General Services Administration Acquisition Regulation; Streamlining Administration of Federal Supply Service (FSS) Multiple Award Schedule (MAS) Contracts and Clarifying Marking Requirements

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Interim rule with request for comments.

SUMMARY: The General Services Administration Acquisition Regulation (GSAR) is amended to clarify requirements for marking deliveries under contracts that provide for delivery to both civilian and military locations, clarify the contracting activities that are authorized to place orders under Federal Supply Service (FSS) contracts, allowing Procuring Contracting Officers (PCOs) in FSS to authorize Administrative Contracting Officers (ACOs) to issue cure or show cause notices, revise the time for submission to close-out reports under FSS multiple award schedule (MAS) contracts, and

simplify the process for deleting items from FSS MAS contracts.

DATES: Effective date: February 1, 1999. Comments should be submitted in writing to the address shown below on or before April 2, 1999.

ADDRESSES: Mail comments to General Services Administration, Office of Acquisition Policy, GSA Acquisition Policy Division (MVP), 1800 F Street, NW., Room 4012, Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Gloria Sochon, GSA Acquisition Policy Division, (202) 208-6726.

SUPPLEMENTARY INFORMATION:

A. Background

GSA is amending the GSAR for clarification and to delete unnecessary review requirements. GSAR 511.204 is amended to clarify the applicability of the clause at GSAR 552.211-73, Marking, so that deliveries are properly labeled for delivery at military or civilian locations. GSAR 516.505 and 552.216-73 are amended to define activities authorized to place orders under an FSS schedule contract when the contract provides that ordering activities may place orders directly. They are also amended to reflect that schedule contracts may provide for either or both task and delivery orders. GSAR 542.302 is amended to allow FSS PCOs to authorize ACOs to issue show cause or cure notices. This will streamline FSS's internal processes and allow for quicker response to contractor performance problems. GSAR 552.238-72 is amended to change the time for submission to contract close-out reports to eliminate a potential conflict between the required report date and the final date of performance of delivery orders. GSAR 552.238-76 is amended to change the reference to "maximum order limit" to "maximum order threshold." This is an administrative change to make 552.238-76 consistent with Federal Acquisition Regulation (FAR) subpart 8.4. GSAR 552.243-72 is amended to allow FSS MAS contractors to delete items without prior approval. This will remove a burdensome and time-consuming procedure that does not have value for the Government. GSAR 552.243-72 is also revised to give contractors the option of publishing supplemental price lists as modifications occur or on a quarterly basis. This recognizes that many contractors now issue electronic notices of changes and that modifications occur with such frequency that grouping changes to periodic updates in paper is more efficient for both contractors and the Government. GSAR 552.243-72 is

also revised to update a FAR reference and to delete a reference to an obsolete cause.

B. Executive Order 12866

This regulatory action was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993, and is not a major rule under 5 U.S.C. 804.

C. Regulatory Flexibility Act

The GSA certifies that this interim rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. The change will benefit all FSS MAS contractors, large and small, by streamlining administrative requirements.

- The change to the time for submission of contract close-out reports eliminates a potential conflict between the required report date and the final date of performance of delivery orders; this avoids placing a potentially impracticable requirement on FSS contractors.
- Updating the definition of activities authorized to place orders under FSS schedule contracts is necessary to accurately reflect current authority and avoid inconsistency with other order FSS solicitation and contract terms.
- Allowing FSS MAS contractors to delete items without prior approval will remove a burdensome and time-consuming procedure that does not have value for the Government. It allows contractors to provide potential customers the most current information on contract items.
- Contractors will have the option of publishing supplemental price lists as modifications occur or on a quarterly basis; letting them choose the most efficient method based on their individual circumstances.

D. Paperwork Reduction Act

The revised clause at 552.216-73 contains an information collection requirement subject to the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). However, the revisions to the clause made by this rule do not affect the information collection requirement which was approved previously by OMB and assigned control number 3090-0248. The revised clause at 552.238-72, Contractor's Report of Sales, also contains an information collection requirement subject to the Paperwork Reduction Act. However, the revisions to the clause made by this rule do not affect the information collection requirement which was approved

previously by OMB and assigned control number 3090-0121. The other changes in this rule do not impose recordkeeping or information collection requirements, or otherwise collect information from offerors, contractors, or members of the public that require approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

E. Determination To Issue an Interim Rule

Urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. GSA believes this rule will provide significant benefits to both the Federal government and GSA contractors:

- The change to 511.204 clarifies the applicability of the clause at 552.211-73, Marking, so that deliveries are properly labeled for delivery at military or civilian locations, helping to avoid delays or misdeliveries.
- Updating the definition of activities authorized to place orders under FSS schedule contracts is necessary to accurately reflect current authority and avoid inconsistency with other FSS solicitation and contract terms.
- Allowing FSS PCOs to authorize ACOs to issue show cause or cure notices streamlines FSS's internal processes and allows for quicker response to contractor performance problems.
- The change to the time for submission of contract close-out reports eliminates a potential conflict between the required report date and the final date of performance of delivery orders; this avoids placing a potentially impracticable requirement on FSS contractors.
- The change to allow FSS MAS contractors to delete items without prior approval will remove a burdensome and time-consuming procedure that does not have value for the Government. Preapproval of deletions is not necessary either for ascertaining cost reasonableness or to maintain control over the contract. Quicker notification of deletions will in fact help Federal agencies avoid ordering discontinued items.
- Giving contractors the option of publishing supplemental price lists as modifications occur or on a quarterly basis allows contractors to choose the most efficient method of notification and reduces the filing burden on Government users.

However, Pursuant to Pub. L. 98-577 and FAR 1.501, GSA will consider public comments received in response to this interim rule in the formation of the final rule.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 981222314-8321-02; I.D. 012799A]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 630 of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the interim 1999 pollock total allowable catch (TAC) for Statistical Area 630 established by the 1999 Interim Specifications and amended by the emergency interim rule implementing Steller sea lion protection measures for the pollock fisheries off Alaska.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 27, 1999, until superseded by the Final 1999 Harvest Specification for Groundfish, which will be published in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Nick Hindman, 907-581-2062.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance

with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(c)(2)(i) and emergency provisions implemented at § 679.20(a)(5)(ii)(c) (64 FR 3437, January 22, 1999), NMFS established the interim pollock TAC in Statistical Area 630 as 9,156 metric tons (mt).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the interim TAC of pollock in Statistical Area 630 will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 8,656 mt, and is setting aside the remaining 500 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. NMFS is prohibiting directed fishing for pollock in Statistical Area 630 of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately to prevent overharvesting the seasonal allocation of pollock in Statistical Areas 630. Providing prior notice and an opportunity for public comment is impracticable and contrary to the public interest. Further delay would only result in overharvest. NMFS finds for good cause that the implementation of this action should not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 27, 1999.
