Foreign-Trade Zones Board

[Docket 6-99]

Foreign-Trade Zone 214—Kinston, NC; Application for Subzone Status: Consolidated Diesel Company Facilities, (Spark Ignition, Diesel Engines), Nash County, NC

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the North Carolina Global TransPark Authority, grantee of FTZ 214, requesting special-purpose subzone status for the spark ignition and diesel engine manufacturing facilities of Consolidated Diesel Company (Inc.) (CDC) (a Cummins Engine Company/Case Corporation joint venture), located in Nash County, North Carolina. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on February 10, 1999.

The proposed subzone would consist of three sites in the Nash County area: Site 1—CDC manufacturing plant (265 acres/1.1 million sq.ft.), located at 9377 U.S. Highway 301 North in Whitakers, North Carolina, some 60 miles northeast of Raleigh; Site 2—CDC Training Center and warehouse (10 acres/40,000 sq.ft.), located directly across U.S. 301 from Site 1; and, Site 3—Leased 100,000 sq.ft. warehouse, located at E.B. Grain Co., 204 Hathaway Court, Battleboro, North Carolina, about 2½ miles south of Site 1. The facilities are used to produce diesel, liquid propane and natural gas internal-combustion engines (ranging from 50 to 400 horsepower) used in marine, agricultural, automotive, industrial and commercial applications, for export and the domestic market. The production process involves assembly, testing, and warehousing. Components purchased from abroad (about 51% of total) include: actuators, adapters, crankcases (blocks), cylinder heads, intake/exhaust manifolds, connecting rods, piston sets and rings, crankshafts, rocker arms, camshafts, intake/exhaust/turbo valves, bushings, bearings, housings, flywheels, pulleys, starters, barrels, gaskets, circuit boards, cylinders, parts of turbochargers, timing chains, water pumps, wiring harnesses, catalytic converters, controllers, oil

coolers, clamps/fasteners, covers, compressors, torque converters, spark plugs, gauges, electrical components, thermostats, gears, oil filters, belts, hoses, seals and plastic molded parts (duty rate range: 0.7—9.4%).

FTZ procedures would exempt CDC from Customs duty payments on the foreign components used in export production. On its domestic sales, the company would be able to choose the duty rate that applies to finished internal-combustion engines (free, 2.5%) for the foreign inputs noted above. The application indicates that subzone status would help improve the facilities' international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties.

Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 23, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 10, 1999).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

- Office of the Port Director, U.S. Customs Service—Raleigh/Durham, 120 South Center Court, Morrisville, NC 27560
- Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th Street & Pennsylvania Avenue, NW, Washington, DC 20230-0002

Dated: January 10, 1999.

Dennis Puccinelli,

Acting Executive Secretary.
