NUCLEAR REGULATORY COMMISSION

[Docket No. 50-313]

Entergy Operations Inc.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Entergy Operations, Inc. (the licensee) to withdraw its April 29, 1996, application for proposed amendment to Facility

Operating License No. DPR-51 for Arkansas Nuclear One, Unit No. 1, located in Pope County, Arkansas.

The proposed amendment would have revised the minimum conditions for criticality associated with pressurizer water level. The amendment would have also revised various Technical Specification Bases sections, including revising the acceptable as-found tolerance value for the pressurizer safety valves pressure setting and changing the value for flowrate through the pressurizer safety valves.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on August 14, 1996 (61 FR 42279). However, by letter dated January 29, 1999, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated April 29, 1996, and the licensee's letter dated January 29, 1999, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Tomlinson Library, Arkansas Tech University, Russellville, AR 72801.

Dated at Rockville, Maryland, this 9th day of February 1999.

For the Nuclear Regulatory Commission,
Nicholas D. Hilton,
