Title: Plan for Estimating Daily Livestock Slaughter Under Federal Inspection.

OMB Number: 0581-0050.

Expiration Date of Approval: 05-31-99.

Type of Request: Extension of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621, *et seq*) directs and authorizes the collection and dissemination of marketing information including adequate outlook information, on a market area basis, for

the purpose of anticipating and meeting consumer requirements aiding in the maintenance of farm income and to bring about a balance between production and utilization.

Under this market news program, USDA issues a market news report estimating daily livestock slaughter under federal inspection. This report is compiled on a voluntary basis, in cooperation with the livestock and meat industry. The information provided by respondents initiates market news reporting, which must be timely, accurate, unbiased, and continuous if it is to be useful to the industry. The daily livestock slaughter estimates are provided at the request of industry and are used to make production and marketing decisions.

The Daily Estimated Livestock Slaughter Under Federal Inspection Report is used by a wide range of industry contacts, including packers, processors, producers, brokers, and retailers of meat and meat products. The livestock and meat industry requested that USDA issue slaughter estimates (daily and weekly), by species, for cattle, calves, hogs, and sheep in order to assist them in making immediate production and marketing decisions and as a guide to the volume of meat in the marketing channel. The information requested from respondents includes their estimation of the current day's slaughter at their plant(s) and the actual slaughter for the previous day.

The industry uses the slaughter information for assistance in making marketing and production decisions. Also, since the Government is a large purchaser of meat, the reporting and use of this data is helpful.

Respondents: Business or other for-profit, individuals or households, farms, Federal Government.

Estimated Number of Respondents: 82.
