

Title: 12 CFR 701.22. Organization and Operation of Credit Unions.

Description: NCUA has authorized federal credit unions to engage in loan participations, provided they establish written policies and enter into a written loan participation agreement. NCUA believes written policies are necessary to ensure a plan is fully considered before being adopted by the Board.

Respondents: All Federal Credit Unions.

Estimated No. of Respondents/Recordkeepers: 1,000.

Estimated Burden Hours Per Response: 4 hours.

Frequency of Response: On occasion.

Estimated Total Annual Burden Hours: 4,000.

Estimated Total Annual Cost: \$100,000.

By the National Credit Union Administration Board on February 18, 1999.

Becky Baker,

Secretary of the Board.

NEIGHBORHOOD REINVESTMENT CORPORATION

Sunshine Act Meeting

TIME AND DATE: 2:00 P.M., Wednesday, March 3, 1999.

PLACE: Neighborhood Reinvestment Corporation, 1325 G Street, NW, Suite 800, Board Room, Washington, DC 20005.

STATUS: Open.

CONTACT PERSON FOR MORE INFORMATION: Jeffrey T. Bryson, General Counsel/Secretary, 202/376-2441.

AGENDA:

- I. Call to Order
- II. Approval of Minutes: December 7, 1998 Regular Meeting
- III. Home-Ownership Oversight Special Committee Report: January 12, 1999
- IV. Budget Committee Report: January 25, 1999
- V. Audit Committee Report: February 25, 1999
- VI. Treasurer's Report
- VII. Executive Director's Quarterly Management Report
- VIII. Adjourn

Jeffrey T. Bryson,

General Counsel/Secretary.

BILLING CODE 7570-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-05798, License No. 34-10445-01]

Environmental Assessment, Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental Assessment and Finding of No Significant Impact Related to Release of Parts of the Shelwell Services, Inc. Site for Unrestricted Use.

The U.S. Nuclear Regulatory Commission (NRC) is considering approving the release of parts of the Shelwell Services, Inc. (hereafter known as Shelwell) site for unrestricted use, in connection with Shelwell's request to terminate byproduct material license No. 34-10445-01. This environmental assessment has been prepared with respect to that approval.

Introduction

Shelwell, located at 645 Main Street, Hebron, Ohio, is licensed to use sealed sources and unsealed radioactive material in well logging and tracer studies of oil and gas wells. In September 1983, the licensee accidentally drilled into a 2-curie, cesium-137 sealed source, which caused the spread of radioactive contamination. The site was substantially decontaminated following the 1983 incident. The licensee has recently completed additional decontamination, and reported that the site will be ready for release for unrestricted use when some sealed sources and a small amount of containerized radioactive waste are removed from the site.

The NRC staff will approve termination of the Shelwell license, if the staff determines that the site has been adequately decontaminated, and the site is suitable for release for unrestricted use in accordance with 10 CFR 30.36, 10 CFR Part 20, Subpart E, and other applicable requirements. If the staff determines that portions of the site have been adequately decontaminated, but the stored sealed sources and waste have not been removed from the site, then the license may be amended to release the decontaminated portions of the site for unrestricted use, and a decision made on termination at a later date, when the stored sources and waste have been removed from the site.

Proposed Action

The proposed action is the release of Building No. 2, the office trailer, and all

outdoor areas of the Shelwell site for unrestricted use. The licensee has reported that Building No. 2, the office trailer, and all outdoor areas are adequately decontaminated and do not contain any stored sealed sources or waste. Building No. 1 still contains stored sealed sources and waste, so this building is not being considered as part of this proposed action.

The Need for Proposed Action

The licensee seeks to release property for unrestricted use. This action is requested in order to remove the current limitations on the future use of the property.

Alternatives to Proposed Action

The only alternative to the proposed action is to not release the buildings and all outdoor areas for unrestricted use and keep these areas under license. Maintaining a license for Building No. 2, and the office trailer, and outdoor areas would provide negligible, if any, environmental benefit, but would significantly reduce options for future use of the property.

Environmental Impacts of the Proposed Action

Radioactive contamination at the Shelwell site is in the form of cesium-137 in the buildings and outdoor areas. NRC staff has performed inspections to assess the levels of contamination, and has evaluated whether the levels of contamination are sufficiently low to meet NRC criteria for unrestricted use; that is, 10 CFR 20.1402, which specifies that residual radioactivity must be reduced so that potential doses to exposed persons do not exceed 25 millirems per year (0.25 millisieverts per year). The staff has determined that potential doses are below 25 millirems per year. The low levels of contamination fall within the scope of the Generic Environmental Impact Statement prepared in connection with 10 CFR 20.1402. Therefore, the staff concludes that the potential radiological impact of release of Building No. 2, the office trailer, and outdoor areas at the Shelwell site is insignificant.

There are no environmental justice issues associated with the proposed action, because the levels of radioactive contamination at the site are very low, and there are no significant impacts associated with the proposed action.

Other Agencies or Persons Consulted

No agencies or persons outside of NRC were consulted during the preparation of this environmental assessment.

Conclusions

Shelwell has met NRC's unrestricted release criteria, and there is no significant impact on the environment from the proposed action; therefore, Building No. 2, the office trailer, and outdoor areas of the Shelwell site can be released for unrestricted use.

Finding of No Significant Impact

On the basis of this environmental assessment, the Commission has concluded that this proposed action would not significantly affect the quality of the human environment, and does not warrant the preparation of an environmental impact statement for the proposed action. Accordingly, it has been determined that a Finding of No Significant Impact is appropriate.

The NRC inspection reports and other documents related to this proposed action are available for public inspection and copying for a fee at the NRC Region III Office, 801 Warrentonville Road, Lisle, IL 60532-4351.

Dated at Rockville, Maryland, this 18th day of February, 1999.

For the U.S. Nuclear Regulatory Commission.

John W. N. Hickey,

Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on March 9, 1999, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c) (2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and information the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows:

Tuesday, March 9, 1999—1:00 p.m. until the conclusion of business.

The Subcommittee will discuss proposed ACRS activities and related matters. It may also discuss the status of appointment of a new member to the ACRS. The purpose of this meeting is to

gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff person named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by contacting the cognizant ACRS staff person, Dr. John T. Larkins (telephone: 301/415-7360) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: February 18, 1999.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

NUCLEAR REGULATORY COMMISSION

Sunshine Act Meeting Notice

DATE: Weeks of February 22, March 1, 8, and 15, 1999.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of February 22

There are no meetings scheduled for the Week of February 22.

Week of March 1—Tentative

Tuesday, March 2

9:30 a.m. Meeting with Commonwealth Edison (Public Meeting)

11:30 a.m. Affirmation Session (Public Meeting) (If needed)

2:00 p.m. Briefing on Status of 10 CFR 50.59 Issues

Wednesday, March 3

9:00 a.m. Briefing by Executive Branch (Closed—Ex. 1)

Week of March 8—Tentative

Wednesday, March 10

11:00 a.m. Affirmation Session (Public Meeting) (If needed)

Week of March 15—Tentative

Tuesday, March 16

1:00 p.m. Briefing on Status of DOE High Level Waste Viability Assessment (Public Meeting)

Wednesday, March 17

9:00 a.m. Meeting with Advisory Committee on Nuclear Waste and Nuclear Waste Technical Review Board (Public Meeting)

11:30 a.m. Affirmation Session (Public Meeting) (If needed)

1:30 p.m. Briefing on Part 50 Decommissioning Issues

*The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (recording)—(301) 415-1292. Contact person for more information. Bill Hill (301) 415-1661.
