DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Assessment or Environmental Impact Statement: Mahoning and Trumbull Counties, Ohio

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an

environmental assessment or environmental impact statement will be prepared for a proposed project in Mahoning and Trumbull Counties, Ohio.

FOR FURTHER INFORMATION CONTACT: Michael B. Armstrong, Field Operations Engineer, Federal Highway Administration, 200 N. High Street, Room 328, Columbus, Ohio 43215, Telephone: (614) 280-6855.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Ohio Department of Transportation (ODOT), will prepare an environmental assessment (EA) or environmental impact statement (EIS) on a proposal to construct a four-lane, limited access, divided highway connecting Interstate 680 to Interstate 80 via an approximately 1.5 mile extension of State Route 711, in Mahoning and Trumbull Counties, Ohio.

Construction of this connector highway is considered necessary to provide a missing link in the regional transportation system and to reduce congestion on existing roadways that serve traffic in the absence of this connection. This proposal needs to provide this connectivity while serving existing and proposed commercial and industrial development.

Alternatives under consideration include: (1) taking no action; (2) constructing a highway on new alignment. The alternative on new alignment has sub-alternatives providing for various access options.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. A series of public meetings will be held in the project area in March and December of 1999. In addition, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The EA or draft EIS will be available for public and agency review and comment prior to the public hearing. No formal scoping meeting is planned at this time.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EA or EIS should be directed to the FHWA at the address provided above.
