BILLING CODE 6325-01-P

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

SUMMARY: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are Invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and Purpose of information collection: Employee Non-Covered Service Pension Questionnaire; OMB 3220-0154. Section 215(a)(7) of the Social Security Act provides for a reduction in social security benefits

based on employment not covered under the Social Security Act or the Railroad Retirement Act (RRA). This provision applies a different social security benefit formula to most workers who are first eligible after 1985 to both a pension based in whole or in part on noncovered employment and a social security retirement or disability benefit. There is a guarantee provision that limits the reduction in the social security benefit to one-half of the portion of the pension based on noncovered employment after 1956. Section 8011 of Pub. L. 100-647 changed the effective date of the onset from the first month of eligibility to the first month of concurrent entitlement to the noncovered service benefit and the RRA benefit.

Section 3(a)(1) of the RRA provides that the Tier I benefit of an employee annuity will be equal to the amount (before any reduction for age or deduction for work) the employee would receive if he or she would have been entitled to a like benefit under the Social Security Act. The reduction for a noncovered service pension also applies to a Tier I portion of employees under the RRA where the annuity or noncovered service pension begins after 1985. Since the amount of a Tier I benefit of a spouse is one-half of the employee's Tier I, the spouse annuity is also affected by the employee's noncovered service pension reduction of his or her Tier I benefit.

The RRB utilizes Form G-209, Employee Noncovered Service Pension Questionnaire, to obtain needed information from railroad retirement employee applicants or annuitants about the receipt of a pension based on employment not covered under the Railroad Retirement Act or the Social Security Act. It is used as both a supplement to the employee annuity application, and as an independent questionnaire to be completed when an individual who is already receiving an employee annuity becomes entitled to a pension. One response is requested of each respondent. Completion is required to obtain or retain benefits. The RRB proposes a minor non-burden impacting editorial change to Form G-209.

Estimate of Annual Respondent Burden

The estimated annual respondent burden is as follows:

Form #(s)	Annual responses	Time (Min)	Burden (Hrs)
G-209 (partial questionnaire)	100	1	2
