Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Substance Abuse Prevention and Treatment Block Grant Application Format—FY 2000-02 (OMB No. 0930-0080, Revision)—The Public Health Service Act (42 U.S.C. 300x 21-35 & 51-64) authorizes block grants to States for the purpose of providing substance abuse prevention and treatment services. Under the provisions of the law, States may receive allotments only after an application is submitted and approved by the Secretary, DHHS. For the FY 2000 Substance Abuse Prevention and Treatment (SAPT) Block Grant cycle, SAMHSA will provide States with modified application forms and instructions. These changes affect several areas of the application and add new sections to accommodate voluntary State reporting of treatment and prevention outcome information. The portion of the application that asks for information related to section 1926 (sales of tobacco to minors) will combine questions related to enforcement of laws related to youth access to tobacco and provide clarifying information and additional instructions
