

C. Public reporting burden for this collection is estimated to average approximately 45 minutes per interview (Form EIA-871A) and about 30 minutes per energy supplier response in those cases where the data must be collected from the energy suppliers (Forms EIA-871C-F). The estimated burden includes the total time, effort or financial resources expended to generate, maintain, retain, or disclose or provide the information.

Please comment on (1) the accuracy of the agency's estimate, and (2) how the agency could minimize the burden of collecting this information, including the use of information technology.

D. The agency estimates respondents will incur no additional costs for reporting other than the hours required to complete the collection. What is the estimated: (1) total dollar amount annualized for capital and start-up costs, and (2) recurring annual costs of operation and maintenance, and purchase of services associated with this data collection?

E. Does any other Federal, State or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

As a Potential User

A. Is the information useful at the levels of detail indicated on the form?

B. For what purpose(s) would the information be used? Be specific.

C. Are there alternate sources for the information and are they useful? If so, what are their deficiencies and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.
