

filing an original and 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of such comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents, and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, Commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a Federal court. The Commission will consider all comments and concerns equally, whether filed by Commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Texas Gas to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP99-170-000]

Texas Gas Transmission Corporation; Notice of Request Under Blanket Authorization

January 28, 1999.

Take notice that on January 22, 1999, Texas Gas Transmission Corporation (Texas Gas), P.O. Box 20008, Owensboro, Kentucky 42304, filed in Docket No. CP99-170-000 a request pursuant to sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.216) for authorization to abandon the existing measurement facilities at its LaFourche No. 1 Delivery Meter Station located on Texas Gas' Bayou Chevreuil-Trahan 10-Inch Pipeline in LaFourche Parish, Louisiana, under Texas Gas' blanket certificate issued in Docket No. CP82-407-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Gas states that it currently delivers gas to Trans Louisiana Gas Company, a Division of Atmos Energy Corporation, (TransLa) at the LaFourche No. 1 Delivery Meter Station. TransLa has requested that Texas Gas permit it to render gas service at this meter site, and Texas Gas has agreed to allow TransLa to be the custody transfer provider at this location. To accomplish this change in delivery of gas, Texas Gas agreed to file for approval to retire its existing measurement facilities at the LaFourche No. 1 Delivery Meter Station.

Thereafter, TransLa will install, own, operate and maintain measurement, regulation, odorization and other related facilities necessary to provide service at this meter site on Texas Gas' existing meter lot.

Texas Gas has agreed to pay to TransLa up to a maximum of \$13,880 as a contribution in aid for the costs relative to the installation of the above-mentioned facilities. No new facilities are required to be constructed by Texas Gas to provide service to TransLa.

Texas Gas states that the abandonment of facilities will not result in any termination of currently provided service. Texas Gas states that its existing tariff does not prohibit this activity and that there is sufficient capacity to accommodate the proposed changes without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective in the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EG99-67-000, et al.]

Lake Road Generating Company, L.P., et al.; Electric Rate and Corporate Regulation Filings

January 26, 1999.

Take notice that the following filings have been made with the Commission:

1. Lake Road Generating Company, L.P.

[Docket No. EG99-67-000]

Take notice that on January 22, 1999, Lake Road Generating Company, L.P. (Lake Road), a Delaware limited partnership with its principal place of business at 7500 Old Georgetown Road, Bethesda, MD 20814, filed with the Federal Energy Regulatory Commission, an Application for Determination of Exempt Wholesale Generator Status pursuant to Part 365 of the Commission's regulations.

Lake Road proposed to construct, own and operate a nominally rated 792 MW natural gas-fired combined cycle power plant in the Town of Killingly, Connecticut. The proposed power plant is expected to commence commercial operation in the year 2001. All capacity and energy from the plant will be sold exclusively at wholesale.

Comment date: February 16, 1999, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application.
