

coolers, clamps/fasteners, covers, compressors, torque converters, spark plugs, gauges, electrical components, thermostats, gears, oil filters, belts, hoses, seals and plastic molded parts (duty rate range: 0.7—9.4%).

FTZ procedures would exempt CDC from Customs duty payments on the foreign components used in export production. On its domestic sales, the company would be able to choose the duty rate that applies to finished internal-combustion engines (free, 2.5%) for the foreign inputs noted above. The application indicates that subzone status would help improve the facilities' international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties.

Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 23, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 10, 1999).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:
