DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC99-510-000, FERC-510]

Proposed Information Collection and Request for Comments

February 18, 1999.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of proposed information collection and request for comments.

SUMMARY: In compliance with the requirements of Section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

DATES: Consideration will be given to comments submitted within 60 days of the publication of this notice.

ADDRESSES: Copies of the proposed collection of information can be obtained from and written comments may be submitted to the Federal Energy

Regulatory Commission, Attn: Michael Miller, Office of the Chief Information Officer, CI-1, 888 First Street, NE, Washington, DC 20426.

FOR FURTHER INFORMATION CONTACT:

Michael Miller may be reached by telephone at (202) 208-1415, by fax at (202) 208-2425, and by e-mail at mike.miller@ferc.fed.us.

SUPPLEMENTARY INFORMATION:

Abstract: The information collected under the requirements of FERC-510 "Application for the Surrender of a Hydropower License" (OMB No. 1902-0068) is used by the Commission to implement the statutory provisions of Part 1, Sections 4(e), 6 and 13 of the Federal Power Act, 16 U.S.C. 797(e), 799 and 806. Section 4(e) gives the Commission the authority to issue licenses for the purpose of constructing, operating and maintaining dams, water conduits, reservoirs, powerhouses, transmission lines or other project works necessary or convenient for developing and improving navigation, transmission and utilization of power over which Congress has jurisdiction. Section 6 gives the Commission the authority to prescribe the conditions of the licenses including the revocation and/or surrender of the license. Section 13 defines the Commission's authority to delegate time periods for when a license must be terminated if project construction has not begun. Surrender of a license may be desired by a licensee when a licensed project is retired or not constructed. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Sections 6.1 through 6.4.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1) x (2) x (3)
8	1	10	80

As the Commission's initiative is to bring more competition to the natural gas and electric markets, the resulting competitive forces have changed the economics and overall conditions under which hydropower projects are developed and operated. This has resulted in a significant decline in the number of operating projects. However, for the next three years, the Commission anticipates only a gradual decrease in

the number of projects that are surrendered.

Estimated cost burden to respondents: 80 hours/2,080 hours per year x \$109,889 per year = \$4,228. The cost per respondent is equal to \$529.00.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions;

(2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and
