Proposed Agreement Pursuant to 122(g)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act for the MacGillis & Gibbs / Bell Lumber & Pole Site

AGENCY: Environmental Protection
Agency ("EPA").

ACTION: Notice; Request for public
comment.

SUMMARY: In accordance with 122(i)(1) of the Comprehensive Environmental Response, Compensation and Liability Act of 1984, as amended ("CERCLA"), notification is hereby given of a proposed administrative agreement concerning the MacGillis & Gibbs / Bell Lumber & Pole Superfund Site at 440 Fifth Avenue N.W. in New Brighton, Minnesota (the "Site"). EPA proposes to enter into this agreement under the authority of 122(g)(1)(B) of CERCLA. The proposed agreement has been executed by Hypro Corporation ("Hypro").

EPA listed the Site on the National Priorities List in 1984 after initial investigations revealed the presence of hazardous substances, including wastes associated with pentachlorophenol and creosote-based wood treating processes at the Site. EPA selected a final remedy for the Site in 1994, which included a groundwater extraction and treatment phase. Since then, EPA has incurred response costs mitigating an imminent and substantial endangerment to human health or the environment present or threatened by hazardous substances present at or near the Site, including hazardous substances migrating with an aquifer to the east of the Site. Hypro owns real property to the east of the Site and situated above an aquifer contaminated with hazardous substances associated with the Site. Hypro has represented to EPA that it did not generate, treat, store or dispose of any hazardous substances at the Site and did not transport any hazardous substances to the Site, and has not permitted the contamination or contributed to it. Under the proposed agreement, Hypro will grant access to its

real property to the EPA and, upon assignment, the State of Minnesota, for the purpose of installing, operating and maintaining an extraction well cluster and related equipment for use in connection with the groundwater phase remedy at the Site. Hypro waives any claims against the Superfund for reimbursement of costs and for any potential claims under the Constitution for diminution of its property value resulting from the presence of the groundwater extraction equipment. EPA agrees to give Hypro protection from third-party claims under CERCLA for contribution and a covenant not to sue, subject to standard reopeners.

For thirty days following the date of publication of this notice, the Environmental Protection Agency will receive written comments relating to this proposed agreement. EPA will consider all comments received and may decide not to enter this proposed agreement if comments disclose facts or considerations which indicate that the proposed agreement is inappropriate, improper or inadequate.

DATES: Comments on the proposed agreement must be received by EPA on or before March 8, 1999.

ADDRESSES: Comments should be addressed to the Docket Clerk, U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois, 60604-3590, and should refer to: In the Matter of Hypro Corporation, New Brighton, Minnesota, U.S. EPA Docket No. V-W-99-C-524.
