

Code of Ethical Angling and asked NMFS to simultaneously address corrective habitat matters with sportfishing regulations.

Response: The Sustainable Fisheries Act of 1996 requires the identification of essential fish habitat in federal fishery management plans.

The following Code of Angling Ethics has been adopted by NMFS:

THE CODE OF ANGLING ETHICS

1. Promotes, through education and practice, ethical behavior in the use of aquatic resources.
2. Values and respects the aquatic environment and all living things in it.
3. Avoids spilling, and never dumps, any pollutants, such as gasoline and oil, into the aquatic environment.
4. Disposes of all trash, including worn-out lines, leaders, and hooks, in appropriate containers, and helps to keep fishing sites litter-free.
5. Takes all precautionary measures necessary to prevent the spread of exotic plants and animals, including live baitfish, into non-native habitats.
6. Learns and obeys angling and boating regulations, and treats other anglers, boaters, and property owners with courtesy and respect.
7. Respects property rights, and never trespasses on private lands or waters.
8. Keeps no more fish than needed for consumption, and never wastefully discards fish that are retained.
9. Practices conservation by carefully handling and releasing alive all fish that are unwanted or prohibited by regulation, as well as other animals that may become hooked or entangled accidentally.
10. Uses tackle and techniques which minimize harm to fish when engaging in "catch and release" angling.
