

**DEPARTMENT OF THE INTERIOR****Bureau of Indian Affairs****Notice of Availability of a Draft Environmental Impact Statement (DEIS) for a Forest Management Plan for the Flathead Indian Reservation, Pablo, Montana**

**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice.

**SUMMARY:** A Draft Environmental Impact Statement (DEIS) for the proposed forest management plan for the trust forest lands of the Flathead Indian Reservation, Pablo, Montana, is now available for public review and comment. A description of the proposed action follows as supplemental information. This notice also announces a public hearing to receive public comments on the DEIS.

**DATES:** Written comments must be received by May 2, 1999. The public hearing will be held on Wednesday, April 21, 1999.

**ADDRESSES:** Address written comments to Mr. Ernest "Bud" Moran, Superintendent, Flathead Agency, Bureau of Indian Affairs, P.O. Box A, Pablo, Montana 59855. The public hearing will take place in the Dan Swaney Conference Room at the Mission Valley Power Headquarters, Pablo, Montana. It will begin at 6 p.m.

To obtain a copy of this DEIS, please write or call Mr. Ralph Goode, Tribal Forestry, Confederated Salish and Kootenai Tribes, P.O. Box 278, Pablo, Montana 59855, Telephone (406) 676-3755. Copies of the DEIS have been sent to all agencies and individuals who participated in the scoping process or who have already requested copies of the document.

**FOR FURTHER INFORMATION CONTACT:** Mr. Ralph Goode, 406-676-3755.

**SUPPLEMENTARY INFORMATION:** There are approximately 451,391 acres of forest trust land on the Flathead Indian Reservation. The Draft Forest Management Plan (the proposed action) takes an interdisciplinary approach to forest management and seeks to restore and maintain the long term ecological integrity of the reservation's forests in a manner consistent with tribal values. The plan describes resource management practices and levels of resource production. It establishes management standards, allocates land and prescribes management practices to achieve balanced forest ecosystems. The plan is needed to: (1) Ensure that management activities are compatible with sustainable forest ecosystems; (2)

balance tribal cultural, social, economic and environmental values; and (3) establish a basis for adaptive management and monitoring that incorporates tribal members' values.

The DEIS includes five alternatives, including a no action alternative. Alternatives One, Two and Three take an ecosystem approach to management. These focus on the overall vegetative structure and composition of the forest rather than on individual stands or on the needs of individual species. They seek to restore, to varying degrees, more natural structures, processes and functions to the forest in order to achieve more sustainable conditions over the long term. Of the three, Alternative One seeks the highest level of restoration, followed by Alternatives Two and Three. Alternative Five takes a passive approach to management, in which timber harvesting would be limited to salvage operations after fires, wind throw, or insect and disease outbreaks. Alternative Four, no action, would continue the management practices of the last forest management plan, which was adopted in 1987.

Alternative Two, the 1996 Draft Forest Plan with updates and revisions made in response to modeling refinements and new information, is both the proposed action and the preferred alternative. It is preferred because it best balances social, cultural, economic and environmental concerns and best meets the stated purpose and need.

This notice is furnished in accordance with § 1503.1 of the Council on Environmental Quality Regulations (40 CFR parts 1500 through 1508) implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and the Department of the Interior Manual (516 DM 1-6), and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.
