

More than 300 copies of the draft GMP/EIS were mailed to government agencies, organizations and interested individuals in January 1998. In addition, the document was posted on the Internet and mailed to local libraries in Cave Junction, Grants Pass, and Portland, OR. The EPA Notice of Availability was published in the **Federal Register** on January 16, 1998 (vol. 63, no. 11, pg. 2676). A Notice of Availability was also published by NPS on January 15 (vol. 63, no. 10, pg. 2412). A second newsletter was prepared that included a summary of the draft plan and information on scheduled public workshops. Each newsletter included a postage-paid response form for people to use in submitting comments if desired. Approximately 3,500 newsletters were inserted into the *Illinois Valley News* on January 14, and another 1,000 were made available to visitors at the IVVC and the Chateau. In addition, newspapers in Grants Pass and Cave Junction published the notices and local radio stations announced locations and times for the public workshops.

Four public workshops were held in Cave Junction and Grants Pass on February 9 and 10, 1998. The purpose of the workshops was to offer the public an opportunity to meet with the NPS planning staff and discuss the draft GMP/EIS. A total of 111 people attended the workshops.

The final GMP/EIS was released to the public on November 10, 1998. The EPA Notice of Availability of the final GMP/EIS was published in the **Federal Register** on November 20, 1998 (vol. 63, no. 224, pg. 64473); the NPS also published a Notice of Availability in the **Federal Register**. The final document included a summary of the comments received at the public workshops and a summary of the comments received from written responses.

Consultation with the U.S. Fish and Wildlife Service (USFWS) on Section 7 of the Endangered Species Act was undertaken to identify listed plant and animal species that may occur within the Oregon Caves National Monument. In addition, a copy of the draft plan was sent to the USFWS for concurrence that the broad-scale elements of the proposed action would not adversely affect any listed species known or suspected to be in the planning area.

Consultation also occurred with the Oregon State Historic Preservation Office and the Advisory Council on Historic Preservation. A copy of the plan was sent to each of these offices to initiate and plan for coordination of survey, eligibility, effect, and mitigation of cultural resources in the Monument area.

During the comment period, 982 letters were received from government agencies, businesses, special interest groups and individuals. Of these, 735 were individually written letters, individually signed form letters and postcards, 132 E-mail responses through the Internet, and 115 response forms from the newsletter. In addition, a petition with 102 signatures was received. Written responses were prepared for more than 69 substantive questions and/or comments requiring clarification of information contained in the draft plan, changes to the text, or direct responses.
