FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.

Title: Section 95.833, Construction Requirements.

Form Number: N/A.

Type of Review: New collection.

Respondents: Businesses or other for-profit entities; Individuals or households.

Number of Respondents: 900.

Estimated Time per Response: 1 hour.

Frequency of Response:

Recordkeeping; On occasion reporting requirements within 5 and 10 years of license grant; Third party disclosure.

Total Annual Burden: 900 hours.

Total Annual Costs: \$0.

Needs and Uses: The requirement contained in Section 95.833 is necessary for 218-219 MHz service system licensees to file a report within five and ten years of license grant to demonstrate that they provide substantial service to its service areas. This collection, which is currently in the rules, has been waived by an Order released on January 14, 1998, (DA 98-59), for all licensees pending resolution of the construction requirement by the current Notice of

Proposed Rulemaking, WT Docket No. 98-169, FCC 98-228. No collection has been made. The NPRM proposes to reduce the regulatory burden on licensees by extending the filing of a report from three years to five years. The information is used by the Commission staff to assess compliance with 218-219 MHz Service construction requirements, and to provide adequate spectrum for the service. This will facilitate spectrum efficiency and competition by the 218-219 MHz Service licensees in the wireless marketplace. Without this information, the FCC would not be able to carry out its statutory responsibilities.
