

Department, College of Health, University of Utah, engaged in scientific misconduct in research supported by a National Institute of Mental Health (NIMH), National Institutes of Health (NIH) grant.

Specifically, Ms. Bodily intentionally falsified patient signatures and responses to questions for at least 75 patient interviews for an NIMH-funded research project, "Evaluation of the Utah Prepaid Mental Health Plan," which involved indigent patients. The study required annual interviews of the participating subjects. The falsified information was damaging to the research project because researchers had to expend substantial time and additional money to re-interview patients. Because the data for the previous year could not be recollected, the response rate for that year was substantially below the response rate for other years of the study and may have reduced the overall statistical reliability of the multi-year study.

None of the questioned data has been included in publications.

ORI has implemented the following administrative actions for the three (3) year period beginning January 25, 1999:

(1) Ms. Bodily is prohibited from any contracting or subcontracting with any agency of the United States Government and from eligibility for, or involvement

in nonprocurement transactions (e.g., grants and cooperative agreements) of the United States Government as defined in 45 C.F.R. Part 76 (Debarment Regulations); and

(2) Ms. Bodily is prohibited from serving in any advisory capacity to PHS, including but not limited to service on any PHS advisory committee, board, and/or peer review committee, or as a consultant.

Proposed Information Collection Activity; Comment Request

Proposed Project

Title: Federal Case Registry Family Violence State Practices Survey.

OMB No.: New.

Description: Public Law 104-193, the "Personal Responsibility and Work Opportunity Reconciliation Act of 1996," requires the Office of Child Support Enforcement (OCSE) to develop a Federal Case Registry to improve the ability of State child support agencies to locate noncustodial parents and collect child support across State lines. This Federal Case Registry includes an indicator for Family Violence, meant to ensure a higher level of confidentiality on cases with the indicator. This indicator is provided by the State submitting the case information. OCSE would like to conduct a brief telephone survey to determine the methods used by States to place the indicator, so that the information may be shared with the other States.

Respondents: State, Local or Tribal Government.
