will be the harvested production, or our reappraisal if additional damage occurs and the crop is not harvested; and

(2) All harvested production from the insurable acreage, including any mature cotton retrieved from the ground.

(e) Mature white cotton may be adjusted for quality when production

has been damaged by insured causes. Unless otherwise provided by the Special Provisions, such production to count will be reduced if the price quotation for cotton of like quality (price quotation "A") for the applicable growth area is less than 75 percent of price quotation "B". Price quotation "B" is defined as the price quotation for the applicable growth area for cotton of the color and leaf grade, staple length, and micronaire reading designated in the Special Provisions for this purpose. Price quotations "A" and "B" will be the price quotations contained in the Daily Spot Cotton Quotations published by the USDA Agricultural Marketing Service on the date the last bale from the unit is classed. If not available on the date the last bale was classed, the price quotations will be determined on the date the last bale from the unit was delivered to the warehouse, as shown on the insured's account summary obtained from the gin. If eligible for quality adjustment, the amount of production to be counted will be determined by multiplying the number of pounds of production eligible for such adjustment by the factor derived from dividing price quotation "A" by price quotation "B".

(f) Colored cotton lint will not be eligible for quality adjustment.

11. Prevented Planting

(a) In addition to the provisions contained in section 18 of the Basic Provisions, your prevented planting Final Guarantee will be based on your approved yield without adjustment for skip-row planting patterns.

(b) Your prevented planting coverage will be 50 percent of your Final Guarantee for timely planted acreage. If you have limited or additional levels of coverage, as specified in 7 CFR part 400, subpart T, and pay an additional premium, you may increase your prevented planting coverage to a level specified in the actuarial documents.

Crop Revenue Coverage

Mandatory Actuarial Document Endorsement

Commodity Exchange Endorsement—Cotton

(This is a Continuous Endorsement)

If a conflict exists among the policy provisions, the order of priority is as follows: (1) the Special Provisions; (2) this Commodity Exchange Endorsement; (3) the Crop Provisions; and (4) the Basic Provisions, with (1) controlling (2), etc.

How this endorsement affects your coverage:

(I) This endorsement is attached to and made a part of your Crop Revenue Coverage (CRC) Cotton crop policy provisions and Actuarial Documents, subject to the terms and conditions described herein.

(II) This endorsement specifies how, where, and when commodity prices for your CRC Cotton policy are determined.

(III) This endorsement defines the Average Daily Settlement Price, as used in the Base Price and Harvest Price, as—The average calculated by summing all the daily settlement prices for the contract specified in the applicable Base Price and/or Harvest Price definition (established on full active trading days), during the month specified in the applicable Base Price and/or Harvest Price definition, and dividing that sum by the total number of days included in the sum. The average must include at least fifteen (15) days and each day included in the average must be a full active trading day for the contract specified in the applicable Base Price and/or Harvest Price definition. A full active trading day is any day on which there are fifty (50) or more open interest contracts of the contract specified in the Base Price and/or Harvest Price definition. If there are less than fifteen (15) full active trading days for the contract specified in the applicable Base Price and/or Harvest Price definition, then additional daily settlement prices, established on full active trading days, for the contract immediately prior to the contract specified in the applicable Base Price and/or Harvest Price definition, during the month specified in the applicable Base Price and/or Harvest Price definition, will be used until there are fifteen (15) prices from fifteen (15) full active trading days included in the average.

(IV) This endorsement defines the Base Price and Harvest Price as shown in Section 1 of the Crop Revenue Coverage Basic Provisions by Cancellation Date as follows:

Cotton—New York Cotton Exchange (NYCE)—Counties With a February 28 or March 15 Cancellation Date

Base Price (NYCE)—The January 15 to February 14 harvest year average daily settlement price for the harvest year's NYCE December cotton futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by February 20 of the harvest year, and will be available in your agent's office.

Harvest Price (NYCE)—The November harvest year average daily settlement price for the harvest year's NYCE December cotton futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus seventy cents (\$0.70), or greater than the Base Price plus seventy cents (\$0.70). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by December 10 of the harvest year, and will be available in your agent's office.

Cotton—NYCE Counties with a January 15 Cancellation Date

Base Price (NYCE)—The December pre-harvest year average daily settlement price for the harvest year's NYCE October cotton futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by January 10 of the harvest year, and will be available in your agent's office.

Harvest Price (NYCE)—The September harvest year average daily settlement price for the harvest year's (NYCE) October cotton futures contract (rounded to the nearest whole cent) multiplied times the selected Price Percentage and rounded to the nearest whole cent. The Harvest Price cannot be less than the Base Price minus seventy cents (\$0.70), or greater than the Base Price plus seventy cents (\$0.70). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by October 10 of the harvest year, and will be available in your agent's office.

All other terms and conditions of the Policy remain unchanged

Crop Revenue Coverage Insurance Policy

Rice Crop Provisions

If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Special Provisions; (2) The Commodity Exchange Endorsement; (3) these Crop Provisions; and (4) The Basic Provisions, with (1) controlling (2), etc.

1. Definitions

Average Daily Settlement Price. Refer to the definition contained in the Commodity Exchange Endorsement—Rice.

Calculated Revenue. The production to count multiplied by the Harvest Price.

Flood irrigation. An irrigated practice commonly used for rice production whereby the planted acreage is intentionally covered with water that is maintained at a uniform and shallow depth throughout the growing season.

Harvest. Combining or threshing the rice for grain. A crop that is swathed prior to combining is not considered harvested.

Local market price. The cash price per pound for the U.S. No. 3 grade of rough rice offered by buyers in the area in which you normally market the rice. Factors not associated with grading under the United States Standards for Rice including, but not limited to, protein and oil content or milling quality will not be considered.

Planted. The uniform placement of an adequate amount of rice seed into a prepared seedbed by one of the following methods:

(a) Drill seeding—Using a grain drill to incorporate the seed to a proper soil depth;

(b) Broadcast seeding—Distributing seed evenly onto the surface of an unflooded seedbed followed by either timely mechanical incorporation of the seed to a proper soil depth in the seedbed or flushing the seedbed with water; or

(c) Broadcast seeding into a controlled flood—Distributing the rice seed onto a prepared seedbed that has been intentionally covered to a proper depth by water. The water must be free of movement and be completely contained on the acreage by properly constructed levees and gates.

Acreage seeded in any other manner will not be insurable unless otherwise provided by the Special Provisions.

Prevented planting guarantee. The Prevented Planting Guarantee for such acreage will be that percentage of the Final Guarantee for timely planted acres as set forth in section 13.

Saline water. Water that contains a concentration of salt sufficient to cause damage to the insured crop.

Second crop rice. The regrowth of a stand of rice following harvest of the initially insured rice crop that can be harvested in the same crop year.

Swathed. Severance of the stem and grain head from the ground without removal of the rice kernels from the plant and placing in a windrow.

Total milling yield. Rice production consisting of heads, second heads, screenings, and brewer's rice as defined by the official United States Standards for Rice.

2. Unit Structure

Provisions in the Basic Provisions that allow optional units by irrigated and

non-irrigated practices are not applicable.

3. Coverage Level and Price Percentage

In addition to the requirements of section 4 of the Basic Provisions all the insurable acreage of each crop in the county insured as grain under this policy will have the same coverage level and price percentage elections.

4. Contract Changes

In accordance with section 5 in the Basic Provisions, the contract change date is November 30 preceding the cancellation date.

5. Cancellation and Termination Dates

In accordance with section 3(b) of the Basic Provisions, the cancellation and termination dates are:

State and county	Cancellation and termination date
Jackson, Victoria, Goliad, Bee, Live Oak, McMullen, La Salle, and Dimmit Counties, Texas; and all Texas Counties south thereof.	January 15.
Florida	February 15.
All other Texas counties and all other states	February 28.

6. Insured Crop

In accordance with section 9 of the Basic Provisions, the crop insured will be all the rice in the county for which a premium rate is provided by the actuarial documents:

- (a) In which you have a share;
- (b) That is planted for harvest as grain;
- (c) That is flood irrigated; and
- (d) That is not wild rice.

7. Insurable Acreage

In addition to the provisions of section 10 of the Basic Provisions:

- (a) We will not insure any acreage planted to rice:
 - (1) The preceding crop year unless allowed by the Special Provisions; or
 - (2) That does not meet the rotation requirements shown in the Special Provisions; and
- (b) Any acreage of the insured crop damaged before the final planting date, to the extent that producers in the area would normally not further care for the crop, must be replanted unless we agree that it is not practical to replant.

8. Insurance Period

In accordance with the provisions of section 12 of the Basic Provisions, the calendar date for the end of the insurance period is October 31 immediately following planting.

9. Causes of Loss

(a) In addition to the provisions under section 13 of the Basic Provisions, any loss covered by this policy must occur within the insurance period. The specific causes of loss for rice are:

- (1) Adverse weather conditions (except drought);
- (2) Fire;
- (3) Insects, but not damage due to insufficient or improper application of pest control measures;

(4) Plant disease, but not damage due to insufficient or improper application of disease control measures;

- (5) Wildlife;
 - (6) Earthquake;
 - (7) Volcanic eruption; or
 - (8) Failure of the irrigation water supply, if caused by an insured peril that occurs during the insurance period.
- (9) A Harvest Price that is less than the Base Price.

(b) In addition to the causes of loss not insured against in section 13 of the Basic Provisions, we will not insure against any loss of production due to the application of saline water.

10. Replanting Payment

- (a) A replanting payment for rice is allowed as follows:
 - (1) You must comply with all requirements regarding replanting payments contained under section 14 of the Basic Provisions;
 - (2) The rice must be damaged by an insurable cause of loss to the extent that the remaining stand will not produce at least 90 percent of the Minimum Guarantee for the acreage; and
 - (3) The replanted rice must be seeded at a rate that is normal for initially planted rice (if new seed is planted at a reduced seeding rate into a partially damaged stand of rice, the acreage will not be eligible for a replanting payment).
- (b) In accordance with the provisions of section 14 of the Basic Provisions, the maximum amount of the replanting payment per acre will be the lesser of 20 percent of the Minimum Guarantee or 400 pounds, multiplied by the Base Price, multiplied by your insured share.

(c) When rice is replanted using a practice that is uninsurable for an original planting, the liability for the unit will be reduced by the amount of the replanting payment. The premium amount will not be reduced.

11. Duties in the Event of Damage or Loss

In addition to your duties under section 15 of the Basic Provisions, if you initially discover damage to any insured crop within 15 days of, or during harvest, you must leave representative samples of the unharvested crop for our inspection. The samples must be at least 10 feet wide and the entire length of each field in the unit, and must not be harvested or destroyed until the earlier of our inspection or 15 days after harvest of the balance of the unit is completed.

12. Settlement of Claim

- (a) We will determine your loss on a unit basis. In the event you are unable to provide separate acceptable production records:
 - (1) For any optional unit, we will combine all optional units for which acceptable records of production were not provided; or
 - (2) For any basic unit, we will allocate any commingled production to such units in proportion to our liability on the harvested acreage for each unit.
- (b) In the event of loss or damage covered by this policy, we will settle your claim on any insured basic or optional unit of rice by:
 - (1) Multiplying the insured acreage of the crop by the Final Guarantee;
 - (2) Subtracting the Calculated Revenue from the result of section 12(b)(1); and
 - (3) Multiplying the result of 12(b)(2) by your share.
- If the result of section 12(b)(3) is greater than zero, an indemnity will be paid. If the result of section 12(b)(3) is less than zero, no indemnity will be due.
- (c) In the event of loss or damage covered by this policy, we will settle your claim on any insured enterprise unit by:

(1) Multiplying the insured acreage of the crop by the Final Guarantee for each basic unit or optional unit within the enterprise unit;

(2) For each basic unit or optional unit in section 12(c)(1), compute the Calculated Revenue;

(3) Subtract each result in section 12(c)(2) from the respective result of section 12(c)(1);

(4) Multiplying each result of section 12(c)(3) by your share; and

(5) Total the results of section 12(c)(4).

If the result of section 12(c)(5) is greater than zero, an indemnity will be paid. If the result of section 12(c)(5) is less than zero, no indemnity will be due.

(d) The total production to count (in pounds) from all insurable acreage on the unit will include: All appraised production as follows:

(i) Not less than that amount of production that when multiplied by the Harvest Price equals the Final Guarantee for acreage:

(A) That is abandoned;

(B) Put to another use without our consent;

(C) That is damaged solely by uninsured causes; or

(D) For which you fail to provide acceptable production records;

(ii) Production lost due to uninsured causes;

(iii) Unharvested production (mature unharvested production may be adjusted for quality deficiencies and excess moisture in accordance with section 12(e));

(iv) Potential production on insured acreage that you intend to put to another use or abandon, if you and we agree on the appraised amount of production. Upon such agreement, the insurance period for that acreage will end when you put the acreage to another use or abandon the crop. If agreement on the appraised amount of production is not reached:

(A) If you do not elect to continue to care for the crop, we may give you consent to put the acreage to another use if you agree to leave intact, and provide sufficient care for, representative samples of the crop in locations acceptable to us (The amount of production to count for such acreage will be based on the harvested production or appraisals from the samples at the time harvest should have occurred. If you do not leave the required samples intact, or you fail to provide sufficient care for the samples, our appraisal made prior to giving you consent to put the acreage to another use will be used to determine the amount of production to count); or

(B) If you elect to continue to care for the crop, the amount of production to count for the acreage will be the harvested production, or our reappraisal if additional damage occurs and the crop is not harvested; and

(2) All harvested production from the insurable acreage, including any production from a second rice crop harvested in the same crop year.

(e) Mature rough rice may be adjusted for excess moisture and quality deficiencies. If moisture adjustment is applicable, it will be made prior to any adjustment for quality.

(1) Production will be reduced by 0.12 percent for each 0.1 percentage point of moisture in excess of 12 percent. We may obtain samples of the production to determine the moisture content.

(2) Production will be eligible for quality adjustment if:

(i) Deficiencies in quality, in accordance with the Official United States Standards for Rice, result in rice not meeting the grade requirements for U.S. No. 3 (grades U.S. No. 4 or worse) because of red rice, chalky kernels or damaged kernels;

(ii) The rice has a total milling yield of less than 68 pounds per hundredweight;

(iii) The whole kernel weight is less than 55 pounds per hundredweight of milled rice for medium and short grain varieties;

(iv) The whole kernel weight is less than 48 pounds per hundredweight of milled rice for long grain varieties; or

(v) Substances or conditions are present that are identified by the Food and Drug Administration of other public health organizations of the United States as being injurious to human or animal health.

(3) Quality will be a factor in determining your loss only if:

(i) The deficiencies, substances, or conditions specified in section 12(e)(2) resulted from a cause of loss against which insurance is provided under these crop provisions and which occurs within the insurance period;

(ii) The deficiencies, substances, or conditions specified in section 12(e)(2) result in a net price for the damaged production that is less than the local market price;

(iii) All determinations of these deficiencies, substances, or conditions specified in section 12(e)(2) are made using samples of the production obtained by us or by a disinterested third party approved by us; and

(iv) The samples are analyzed by a grader licensed to grade rice under the authority of the United States Agriculture Marketing Act or the United States Warehouse Act with regard to

deficiencies in quality, or by a laboratory approved by us with regard to substances or conditions injurious to human or animal health.

Notwithstanding the preceding sentence, test weight for quality adjustment purposes may be determined by our loss adjuster.

(4) Rice production that is eligible for quality adjustment, as specified in sections 12(e)(2) and (3), will be reduced as follows:

(i) In accordance with quality adjustment factors contained in the Special Provisions; or

(ii) If quality adjustment factors are not contained in the Special Provisions, as follows:

(A) The market price of the qualifying damaged production and the local market price will be determined on the earlier of the date such quality adjusted production is sold or the date of final inspection for the unit. The price for the qualifying damaged production will be the market price for the local area to the extent feasible. Discounts used to establish the net price of the damaged production will be limited to those that are usual, customary, and reasonable. The price will not be reduced for:

(1) Moisture content;

(2) Damage due to uninsured causes; or

(3) Drying, handling, processing, or any other costs associated with normal harvesting, handling, and marketing of the rice; except, if the price of the damaged production can be increased by conditioning, we may reduce the price of the production after it has been conditioned by the cost of conditioning but not lower than the value of the production before conditioning.

(We may obtain prices from any buyer of our choice. If we obtain prices from one or more buyers located outside your local market area, we will reduce such prices by the additional costs required to deliver the rice to those buyers.);

(B) The value of the damaged or conditioned production will be divided by the local market price to determine the quality adjustment factor; and

(C) The number of pounds remaining after any reduction due to excessive moisture (the moisture-adjusted gross pounds (if appropriate)) of the damaged or conditioned production will then be multiplied by the quality adjustment factor to determine the net production to count.

(f) Any production harvested from plants growing in the insured crop may be counted as production of the insured crop on a weight basis.

13. Prevented Planting

Your prevented planting coverage will be 45 percent of your Final Guarantee for timely planted acreage. If you have limited or additional levels of coverage, as specified in 7 CFR part 400, subpart T, and pay an additional premium, you may increase your prevented planting coverage to a level specified in the actuarial documents.

Crop Revenue Coverage

Mandatory Actuarial Document Endorsement

Commodity Exchange Endorsement—Rice

(This is a Continuous Endorsement)

If a conflict exists among the policy provisions, the order of priority is as follows: (1) the Special Provisions; (2) this Commodity Exchange Endorsement; (3) the Crop Provisions; and (4) the Basic Provisions, with (1) controlling (2), etc.

How this endorsement affects your coverage:

(I) This endorsement is attached to and made a part of your Crop Revenue Coverage (CRC) Rice crop policy provisions and actuarial documents, subject to the terms and conditions described herein.

(II) This endorsement specifies how, where, and when commodity prices for your CRC Rice policy are determined.

(III) This endorsement defines the Average Daily Settlement Price, as used in the Base Price and Harvest Price, as—The average calculated by summing all the daily settlement prices for the contract specified in the applicable Base Price and/or Harvest Price definition (established on full active trading days), during the month specified in the applicable Base Price and/or Harvest Price definition, and dividing that sum by the total number of days included in the sum. The average must include at least fifteen (15) days and each day included in the average must be a full active trading day for the contract specified in the applicable Base Price and/or Harvest Price definition. A full active trading day is any day on which there are fifty (50) or more open interest contracts of the contract specified in the Base Price and/or Harvest Price definition. If there are less than fifteen (15) full active trading days for the contract specified in the applicable Base Price and/or Harvest Price definition, then additional daily settlement prices, established on full active trading days, for the contract immediately prior to the contract specified in the applicable Base Price and/or Harvest Price definition,

during the month specified in the applicable Base Price and/or Harvest Price definition, will be used until there are fifteen (15) prices from fifteen (15) full active trading days included in the average.

(IV) This endorsement defines the Base Price and Harvest Price as shown in section 1 of the Crop Revenue Coverage Basic Provisions by Cancellation Date as follows:

Rice—Chicago Board of Trade (CBOT)—(All Counties With a January 15 Cancellation Date)

Base Price (CBOT)—The December pre-harvest year average daily settlement price per pound for the harvest year's CBOT September rough rice futures contract (rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent) multiplied times the selected Price Percentage and rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by January 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The August harvest year average daily settlement price per pound for the harvest year's CBOT September rough rice futures contract (rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent) multiplied times the selected Price Percentage and rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent. The Harvest Price cannot be less than the Base Price minus five cents (\$0.05), or greater than the Base Price plus five cents (\$0.05). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by September 10 of the harvest year, and will be available in your agent's office.

Rice—(CBOT)—(All Counties With February 15 or February 28 Cancellation Dates)

Base Price (CBOT)—The January harvest year average daily settlement price per pound for the harvest year's CBOT November rough rice futures contract (rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent) multiplied times the selected Price Percentage and rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent. The available Price Percentages and subsequent Base Price will be released as an Actuarial Document Addendum (Special Provisions) by February 10 of the harvest year, and will be available in your agent's office.

Harvest Price (CBOT)—The October harvest year average daily settlement price per pound for the harvest year's CBOT November rough rice futures contract (rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent) multiplied times the selected Price Percentage and rounded to the nearest one-tenth ($\frac{1}{10}$) of a cent. The Harvest Price cannot be less than the Base Price minus five cents (\$0.05), or greater than the Base Price plus five cents (\$0.05). The Price Percentage used to calculate the Harvest Price is equal to the selected Price Percentage used to calculate the Base Price. The Harvest Price will be released as an Actuarial Document Addendum (Special Provisions) by November 10 of the harvest year, and will be available in your agent's office. All other terms and conditions of the Policy remain unchanged.

Signed in Washington, DC on January 22, 1999.

John Zirschky,

Acting Manager, Federal Crop Insurance Corporation.

BILLING CODE 3410-08-P

DEPARTMENT OF AGRICULTURE

Food Safety and Inspection Service

[Docket No. 99-001N]

Codex Alimentarius Commission: Meeting of the Codex Committee on Food Additives and Contaminants

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice; request for comment.

SUMMARY: The Office of the Under Secretary for Food Safety, United States Department of Agriculture, and the Food and Drug Administration (FDA), Department of Health and Human Services, are sponsoring a public meeting on February 9, 1999, to provide information and receive public comments on agenda items that will be discussed at the Thirty-first Session of the Codex Committee on Food Additives and Contaminants (CCFAC), which will be held in the Hague, the Netherlands, March 22-26, 1999. The Office of the Under Secretary for Food Safety and FDA recognize the importance of providing interested parties the opportunity to obtain background information and address agenda items on the Thirty-first Session of the CCFAC.

DATES: The public meeting is scheduled for Tuesday, February 9, 1999, from 2 p.m. to 4 p.m.
