

4293). The document amended the regulations to remove the animal food standards regulations. The document was published with an inadvertent error. This document corrects that error.

EFFECTIVE DATE: February 11, 1999.
FOR FURTHER INFORMATION CONTACT: Silvia R. Fasce, Office of Policy (HF-27), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-2994.

In FR Doc. 99-2057 appearing on page 4293 in the **Federal Register** of Thursday, January 28, 1999, the following correction is made:

On page 4294, in the third column, at the end of the document, "Associate Deputy Commissioner for Policy" is corrected to read "Acting Deputy Commissioner for Policy."

Dated: February 5, 1999.

William K. Hubbard,

Acting Deputy Commissioner for Policy.

POSTAL SERVICE

39 CFR Part 111

Corrections to Location-Based Fee Assignments and Selected Fees for Postage and Insured Mail

AGENCY: Postal Service.

ACTION: Final Rule; Correction.

SUMMARY: This notice makes minor corrections to Final Rules published in 63 FR 71374 and 63 FR 37946.

EFFECTIVE DATE: January 10, 1999.

FOR FURTHER INFORMATION CONTACT: John Dorsey, (202) 268-2255.

SUPPLEMENTARY INFORMATION: On July 14, 1998, the Postal Service published a Final Rule (63 FR 37946) for the rate, fee, and classification changes that resulted from the R97-1 rate filing. That Final Rule contained an error in the denomination for Express Mail postage stamps and an error in the rates for bulk insurance. These errors are corrected in this Final Rule.

On December 28, 1998, the Postal Service published a Final Rule (63 FR 71374) that outlined new location-based post office box fees. That Final Rule contained some slight errors that are corrected in this Final Rule.

List of Subjects in 39 CFR Part 111

Postal Service.

PART 111—[AMENDED]

1. The authority citation for 39 CFR part 111 continues to read as follows:

Authority: 5 U.S.C. 552(a); 39 U.S.C. 101, 401, 403, 414, 3001-3011, 3201-3219, 3403-3406, 3621, 3626, 5001.

2. Revise the following sections of the Domestic Mail Manual as set forth below:

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[CA 164-0112a; FRL-6227-2]

Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision; San Joaquin Valley Unified Air Pollution Control District, Sacramento Metropolitan Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve revisions to the California State Implementation Plan (SIP). The revisions concern rules from the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) and the Sacramento Metropolitan Air Quality Management District (SMAQMD). SJVUAPCD's Rule 4352 controls oxides of nitrogen (NO_x) emissions from solid fuel fired boilers, steam generators and process heaters. SMAQMD's Rule 413 control NO_x emissions from stationary gas turbines operations. This action will incorporate these rules into the Federally approved SIP.

The intended effect of approving these rules is to regulate emissions of NO_x in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). EPA is finalizing the approval of these revisions into the California SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards and plan requirements for nonattainment areas.

DATES: This rule is effective on April 12, 1999 without further notice, unless EPA receives adverse comments by March 15, 1999. If EPA receives such comments, then it will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.

ADDRESSES: Written comments must be submitted to Andrew Steckel at the Region IX office listed below. Copies of the rules and EPA's evaluation report of each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of

the submitted rules are also available for inspection at the following locations:

Rulemaking Office (AIR-4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

Environmental Protection Agency, Air Docket (6102), 401 "M" Street, S.W., Washington, D.C. 20460.

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 2020 "L" Street, Sacramento, CA 95814.

San Joaquin Valley Unified Air Pollution Control District, 1999 Tuolumne Street, Suite 200, Fresno, CA 93721.

Sacramento Metropolitan Air Quality Management District, 8411 Jackson Road, Sacramento, CA 95826.

FOR FURTHER INFORMATION CONTACT:

Max. A. Fantillo Jr, Rulemaking Office (AIR-4), Air Division, U.S.

Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901, Telephone: (415) 744-1183.

SUPPLEMENTARY INFORMATION:

I. Applicability

The rules being approved into the California SIP include: SJVUAPCD's Rule 4352, Solid Fuel Fired Boilers, Steam Generators and Process Heaters, and SMAQMD's Rule 413, Stationary Gas Turbines. The SJVUAPCD rule was submitted by the California Air Resources Board (CARB) to EPA on March 26, 1996 and the SMAQMD rule was submitted on May 18, 1998.

II. Background

On November 15, 1990, the Clean Air Act Amendments of 1990 (CAA or the Act) were enacted. Pub. L. 101-549, 104 Stat. 2399, codified at 42 U.S.C. 7401-7671q. The air quality planning requirements for the reduction of NO_x emissions through reasonably available control technology (RACT) are set out in section 182(f) of the CAA. On November 25, 1992, EPA published a proposed rule entitled "State Implementation Plans; Nitrogen Oxides Supplement to the General Preamble; Clean Air Act Amendments of 1990 Implementation of Title I; Proposed Rule," (the NO_x Supplement) which describes and provides guidance on the requirements of section 182(f). The November 25, 1992 proposed rule should be referred to for further information on the NO_x requirements and is incorporated into this document by reference.

Section 182(f) of the Clean Air Act requires States to apply the same requirements to major stationary sources of NO_x ("major" as defined in section 302 and section 182(c), (d), and (e)) as are applied to major stationary sources of volatile organic compounds (VOCs), in moderate or above ozone

nonattainment areas. The San Joaquin Valley Area is classified as serious; the Sacramento Metro Area is classified as severe;¹ therefore these areas were subject to the RACT requirements of section 182(b)(2), cited below and the November 15, 1992 deadline.

Section 182(b)(2) requires submittal of RACT rules for major stationary sources of VOC emissions (not covered by a pre-enactment control techniques guidelines (CTG) document or a post-enactment CTG document) by November 15, 1992. There were no NO_x CTGs issued before enactment and EPA has not issued a CTG document for any NO_x sources since enactment of the CAA. The RACT rules covering NO_x sources and submitted as SIP revisions, are expected to require final installation of the actual NO_x controls as expeditiously as practicable, but not later than May 31, 1995.

The State of California submitted many revised RACT rules for incorporation into its SIP on March 26, 1996 and May 18, 1998, including the rules being acted on in this document. This document addresses EPA's direct-final action for SJVUAPCD Rule 4352, Solid Fuel Fired Boilers, Steam Generators and Process Heaters, and SMAQMD Rule 413, Stationary Gas Turbines. SJVUAPCD adopted Rule 4352 on October 19, 1995 and SMAQMD adopted Rule 413 on May 1, 1997. These submitted rules were found to be complete on May 5, 1996 and July 17, 1998 pursuant to EPA's completeness criteria that are set forth in 40 CFR Part 51 Appendix V² and are being finalized for approval into the SIP. By today's document, EPA is taking direct final action to approve these rules into the Federally approved SIP.

NO_x emissions contribute to the production of ground level ozone and smog. SJVUAPCD's Rule 4352 controls emissions of NO_x from solid fuel fired boilers, steam generators and process heaters and SMAQMD's 413 controls emissions of NO_x from stationary gas turbine operations. The rules were adopted as part of SJVUAPCD's and SMAQMD's efforts to achieve the National Ambient Air Quality Standards (NAAQS) for ozone and in response to the CAA requirements cited above. The

¹ San Joaquin Valley Area retained its designation of nonattainment and was classified by operation of law pursuant to sections 107(d) and 181(a) upon the date of enactment of the CAA. See 55 FR 56694 (November 6, 1991). The Sacramento Metro Area was reclassified from serious to severe on June 1, 1995. See 60 FR 20237 (April 25, 1995).

² EPA adopted the completeness criteria on February 16, 1990 (55 FR 5830) and, pursuant to section 110(k)(1)(A) of the CAA, revised the criteria on August 26, 1991 (56 FR 42216).
