SUPPLEMENTARY INFORMATION:

Background

Construction and development of the Project was authorized pursuant to the Act of February 9, 1905, ch. 567, 33 Stat. 714, which is part of the Reclamation Act of 1902, 43 U.S.C. 372 *et seq.*, as amended and supplemented. The Project is located in Klamath County in Oregon, and Siskiyou and Modoc counties in California, occupying portions of the Klamath River and Lost River watersheds within the Klamath River Basin. Major project facilities include Link River, Clear Lake, and Gerber dams. The Project includes approximately 235,000 acres of agricultural lands, although roughly 200,000 acres of land are irrigated annually. In addition, four national wildlife refuges lie adjacent to or within Project boundaries, and receive water from or are associated with Project facilities. Pursuant to a 1956 contract with Reclamation, PacifiCorp operates the Link River Dam and several dams downstream of the Project for hydroelectric power generation. The need for more certainty regarding project operations has been recently demonstrated by drought conditions in 1992 and 1994, listings of species under the Endangered Species Act, and the protection of Tribal trust resources pursuant to the United States' Federal trust responsibility. When completed, the interim plan for long-term operations will supersede annual operations plans and guide Project operations during the adjudication.

Public Scoping Process

Reclamation has developed a "Summary of Klamath Project Operation Issues, January 1999," which documents the issues and concerns that the public has communicated to Reclamation through prior public involvement activities in the Klamath River Basin. During February 1999, Reclamation will solicit public review and comments on the summary to ensure that significant issues have not been overlooked.

Dated: February 5, 1999.

Kirk C. Rodgers,

Acting Regional Director.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Privacy Act of 1974, as Amended; Systems of Records

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of deletion of four systems of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, as amended (5 U.S.C. 552a), notice is hereby given that the Department of the Interior is deleting four systems of records managed by the Bureau of Reclamation (Reclamation). Three systems of records are deleted because the information is no longer used by Reclamation; the fourth system is deleted because it duplicates information in another system of records.

DATES: These actions will be effective on February 11, 1999.

FOR FURTHER INFORMATION CONTACT: Mr. Casey Snyder, Reclamation Privacy Act Officer, at (303) 445-2048.

SUPPLEMENTARY INFORMATION: Recent Privacy Act Compilations list the following systems of records with a prefix of "Reclamation" (e.g., Reclamation-25). When originally published in the **Federal Register** these systems of records were identified with an organization prefix of "LBR" (e.g., LBR-34). The content of the systems of records is the same; the prefixes on these systems were changed to reflect organizational changes.

The four system of records being deleted and the reason for deletion are listed below:

1. Interior/LBR-25, "Personal Author Reports," previously published in the **Federal Register** on April 11, 1977 (42 FR 19102). Reclamation no longer maintains any information covered by the Privacy Act on authors writing technical reports of interest to Reclamation. Previous records were disposed of in accordance with approved Retention and Disposal Schedules.

2. Interior/LBR-34, "Thefts Listing," previously published in the **Federal Register** on April 11, 1977 (42 FR 19105). Reclamation no longer maintains information in this system of records. The General Services Administration (GSA) is responsible for law enforcement on the Denver Federal Center, and any Privacy Act information collected during an investigation is maintained by GSA.

3. Interior/LBR-42, "Recordable Contracts," previously published in the **Federal Register** on April 11, 1977 (42

FR 19108). The records formerly contained in this system of records are now maintained in Interior/WBR-31, "Acreage Limitation," published in the **Federal Register** on March 9, 1994 (59 FR 11085).

4. Interior/LBR-46, "Employee Trip Reports," previously published in the **Federal Register** on April 11, 1977 (42 FR 19109). Trip reports written by Reclamation personnel contain only technical information related to duties performed on travel; they do not contain any information covered by the Privacy Act.

BILLING CODE 6116-01-M

manufacturer of methylphenidate is in the public interest, the Chiragene's registration is not required to produce an adequate and uninterrupted supply of methylphenidate, that there is sufficient competition with the present bulk manufacturers and that there would be a public interest impact on reported trends of over-prescribing, abuse and diversion of methylphenidate.

The arguments of the objector were considered, however, DEA has reviewed the firm's safeguards to prevent the theft and diversion of methylphenidate and found that the firm has met the regulatory requirements and public interest factors of the Controlled Substances Act (CSA).

Chiragene has been investigated by DEA to determine if the firm maintains effective controls against diversion which included, in part, inspection and testing of the firm's physical security, verification of compliance with State and local law and a review of the firm's background. The investigation has found Chiragene to be in compliance with the CSA and its implementing regulations.

Under Title 21, Code of Federal Regulations, Section 1301.33(b), DEA is not required to limit the number of manufacturers solely because a smaller number is capable of producing an adequate supply provided effective controls against diversion are maintained. DEA has determined that effective controls against diversion will be maintained by Chiragene.

After reviewing all the evidence, DEA has determined, pursuant to 21 U.S.C., Section 823(a), that it is consistent with the public interest to grant Chiragene's application to manufacture methylphenidate and the other listed controlled substances at this time. Therefore, pursuant to 21 U.S.C., Section 823 and 28 CFR 0.100 and 0.104, the Deputy Assistant Administrator, Office Of Diversion Control, hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic classes of controlled substances listed above is granted.

Dated: January 25, 1999.

John H. King,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Registration

By Notice dated June 10, 1998, and published in the **Federal Register** on July 9, 1998, (63 FR 37137), Chiragene, Inc., 7 Powder Horn Drive, Warren, New Jersey 07509, made application to the Drug Enforcement Administration (DEA) to be registered as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug	Schedule
N-Ethylamphetamine (1475)	I
2,5-Dimethoxyamphetamine (7396).	I
3,4-Methylenedioxyamphetamine (7400).	I
4-Methoxyamphetamine (7411) ..	I
Amphetamine (1100)	II
Methylphenidate (1724)	II

The firm plans to manufacture the listed controlled substances to supply their customers.

A registered bulk manufacturer of methylphenidate filed written comments and an objection in response to the notice of application. Review of the Administrative Procedures Act's (APA) definitions of license and licensing reveals that the granting or denial of a manufacturer's registration is a licensing action, not a rulemaking. Courts have frequently distinguished between agency licensing actions and rulemaking proceedings. See, e.g., *Gateway Transp. Co. v. United States*, 173 F. Supp. 822, 828 (D.C. Wis. 1959); *Underwater Exotics, Ltd. v. Secretary of the Interior*, 1994 U.S. Dist LEXIS 2262 (1994). Courts have interpreted agency action relating to licensing as not falling within the APA's rulemaking provisions.

The objector argues that Chiragene cannot prove its registration as a bulk
