

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

Dated: February 19, 1999.

#### **DEPARTMENT OF ENERGY**

##### **Office of Arms Control and Nonproliferation Policy; Proposed Subsequent Arrangement**

**AGENCY:** Department of Energy.

**ACTION:** Subsequent arrangement.

**SUMMARY:** Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement." The Government of the United States of America and the Government of the Republic of Korea hereby jointly determine pursuant to Article VIII.C of the Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of Korea Concerning Civil Uses of Atomic Energy, signed November 24, 1972, as amended, that the provisions in Article XI of that Agreement may be effectively applied for the alteration in form or content of U.S.-origin nuclear material contained in irradiated nuclear fuels from pressurized water reactors at the Post Irradiation Examination Facility and the DUPIC Fuel Fabrication Facility at the Headquarters of the Korea Atomic Energy Research Institute in accordance

with the plan contained in KAERI/AR-510/98-rev.1, dated October 1998, as clarified by "Supplementary Statements for the Clarification of Several Technical Issues," dated November 1998. These facilities are acceptable to both parties pursuant to Article VIII(C) of the Agreement for the sole purpose of alteration in form or content of irradiated fuel elements for research and development and manufacture of DUPIC fuel powders, pellets, and elements for the period ending March 31, 2002.

The Government of the United States of America and the Government of the Republic of Korea also refer to the Joint Determination signed on March 29, 1996 concerning the alteration in form or content of U.S.-origin nuclear material contained in irradiated nuclear fuels from pressurized water reactors, CANDU reactors, and a research reactor at the Post Irradiation Examination Facility and the Irradiated Materials Examination Facility at the Headquarters of the Korea Atomic Energy Research Institute in accordance with the plan contained in KAERI/AR-417/95-rev.1, dated May 1995. KAERI/AR-510/98-rev.1, as clarified, is hereby incorporated into the 1995 plan. Incorporation of activities described in KAERI/AR-510/98-rev.1 affects only activities in the Post Irradiation Examination Facility. The Government of the United States and the Government of the Republic of Korea agree that the 1995 Joint Determination remains effective following that incorporation. These facilities are hereby found acceptable to both parties pursuant to article VIII(C) of the Agreement for the sole purpose of alteration in form or content of irradiated fuel elements from the aforementioned reactors for post-irradiation examination for the period ending December 31, 2001.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: February 19, 1999.

For the Department of Energy.
