If EPA receives adverse comments, the direct final rule will not take effect and all public comments received will be addressed in a subsequent final rule based on this proposed rule. Quality Implementation Plans;
Colorado; Revisions to Regulation No.
7, Section III, General Requirements for

Organic Compounds**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is taking direct final action to approve a revision to the Colorado State Implementation Plan (SIP) to Regulation No. 7, "Regulation To Control Emissions of Volatile Organic Compounds." The revision to Regulation No. 7 involves the addition of paragraph C to section III, "General Requirements for Storage and Transfer of Volatile Organic Compounds." This new paragraph C exempts beer production and associated beer container storage and transfer operations involving volatile organic compounds with a true vapor pressure of less than 1.5 psia, at actual conditions, from the submerged or bottom-fill requirements of section III. B. In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
