SUPPLEMENTARY INFORMATION:

Background

In response to a request by Canberra Industries, Inc., (Canberra) that the Department conduct a changed circumstances administrative review to determine whether to revoke in part the order with regard to certain cobalt-60-free cut-to-length carbon steel plate, on December 4, 1998, the petitioners informed the Department in writing that they did not object to the changed circumstances review and had no interest in the importation or sale of cobalt-60-free cut-to-length carbon steel plate produced in Canada as described in the "Scope of Review" section below. The Department has previously revoked from the order a similar cobalt-60-free cut-to-length carbon steel plate product, also per Canberra's request. See, *Certain Cut-to-Length Carbon Steel Plate From Canada: Final Results of Changed Circumstances Antidumping Duty Administrative Review, and Revocation in Part of Antidumping Duty Order* 61 FR 7471 (Feb. 28, 1996).

We preliminarily determined that petitioners' affirmative statement of no interest constitutes good cause for conducting a changed circumstances review and for partially revoking the order. Consequently, on January 6, 1999, the Department published a notice of initiation, preliminary results of review, and intent to revoke order in part (64 FR 846). This determination did not affect the order with regard to other cut-to-length carbon steel plate. We gave interested parties an opportunity to comment on the preliminary results of this changed circumstances review. We received no comments.

Scope of Review

The merchandise covered by this changed circumstance review includes cut-to-length carbon steel plate meeting the following criteria: (1) 100% dry steel

plates, virgin steel, no scrap content (free of cobalt-60 and other radioactive nuclides); (2) .300 inches maximum thickness, plus 0.0, minus .030 inches; (3) 48.00 inches wide, minimum; (4) 20 foot lengths; (5) flatness, plus/minus 0.5 inches over 10 feet; (6) AISI 1006; (7) tension leveled; (8) pickled and oiled; and (9) carbon content, .03 to .08 (max). This merchandise is currently classified under subheading HTS 7208.52.0000. HTS numbers are provided for convenience and customs purposes. The written description of the scope of this review remains dispositive.

This changed circumstances administrative review covers all manufacturers/exporters of cobalt-60-free cut-to-length carbon steel plate from Canada.

Final Results of Review; Partial Revocation of Antidumping Duty Order

The petitioners' affirmative statement of no interest in this case constitutes changed circumstances sufficient to warrant partial revocation of this order. See 782(h) of the Act; 19 CFR 351.222(g)(1)(i). Therefore, the Department is partially revoking this order on certain cobalt-60-free cut-to-length carbon steel plate from Canada, described above, in accordance with section 751(b)(1) of the Act.

The Department will, in accordance with 19 CFR 351.222(g)(4), instruct the U.S. Customs Service to proceed with liquidation, without regard to antidumping duties, of all unliquidated entries of cobalt-60-free cut-to-length carbon steel plate from Canada with the specifications described above not subject to final results of an administrative review, and to refund with interest any estimated antidumping duties collected with respect to such entries.

This changed circumstances administrative review, partial revocation of the antidumping duty order, and notice are in accordance with sections 751(b)(1) and 782(h) of the Act and sections 351.216, 351.221(c)(3), and 351.222(g) of the Department's regulations.
