COMMISSION**

[Inv. No. 337-TA-411]

**Certain Organic Photoconductor  
Drums and Products Containing the  
Same; Notice of Commission  
Determination to Review an Initial  
Determination Terminating the  
Investigation Based on Withdrawal of  
the Complaint****AGENCY:** U.S. International Trade  
Commission.**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined to review the initial determination (ID) of the presiding administrative law judge (ALJ) terminating the above-captioned investigation on the basis of complainants' withdrawal of their complaint. The review concerns the consistency of the ALJ's termination of the investigation with Commission policy regarding termination of investigations "with prejudice." The Commission intends to complete its review expeditiously.

In addition, since respondents' motion for monetary sanctions remains under consideration by the ALJ, the Commission has deferred ruling on any issues concerning sanctions, including the matter of whether the determination of sanctionable conduct made in ALJ Order No. 11 should be treated as concurrently filed with the ID terminating the investigation under 19 CFR 210.25(d). Therefore, the Commission has determined to waive any requirement for publication at this time of a schedule that may be applicable for filing and responding to a petition for review of ALJ Order No. 11.

**FOR FURTHER INFORMATION CONTACT:** Jean Jackson, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-205-3104.

**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on June 4, 1998, based on a complaint filed by Mitsubishi Chemical Corporation of Japan and Mitsubishi Chemical Corporation America of White Plains, New York (collectively, Mitsubishi). 58 FR 30513. Twelve firms were named as respondents.

On December 4, 1998, Mitsubishi filed an unopposed motion to terminate the investigation based on withdrawal of its complaint with prejudice. By that date, only respondents Dainippon Ink and Chemicals of Japan and DIC Trading (USA) of Fort Lee, New Jersey

(collectively, DIC) remained in the investigation. Some of the respondents had been terminated based on consent order agreements with Mitsubishi or had had the complaint withdrawn as to them. Others had entered into agreements with Mitsubishi to be terminated from the investigation that had not yet been acted upon by the ALJ. On December 7, 1998, the presiding ALJ issued an ID granting complainants' motion.

Mitsubishi filed its motion to terminate one day after the ALJ issued Order No. 11. That order, which issued on December 3, 1998, granted in part a motion filed by DIC for sanctions against Mitsubishi. It also ordered that Mitsubishi turn over to DIC a consultancy agreement as to which Mitsubishi had claimed privilege. The ALJ reserved ruling on two aspects of DIC's motion for sanctions until after the then-scheduled hearing. Those parts of DIC's motion are pending before the ALJ.

No petitions for review of the ID's determination to terminate the investigation were filed. There were, however, numerous filings concerning the sanctions issues raised in ALJ Order No. 11.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. § 1337, and Commission rules 210.44, 19 CFR 210.44 and 210.4, 19 CFR 201.4.

Copies of the public version of the ALJ's ID, and all other nonconfidential documents filed in connection with this investigation, are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street S.W., Washington, D.C. 20436, telephone 202-205-2000.
